European Medicines Agency decision
P/0367/2016

of 21 December 2016

on the granting of a product specific waiver for DNA plasmid encoding HPV type 16 consensus E6 and E7 proteins (pGX3001) / DNA plasmid encoding HPV type 18 consensus E6 and E7 proteins (pGX3002) (EMEA-002022-PIP01-16) in accordance with Regulation (EC) No 1901/2006 of the European Parliament and of the Council

The European Medicines Agency,

Having regard to the Treaty on the Functioning of the European Union,

Having regard to Regulation (EC) No 726/2004 of the European Parliament and of the Council of 31 March 2004 laying down Community procedures for the authorisation and supervision of medicinal products for human and veterinary use and establishing a European Medicines Agency²,

Having regard to the application submitted by Inovio Pharmaceuticals Inc. on 5 August 2016 under Article 13 of Regulation (EC) No 1901/2006,

Having regard to the opinion of the Paediatric Committee of the European Medicines Agency, issued on 11 November 2016 in accordance with Article 13 of Regulation (EC) No 1901/2006,

Having regard to Article 25 of Regulation (EC) No 1901/2006,

Whereas:

(1) The Paediatric Committee has given an opinion on the granting of a product specific waiver.

(2) It is therefore appropriate to adopt a decision granting a waiver.

Has adopted this decision:

Article 1

A waiver for DNA plasmid encoding HPV type 16 consensus E6 and E7 proteins (pGX3001) / DNA plasmid encoding HPV type 18 consensus E6 and E7 proteins (pGX3002), solution for injection (in cartridge), intramuscular use, the details of which are set out in the opinion of the Paediatric Committee of the European Medicines Agency annexed hereto, together with its appendices, is hereby granted.

Article 2

This decision is addressed to Inovio Pharmaceuticals Inc., 660 W. Germantown Pike, Suite 110, PA 19462 - Plymouth Meeting, United States.

Opinion of the Paediatric Committee on the granting of a product-specific waiver
EMEA-002022-PIP01-16

Scope of the application

Active substance(s):
DNA plasmid encoding HPV type 16 consensus E6 and E7 proteins (pGX3001) / DNA plasmid encoding HPV type 18 consensus E6 and E7 proteins (pGX3002)

Condition(s):
Treatment of squamous intraepithelial lesions of the cervix caused by HPV types 16 and 18

Pharmaceutical form(s):
Solution for injection (in cartridge)

Route(s) of administration:
Intramuscular use

Name/corporate name of the PIP applicant:
Inovio Pharmaceuticals Inc.

Basis for opinion

Pursuant to Article 13 of Regulation (EC) No 1901/2006 as amended, Inovio Pharmaceuticals Inc. submitted to the European Medicines Agency on 5 August 2016 an application for a product-specific waiver on the grounds set out in Article 11 of said Regulation for the above mentioned medicinal product.

The procedure started on 13 September 2016.
Opinion

1. The Paediatric Committee, having assessed the waiver application in accordance with Article 13 of Regulation (EC) No 1901/2006 as amended, recommends as set out in the appended summary report:

   • to grant a product-specific waiver for all subsets of the paediatric population and the above mentioned condition(s) in accordance with Article 11(1)(c) of said Regulation, on the grounds that the specific medicinal product does not represent a significant therapeutic benefit over existing treatments for paediatric patients.

   The Norwegian Paediatric Committee member agrees with the above-mentioned recommendation of the Paediatric Committee.

2. The grounds for the granting of the waiver are set out in Annex I.

   This opinion is forwarded to the applicant and the Executive Director of the European Medicines Agency, together with its annex and appendix.
Annex I

Grounds for the granting of the waiver
1. Waiver

1.1. Condition

Treatment of squamous intraepithelial lesions of the cervix caused by HPV types 16 and 18

The waiver applies to:

- all subsets of the paediatric population from birth to less than 18 years of age;
- for solution for injection (in cartridge), intramuscular use;
- on the grounds that clinical studies with the specific medicinal product cannot be expected to be of significant therapeutic benefit to or fulfil a therapeutic need of the specified paediatric subset(s).
