European Medicines Agency decision

P/0020/2021

of 27 January 2021

on the agreement of a paediatric investigation plan and on the granting of a deferral and on the granting of a waiver for esketamine (hydrochloride) (EMA-002772-PIP01-20) in accordance with Regulation (EC) No 1901/2006 of the European Parliament and of the Council

The European Medicines Agency,

Having regard to the Treaty on the Functioning of the European Union,

Having regard to Regulation (EC) No 1901/2006 of the European Parliament and of the Council of 12 December 2006 on medicinal products for paediatric use and amending Regulation (EEC) No. 1768/92, Directive 2001/20/EC, Directive 2001/83/EC and Regulation (EC) No 726/2004¹,

Having regard to Regulation (EC) No 726/2004 of the European Parliament and of the Council of 31 March 2004 laying down Community procedures for the authorisation and supervision of medicinal products for human and veterinary use and establishing a European Medicines Agency²,

Having regard to the application submitted by Celon Pharma S.A. on 24 February 2020 under Article 16(1) of Regulation (EC) No 1901/2006 also requesting a deferral under Article 20 of said regulation and a waiver under Article 13 of said Regulation,

Having regard to the opinion of the Paediatric Committee of the European Medicines Agency, issued on 11 December 2020, in accordance with Article 17 of Regulation (EC) No 1901/2006 and Article 21 of said Regulation and Article 13 of said Regulation and of its own motion in accordance with Article 12 of said Regulation,

Having regard to Article 25 of Regulation (EC) No 1901/2006,

Whereas:

- (1) The Paediatric Committee of the European Medicines Agency has given an opinion on the agreement of a paediatric investigation plan and on the granting of a deferral and on the granting of a waiver.
- (2) It is therefore appropriate to adopt a decision agreeing a paediatric investigation plan.
- (3) It is therefore appropriate to adopt a decision granting a deferral.
- (4) It is therefore appropriate to adopt a decision granting a waiver.

¹ OJ L 378, 27.12.2006, p.1.

² OJ L 136, 30.4.2004, p. 1.

Has adopted this decision:

Article 1

A paediatric investigation plan for esketamine (hydrochloride), inhalation powder, pre-dispensed, inhalation use, the details of which are set out in the opinion of the Paediatric Committee of the European Medicines Agency annexed hereto, together with its appendices, is hereby agreed.

Article 2

A deferral for esketamine (hydrochloride), inhalation powder, pre-dispensed, inhalation use, the details of which are set out in the opinion of the Paediatric Committee of the European Medicines Agency annexed hereto, together with its appendices, is hereby granted.

Article 3

A waiver for esketamine (hydrochloride), inhalation powder, pre-dispensed, inhalation use, the details of which are set out in the opinion of the Paediatric Committee of the European Medicines Agency annexed hereto, together with its appendices, is hereby granted.

Article 4

A product-specific waiver for esketamine (hydrochloride), inhalation powder, pre-dispensed, inhalation use, the details of which are set out in the opinion of the Paediatric Committee of the European Medicines Agency annexed hereto, together with its appendices, is hereby granted.

Article 5

This decision is addressed to Celon Pharma S.A., Ogrodowa 2A, Kielpin, 05-092 – Lomianki, Poland.

EUROPEAN MEDICINES AGENCY
SCIENCE MEDICINES HEALTH

EMA/PDCO/546844/2020
Amsterdam, 11 December 2020

Opinion of the Paediatric Committee on the agreement of a Paediatric Investigation Plan and a deferral and a waiver

EMA-002772-PIP01-20

Scope of the application

Active substance(s):

Esketamine (hydrochloride)

Condition(s):

Treatment of bipolar depression

Treatment of major depressive disorder

Pharmaceutical form(s):

Inhalation powder, pre-dispensed

Route(s) of administration:

Inhalation use

Name/corporate name of the PIP applicant:

Celon Pharma S.A.

Basis for opinion

Pursuant to Article 16(1) of Regulation (EC) No 1901/2006 as amended, Celon Pharma S.A. submitted for agreement to the European Medicines Agency on 24 February 2020 an application for a paediatric investigation plan for the above mentioned medicinal product and a deferral under Article 20 of said Regulation and a waiver under Article 13 of said Regulation.

The procedure started on 31 March 2020.

Supplementary information was provided by the applicant on 21 August 2020. The applicant proposed modifications to the paediatric investigation plan.

Opinion

1. The Paediatric Committee, having assessed the proposed paediatric investigation plan in accordance with Article 17 of Regulation (EC) No 1901/2006 as amended, recommends as set out in the appended summary report:
 - to agree the paediatric investigation plan in accordance with Article 17(1) of said Regulation;
 - to grant a deferral in accordance with Article 21 of said Regulation;
 - to grant a waiver for one or more subsets of the paediatric population in accordance with Article 13 of said Regulation and concluded in accordance with Article 11(1)(b) of said Regulation, on the grounds that the disease or condition for which the specific medicinal product is intended does not occur in the specified subset(s) of the paediatric population, and with Article 11(1)(a) of said Regulation, on the grounds that the specific medicinal product is likely to be ineffective or unsafe in part or all of the paediatric population;
 - to grant a waiver for one or more subsets of the paediatric population of its own motion in accordance with Article 12 of said Regulation and concluded in accordance with Article 11(1)(a) of said Regulation, on the grounds that the specific medicinal product is likely to be ineffective or unsafe in part or all of the paediatric population.

The Norwegian Paediatric Committee member agrees with the above-mentioned recommendation of the Paediatric Committee.

2. The measures and timelines of the agreed paediatric investigation plan and the subset(s) of the paediatric population and condition(s) covered by the waiver are set out in the Annex I.

This opinion is forwarded to the applicant and the Executive Director of the European Medicines Agency, together with its annex and appendix.

Annex I

The subset(s) of the paediatric population and condition(s) covered by the waiver and the measures and timelines of the agreed paediatric investigation plan (PIP)

1. Waiver

1.1. Condition:

Treatment of bipolar depression

The waiver applies to:

- the paediatric population from birth to less than 10 years;
 - inhalation powder, pre-dispensed, inhalation use;
 - on the grounds that the disease or condition for which the specific medicinal product is intended does not occur in the specified paediatric subset(s);
- and
- the paediatric population from 10 years to less than 12 years;
 - inhalation powder, pre-dispensed, inhalation use;
 - on the grounds that the specific medicinal product is likely to be unsafe.

1.2. Condition

Treatment of major depressive disorder

The waiver applies to:

- the paediatric population from birth to less than 7 years;
 - inhalation powder, pre-dispensed, inhalation use;
 - on the grounds that the disease or condition for which the specific medicinal product is intended does not occur in the specified paediatric subset(s);
- and
- the paediatric population from 7 years to less than 12 years;
 - inhalation powder, pre-dispensed, inhalation use;
 - on the grounds that the specific medicinal product is likely to be unsafe.

2. Paediatric investigation plan

2.1. Condition:

Treatment of bipolar depression.

2.1.1. Indication(s) targeted by the PIP

Treatment of treatment-resistant bipolar depression in adolescents.

2.1.2. Subset(s) of the paediatric population concerned by the paediatric development

From 12 years to less than 18 years of age.

2.1.3. Pharmaceutical form(s)

Inhalation powder, pre-dispensed.

2.1.4. Measures

Area	Number of measures	Description
Quality-related studies	0	Not applicable.
Non-clinical studies	0	Not applicable.
Clinical studies	1	Study 1 Double-blind, randomised, placebo-controlled study to assess efficacy and safety of two dose levels of inhaled esketamine in adolescents from 12 years to less than 18 years of age with treatment-resistant bipolar depression.
Extrapolation, modelling and simulation studies	1	Study 2 Modelling and simulation study to determine dosing of esketamine for the treatment of bipolar depression and major depressive disorder in adolescents from 12 years to less than 18 years of age.
Other studies	0	Not applicable.
Other measures	0	Not applicable.

2.2. Condition:

Treatment of major depressive disorder.

2.2.1. Indication(s) targeted by the PIP

Treatment-resistant depression in the course of major depressive disorder in adolescents.

2.2.2. Subset(s) of the paediatric population concerned by the paediatric development

From 12 years to less than 18 years of age.

2.2.3. Pharmaceutical form(s)

Inhalation powder, pre-dispensed.

2.2.4. Measures

Area	Number of measures	Description
Quality-related studies	0	Not applicable.
Non-clinical studies	0	Not applicable.
Clinical studies	1	Study 3 Double-blind, randomised, placebo-controlled study to assess efficacy and safety of two dose levels of inhaled esketamine in adolescents from 12 years to less than 18 years of age with treatment-resistant depression in major depressive disorder.
Extrapolation, modelling and simulation studies	1	Study 2 <i>Same as study 2 for condition: Treatment of bipolar depression.</i>
Other studies	0	Not applicable.
Other measures	0	Not applicable.

3. Follow-up, completion and deferral of PIP

Concerns on potential long term safety/efficacy issues in relation to paediatric use:	Yes
Date of completion of the paediatric investigation plan:	By July 2028
Deferral for one or more measures contained in the paediatric investigation plan:	Yes
