

EUROPEAN MEDICINES AGENCY
SCIENCE MEDICINES HEALTH

04 November 2020
EMA/CAT/588925/2020
Human Medicines Division

Committee for Advanced Therapies (CAT)

Agenda for the meeting on 04-06 November 2020

Chair: Martina Schübler-Lenz; Vice-Chair: Ilona Reischl

04 November 2020, 14:00 – 18:00, virtual meeting

05 November 2020, 09:00 – 18:00, virtual meeting

06 November 2020, 09:00 – 13:00, virtual meeting

Disclaimers

Some of the information contained in this agenda is considered commercially confidential or sensitive and therefore not disclosed. With regard to intended therapeutic indications or procedure scopes listed against products, it must be noted that these may not reflect the full wording proposed by applicants and may also vary during the course of the review. Additional details on some of these procedures will be published in the CAT meeting reports once the procedures are finalised.

Of note, this agenda is a working document primarily designed for CAT members and the work the Committee undertakes.

Note on access to documents

Some documents mentioned in the agenda cannot be released at present following a request for access to documents within the framework of Regulation (EC) No 1049/2001 as they are subject to on-going procedures for which a final decision has not yet been adopted. They will become public when adopted or considered public according to the principles stated in the Agency policy on access to documents (EMA/127362/2006).

Table of contents

1.	Introduction	5
1.1.	Welcome and declarations of interest of members, alternates and experts.....	5
1.2.	Adoption of agenda	5
1.3.	Adoption of the minutes	5
2.	Evaluation of ATMPs	5
2.1.	Opinions	5
2.2.	Oral explanations	5
2.3.	Day 180 list of outstanding issues	5
2.4.	Day 120 list of questions	5
2.4.1.	Lisocabtagene maraleucel - Orphan - EMEA/H/C/004731	5
2.5.	Day 80 assessment reports	5
2.5.1.	Autologous human chondrocytes in vitro expanded - EMEA/H/C/004598.....	6
2.6.	Update on ongoing initial applications.....	6
2.6.1.	Eladocagene exuparvovec - Orphan - EMEA/H/C/005352	6
2.7.	New applications	6
2.8.	Withdrawal of initial marketing authorisation application	6
2.9.	Re-examination of initial application procedures under Article 9(2) of Regulation No. 726/2004	6
2.10.	GMP and GCP inspections requests.....	6
2.11.	Type II variations - variation of therapeutic indication procedure according to Commission Regulation (EC) No 1234/2008	6
2.11.1.	Kymriah - tisagenlecleucel - Orphan - EMEA/H/C/004090/II/0026/G.....	6
2.11.2.	Kymriah - tisagenlecleucel - Orphan - EMEA/H/C/004090/II/0027	7
2.11.3.	Kymriah - tisagenlecleucel - Orphan - EMEA/H/C/004090/II/0028/G.....	7
2.11.4.	Zolgensma - onasemnogene abeparvovec - Orphan - EMEA/H/C/004750/II/0006.....	7
2.11.5.	Zolgensma - onasemnogene abeparvovec - Orphan - EMEA/H/C/004750/II/0007/G	7
2.12.	Extension applications.....	7
2.13.	Other Post-Authorisation Activities	7
2.13.1.	Zolgensma - onasemnogene abeparvovec - Orphan - EMEA/H/C/004750/REC/013	7
2.13.2.	Zolgensma - onasemnogene abeparvovec - Orphan - EMEA/H/C/004750/REC/014	8
3.	Certification of ATMPs	8
3.1.	Opinion.....	8
3.2.	Day 60 Evaluation Reports.....	8
3.3.	New Applications.....	8
4.	Scientific Recommendation on Classification of ATMPs	8
4.1.	New requests – Appointment of CAT Coordinator	8

4.1.1.	Autologous bone marrow derived mesenchymal stem cells (amyotrophic lateral sclerosis) ..	8
4.1.2.	Autologous bone marrow derived mesenchymal stem cells (multiple sclerosis)	8
4.1.3.	Human autologous anti-CD19 chimeric antigen T cells	8
4.1.4.	Autologous omental adipose tissue and biodegradable fibrin glue	9
4.1.5.	Messenger ribonucleic acid (mRNA) encoding the human glucose debranching enzyme (GDE)	9
4.1.6.	<i>In vitro</i> transcribed messenger ribonucleic acid (mRNA) encoding human interleukin 2 (IL-2), linked to interfering RNA targeting vascular endothelial growth factor A (VEGF-A)	9
4.1.7.	Wharton's jelly derived mesenchymal stem cells (WJ-MSCs) (multiple sclerosis).....	9
4.1.8.	Wharton's jelly derived mesenchymal stem cells (WJ-MSCs) (amyotrophic lateral sclerosis)	9
4.2.	Day 30 ATMP scientific recommendation	9
4.2.1.	Autologous CD34+ cells transduced with a lentiviral vector encoding human cystinosin	9
4.2.2.	Autologous tumour-infiltrating lymphocytes	10
4.2.3.	Delolimogene mupadenorepvec (oncolytic adenovirus expressing two immunostimulatory transgenes (TMZ-CD40L and 4-1BBL))	10
4.2.4.	Allogeneic cord tissue-derived mesenchymal stromal cells	10
4.3.	Day 60 revised scientific recommendation (following list of questions)	10
4.3.1.	3D bio-printed bionic pancreas composed of islets of Langerhans and non-viable printable porcine-derived matrix plus porcine-derived decellularised blood vessel – H0005801.....	10
4.3.2.	3D bio-printed bionic pancreas composed of insulin- and glucagon-releasing cells and non-viable printable porcine-derived matrix plus porcine-derived decellularised blood vessel – H0005802	10
4.4.	Finalisation of procedure	11
4.4.1.	Recombinant serotype 9 adeno-associated virus (rAAV9) encoding a codon-optimised human neuronal ceroid lipofuscinosis-5 (CLN5) transgene – H0005800	11
4.4.2.	Autologous adipose-derived mesenchymal stem cell , diabetic foot syndrome - H0005699	11
4.5.	Follow-up and guidance.....	11
5.	Scientific Advice	11
5.1.	New requests – appointment of CAT Rapporteurs	11
5.2.	CAT reports.....	11
5.3.	List of Issues	11
5.4.	Finalisation of SA procedures	11
6.	Pre-Authorisation Activities	11
6.1.	Paediatric investigation plans.....	11
6.2.	ITF briefing meetings in the field of ATMPs	11
6.3.	Priority Medicines (PRIME) – Eligibility requests.....	12
6.3.1.	Month 0 - Start of the procedure	12
6.3.2.	Month 1 – Discussion of eligibility	12
6.3.3.	Month 2 – Recommendation of eligibility.....	12
6.3.4.	Ongoing support.....	12

7.	Organisational, regulatory and methodological matters	12
7.1.	Mandate and organisation of the CAT	12
7.1.1.	CAT membership	12
7.1.2.	Strategic Review & Learning (virtual) meeting (SRLM) under the German presidency, October 2020	12
7.1.3.	Procedure on voting remotely with Adobe Connect	12
7.1.4.	Revised policies for declaration of interests for committee members, experts and Management Board's members	13
7.2.	Coordination with EMA Scientific Committees	13
7.3.	Coordination with EMA Working Parties/Working Groups/Drafting Groups	13
7.3.1.	Workshop on the draft guideline on registry-based studies	13
7.3.2.	Ad-hoc group on 'Comprehensiveness of data': nomination of CAT members	13
7.3.3.	EMA's annual meeting with committees' civil society representatives and committees' chairs, 19 October 2020	13
7.3.4.	Quality Review of Documents (QRD) meeting on the topic of labelling for cell-based ATMPs for autologous use – Lot information sheet/release for infusion certificates	13
7.4.	Cooperation within the EU regulatory network	14
7.4.1.	European Commission's initiative on GMO – interplay GMO-pharma	14
7.5.	Cooperation with international regulators	14
7.5.1.	ATMP cluster teleconference with FDA-USA, Health Canada and PMDA-Japan	14
7.5.2.	International Pharmaceutical Regulators Programme (IPRP) – Cell therapy working group	14
7.5.3.	International Pharmaceutical Regulators Programme (IPRP) – Gene therapy working group	14
7.6.	CAT work plan	14
7.7.	Planning and reporting	14
7.8.	Others	14
8.	Any other business	14

1. Introduction

1.1. Welcome and declarations of interest of members, alternates and experts

Pre-meeting list of participants and restrictions in relation to declarations of interests applicable to the items of the agenda for the CAT plenary session to be held 04-06 November 2020. See November 2020 CAT minutes (to be published post-December 2020 CAT meeting).

1.2. Adoption of agenda

CAT agenda for 04-06 November 2020 meeting

1.3. Adoption of the minutes

CAT minutes for 07-09 October 2020 meeting

2. Evaluation of ATMPs

2.1. Opinions

No items

2.2. Oral explanations

No items

2.3. Day 180 list of outstanding issues

No items

2.4. Day 120 list of questions

2.4.1. [Lisocabtagene maraleucel - Orphan - EMEA/H/C/004731](#)

Accelerated assessment

Celgene Europe BV; treatment of large B-cell lymphoma, diffuse large B-cell lymphoma (DLBCL), primary mediastinal large B-cell lymphoma (PMBCL) and follicular lymphoma grade 3B (FL3B)

Scope: Day 120 list of questions

Action: for adoption

2.5. Day 80 assessment reports

2.5.1. Autologous human chondrocytes in vitro expanded - EMEA/H/C/004598

Repair of cartilage defects of the knee joint

Scope: Day 80 assessment report

Action: for information

2.6. Update on ongoing initial applications

2.6.1. Eladocagene exuparvovec - Orphan - EMEA/H/C/005352

PTC Therapeutics International Limited; treatment of aromatic L-amino acid decarboxylase (AADC) deficiency

Scope: request from the applicant dated 02.11.2020 requesting a second clock stop.

Action: for adoption

2.7. New applications

No items

2.8. Withdrawal of initial marketing authorisation application

No items

2.9. Re-examination of initial application procedures under Article 9(2) of Regulation No. 726/2004

No items

2.10. GMP and GCP inspections requests

No items

2.11. Type II variations - variation of therapeutic indication procedure according to Commission Regulation (EC) No 1234/2008

2.11.1. Kymriah - tisagenlecleucel - Orphan - EMEA/H/C/004090/II/0026/G

Novartis Europharm Limited

Rapporteur: Rune Kjekken

Scope: Quality. Opinion

Action: for adoption

Request for Supplementary Information adopted on 09.10.2020.

2.11.2. Kymriah - tisagenlecleucel - Orphan - EMEA/H/C/004090/II/0027

Novartis Europharm Limited

Rapporteur: Rune Kjeklen

Scope: Quality. Opinion

Action: for adoption

Request for Supplementary Information adopted on 09.10.2020.

2.11.3. Kymriah - tisagenlecleucel - Orphan - EMEA/H/C/004090/II/0028/G

Novartis Europharm Limited

Rapporteur: Rune Kjeklen

Scope: Quality. Opinion

Action: for adoption

2.11.4. Zolgensma - onasemnogene abeparvovec - Orphan - EMEA/H/C/004750/II/0006

AveXis EU Limited

Rapporteur: Hans Ovelgönne

Scope: Quality. Opinion

Action: for adoption

Request for Supplementary Information adopted on 09.10.2020.

2.11.5. Zolgensma - onasemnogene abeparvovec - Orphan - EMEA/H/C/004750/II/0007/G

AveXis EU Limited

Rapporteur: Hans Ovelgönne

Scope: Quality

Request for supplementary information

Action: for adoption

2.12. Extension applications

No items

2.13. Other Post-Authorisation Activities

2.13.1. Zolgensma - onasemnogene abeparvovec - Orphan - EMEA/H/C/004750/REC/013

AveXis EU Limited

Rapporteur: Hans Ovelgönne, CHMP Coordinator: Johann Lodewijk Hillege

Scope: Quality

From Letter of recommendation.

Action: for adoption

2.13.2. Zolgensma - onasemnogene abeparvovec - Orphan - EMEA/H/C/004750/REC/014

AveXis EU Limited

Rapporteur: Hans Ovelgönne, CHMP Coordinator: Johann Lodewijk Hillege

Scope: Quality
From Letter of recommendation.

Action: for adoption

3. Certification of ATMPs

Information related to this section cannot be released at the present time as it is deemed to contain commercially confidential information.

3.1. Opinion

No items

3.2. Day 60 Evaluation Reports

No items

3.3. New Applications

No items

4. Scientific Recommendation on Classification of ATMPs

4.1. New requests – Appointment of CAT Coordinator

4.1.1. Autologous bone marrow derived mesenchymal stem cells (amyotrophic lateral sclerosis)

Intended for the treatment of multiple sclerosis

Scope: appointment of CAT Coordinator and adoption of timetable

Action: for adoption

4.1.2. Autologous bone marrow derived mesenchymal stem cells (multiple sclerosis)

Intended for the treatment of multiple sclerosis

Scope: appointment of CAT Coordinator and adoption of timetable

Action: for adoption

4.1.3. Human autologous anti-CD19 chimeric antigen T cells

Intended for the treatment of B- cell malignancies

Scope: appointment of CAT Coordinator and adoption of timetable

Action: for adoption

4.1.4. Autologous omental adipose tissue and biodegradable fibrin glue

Intended for the treatment of renal traumatic/disease conditions

Scope: appointment of CAT Coordinator and adoption of timetable

Action: for adoption

4.1.5. Messenger ribonucleic acid (mRNA) encoding the human glucose debranching enzyme (GDE)

Intended for the treatment of glycogen storage disease III

Scope: appointment of CAT Coordinator and adoption of timetable

Action: for adoption

4.1.6. *In vitro* transcribed messenger ribonucleic acid (mRNA) encoding human interleukin 2 (IL-2), linked to interfering RNA targeting vascular endothelial growth factor A (VEGF-A)

Intended for the treatment of solid tumours

Scope: appointment of CAT Coordinator and adoption of timetable

Action: for adoption

4.1.7. Wharton's jelly derived mesenchymal stem cells (WJ-MSCs) (multiple sclerosis)

Intended for the treatment of multiple sclerosis

Scope: appointment of CAT Coordinator and adoption of timetable

Action: for adoption

4.1.8. Wharton's jelly derived mesenchymal stem cells (WJ-MSCs) (amyotrophic lateral sclerosis)

Intended for the treatment of amyotrophic lateral sclerosis

Scope: appointment of CAT Coordinator and adoption of timetable

Action: for adoption

4.2. Day 30 ATMP scientific recommendation

4.2.1. Autologous CD34+ cells transduced with a lentiviral vector encoding human cystinosin

Intended for the treatment of cystinosis

Scope: ATMP scientific recommendation

Action: for adoption

4.2.2. Autologous tumour-infiltrating lymphocytes

Intended for the treatment of advance melanoma

Scope: ATMP scientific recommendation

Action: for adoption

4.2.3. Delolimogene mupadenorepvec (oncolytic adenovirus expressing two immunostimulatory transgenes (TMZ-CD40L and 4-1BBL))

Intended for the treatment of cancer

Scope: ATMP scientific recommendation

Action: for adoption

4.2.4. Allogeneic cord tissue-derived mesenchymal stromal cells

Intended for the treatment of inflammatory and immunological diseases (acute graft-versus-host disease, systemic lupus erythematosus, systemic sclerosis, acute respiratory distress syndrome)

Scope: ATMP scientific recommendation

Action: for adoption

4.3. Day 60 revised scientific recommendation (following list of questions)

4.3.1. 3D bio-printed bionic pancreas composed of islets of Langerhans and non-viable printable porcine-derived matrix plus porcine-derived decellularised blood vessel – H0005801

Intended for the treatment of late-chronic pancreatitis

Scope: Responses from the applicant to the list of questions. Revised ATMP scientific recommendation

Action: for adoption

A List of Issues was adopted on 09.10.2020.

4.3.2. 3D bio-printed bionic pancreas composed of insulin- and glucagon-releasing cells and non-viable printable porcine-derived matrix plus porcine-derived decellularised blood vessel – H0005802

Intended for the treatment of brittle diabetes mellitus type I

Scope: Responses from the applicant to the LoIs. Revised ATMP scientific recommendation

Action: for adoption

A List of Issues was adopted on 09.10.2020.

4.4. Finalisation of procedure

4.4.1. Recombinant serotype 9 adeno-associated virus (rAAV9) encoding a codon-optimised human neuronal ceroid lipofuscinosis-5 (CLN5) transgene – H0005800

Intended for the treatment of neuronal ceroid lipofuscinosis type 5

Scope: the European Commission raised no comments. ATMP scientific recommendation

Action: for information

4.4.2. Autologous adipose-derived mesenchymal stem cell , diabetic foot syndrome - H0005699

Intended for the treatment of diabetic foot syndrome

Scope: the European Commission raised no comments. ATMP scientific recommendation

Action: for information

4.5. Follow-up and guidance

No items

5. Scientific Advice

Information related to this section cannot be released at the present time as it is deemed to contain commercially confidential information.

5.1. New requests – appointment of CAT Rapporteurs

5.2. CAT reports

5.3. List of Issues

5.4. Finalisation of SA procedures

6. Pre-Authorisation Activities

Information related to this section cannot be released at the present time as it is deemed to contain commercially confidential information.

6.1. Paediatric investigation plans

No items

6.2. ITF briefing meetings in the field of ATMPs

No items

6.3. Priority Medicines (PRIME) – Eligibility requests

6.3.1. Month 0 - Start of the procedure

Timetable:

Procedure start: 29.10.2020

SAWP recommendation: 26.11.2020

CAT recommendation: 05.12.2020

CHMP adoption of report and final recommendation: 10.12.2020

6.3.2. Month 1 – Discussion of eligibility

6.3.3. Month 2 – Recommendation of eligibility

6.3.4. Ongoing support

No items

7. Organisational, regulatory and methodological matters

7.1. Mandate and organisation of the CAT

7.1.1. CAT membership

Lithuania: Raimondas Benetis – membership mandate (alternate) started on 18 October 2020

Lithuania: Vitalis Briedis - membership mandate (alternate) ended on 18 October 2020

Romania: Gianina Andrei – membership mandate (alternate) ended on 28 October 2020

Action: for information

7.1.2. Strategic Review & Learning (virtual) meeting (SRLM) under the German presidency, October 2020

CAT: Martina Schübler-Lenz, Egbert Flory

Scope: feedback on the SRLM meeting that took place on 22 October 2020

Action: for discussion

7.1.3. Procedure on voting remotely with Adobe Connect

Scope: improved procedure on the voting exercise: procedure, management and recording

Action: for information

7.1.4. Revised policies for declaration of interests for committee members, experts and Management Board's members

Scope: Policy 0044: Handling of competing interests of scientific committees' members and experts

Action: for information

7.2. Coordination with EMA Scientific Committees

No items

7.3. Coordination with EMA Working Parties/Working Groups/Drafting Groups

7.3.1. Workshop on the draft guideline on registry-based studies

CAT: Lisbeth Barkholt, Carla Herberts, Maura O'Donovan, Ilona Reischl

Scope: feedback on the workshop that took place on 19 October 2020 where the guideline was presented

Action: for information

Note:

-Draft Guideline on registry-based studies has been published for consultation until 31 December 2020: [LINK](#)

7.3.2. Ad-hoc group on 'Comprehensiveness of data': nomination of CAT members

CAT: Martina Schübler-Lenz

Scope: nomination of CAT members with experience in the assessment of clinical data and with a link to CHMP and/or SAWP to a CHMP-CAT-SAWP ad-hoc working group. The group is set up to reflect on comprehensiveness of data at marketing authorisation.

Action: for nomination of CAT members

7.3.3. EMA's annual meeting with committees' civil society representatives and committees' chairs, 19 October 2020

CAT: Martina Schübler-Lenz, Alessandro Aiuti, Kieran Breen, Lydie Meheus, Kerstin Sollerbrant Melefors
Scope: feedback on the annual meeting that took place on 19 October 2020

Action: for information

7.3.4. Quality Review of Documents (QRD) meeting on the topic of labelling for cell-based ATMPs for autologous use – Lot information sheet/release for infusion certificates

Action: for information

7.4. Cooperation within the EU regulatory network

7.4.1. European Commission's initiative on GMO – interplay GMO-pharma

Scope: update of documents on genetically modified cells and new document on shedding from oncologic viruses

Action: for information

7.5. Cooperation with international regulators

7.5.1. ATMP cluster teleconference with FDA-USA, Health Canada and PMDA-Japan

CAT: Martina Schüssler-Lenz

Scope: agenda for the teleconference to take place on 12 November 2020

Action: for discussion

7.5.2. International Pharmaceutical Regulators Programme (IPRP) – Cell therapy working group

CAT: Ivana Haunerova

Scope: feedback from the teleconference that took place on 20 October 2020

Action: for discussion

7.5.3. International Pharmaceutical Regulators Programme (IPRP) – Gene therapy working group

CAT: Pille Säälük

Scope: agenda of the teleconference that will take place on 12 November 2020

Action: for discussion

7.6. CAT work plan

No items

7.7. Planning and reporting

None

7.8. Others

None

8. Any other business

No items

Date of next CAT meeting:

02-04/12/2020

9. Explanatory notes

The Notes give a brief explanation of relevant agenda items and should be read in conjunction with the agenda.

 SmPC: Summary of Products Characteristics
 TT: Timetable

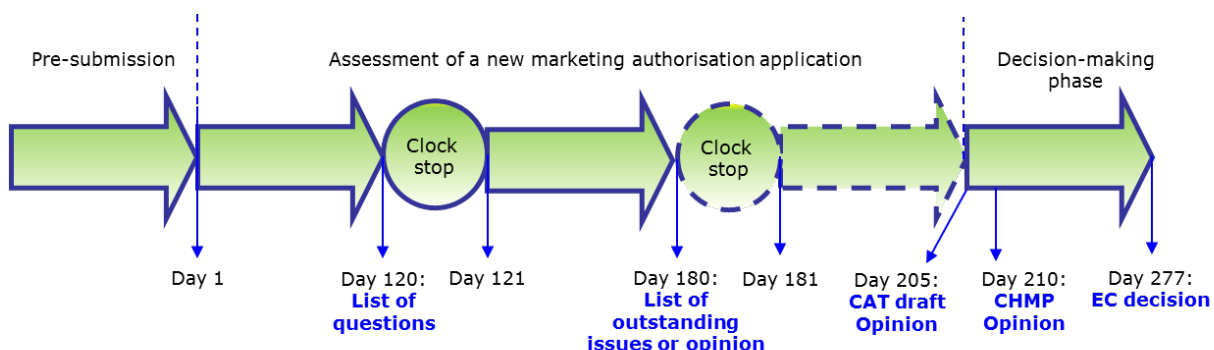

Evaluation of ATMPs (section 2)

This section lists applications for marketing authorisations of new Advanced Therapy Medicinal Products (ATMPs) that are to be discussed by the Committee. It also lists any ATMP related inspection requests (section 2.9) and Post-authorisation activities (section 2.10).

New applications (sections 2.1. to 2.12.)

Section 2.1 is for ATMPs nearing the end of the evaluation and for which the CAT is expected to adopt a draft **opinion** at this meeting on whether marketing authorisation should be granted. Once adopted, the CAT opinion is transmitted to the CHMP for final adoption. The CHMP opinion will be forwarded to the European Commission for a final legally binding decision valid throughout the EU. More information on the evaluation of ATMPs can be found [here](#).

The other items in the section are listed depending on the stage of the evaluation, which is shown graphically below:

The assessment of an application for a new medicine takes up to 210 'active' days. This active evaluation time is interrupted by at least one 'clock-stop' during which time the applicant prepares the answers to questions from the CAT. The clock stop happens after day 120 and may also happen after day 180, when the CAT has adopted respectively a **Day 120 list of questions** (section 2.3) or a List of outstanding issues to be addressed by the company, which is listed in the agenda under sections 2.7 (**Ongoing evaluation procedures**). Section 2.7 also includes the CAT discussions at any other timepoint of the evaluation procedure of new applications.

Oral explanation (section 2.2.)

Prior to adoption of the CAT opinion, marketing authorisation applicants are normally invited to the CAT plenary meeting to address questions raised by the Committee.

Oral explanations normally relate to ongoing applications, but they can also relate to any other issue for which the CAT would like to discuss with company representatives in person.

Re-examination procedures (new applications) under article 9(2) of regulation no 726/2004 (section 2.6.)

This section lists applications for new marketing authorisation for ATMPs for which the applicant has requested a re-examination of the opinion previously issued by the CHMP. Similar to the initial evaluation of a marketing authorisation of an ATMP, CAT will adopt a draft re-examination opinion, which is transmitted to the CHMP for final adoption.

Withdrawal of applications (section 2.7.)

This section includes information on marketing authorisation applications that are withdrawn by the applicant. Applicants may decide to withdraw applications at any stage during the assessment and a CAT opinion will therefore not be issued. Withdrawals are included in the agenda for information or discussion, as necessary.

New applications (section 2.9.)

In this section, information is included on upcoming marketing authorisation applications for ATMPs, as well as information on appointment of Rapporteurs for new ATMP applications.

GMP and GCP Inspections Issues (section 2.10.)

This section lists inspections that are undertaken for ATMPs. Inspections are carried out by regulatory agencies to ensure that marketing authorisation holders comply with their obligations. Inspection can relate to good manufacturing practice (GMP), good clinical practice (GCP), good laboratory practice (GLP) or good pharmacovigilance practice (GVP).

Post-authorisation activities (section 2.12.)

This section lists type II variations, extension application according to Annex I of Reg. 1234/2008, re-examination procedures for type II variations (including extension of indication applications) for which the applicant has requested re-examination of the opinion previously issued by the CHMP and other issues concerning authorised medicines that are not covered elsewhere in the agenda such as annual reassessments, 5-year renewals, supply shortages, qualify defects. Issues that have been discussed at the previous meeting of the PRAC, the EMA's committee responsible for evaluating and monitoring safety issues for medicines, will also be included here.

Certification of ATMPs (section 3)

This section includes the scientific evaluation by the CAT of quality and non-clinical data that small and medium-sized enterprises have generated at any stage of the ATMP development process. More information on the ATMP certification procedure can be found [here](#).

Scientific Recommendation on Classification of ATMPs (Section 4)

This section includes the scientific recommendation by the CAT on whether medicines based on genes, cells or tissues meet the scientific criteria that define ATMPs. More information on the ATMP classification procedure, including the outcomes of finalised classifications, can be found [here](#).

Scientific Advice (section 5)

This section includes all scientific advice given to companies during the development of an ATMP. Information related to the number of ATMP related scientific advices discussed by CAT can be found in the CAT Monthly reports. Further information on SAWP can be found [here](#).

Pre-Authorisation (section 6)

Paediatric Investigation Plan (PIP)

This section includes the discussion of an ATMP before a formal application for marketing authorisation is submitted. These cases refer for example to requests for an accelerated assessment for medicines that

are of major interest for public health or can be considered a therapeutic innovation: in case of an accelerated assessment the assessment timetable is reduced from 210 to 150 days.

CAT contributes to the evaluation of a Paediatric Investigation Plan (PIPs) for ATMPs by the Paediatric Committee. These PIPs are included in this section of the Agenda.

ITF Briefing meeting in the field of ATMPs

This section refers to briefing meetings of the Innovation Task Force and International co-operations activities of the CAT

The Innovation Task Force (ITF) is a body set up to encourage early dialogue with applicants developing innovative medicines. Minutes of meetings with applicants developing ATMPs and of other ITF meetings of interest to the CAT are included in this section of the agenda. Further information on the ITF can be found [here](#).

Priority Medicines (PRIME)

This section includes the new requests for eligibility to PRIME for ATMPs under development, the discussions in CAT of these eligibility requests and the final recommendations for eligibility of ATMPs adopted by CHMP.

CAT will appoint one of its members as the CAT sponsor for each new ATMP eligibility request who will lead the CAT discussion based on the recommendation from the SAWP.

Organisational, regulatory and methodological matters (section 7)

This section includes topics related to regulatory and procedural guidance, CAT workplan, CAT meeting organisation (including CAT membership), planning and reporting, co-ordination with other committees, working parties and scientific advisory groups.

Furthermore, this section refers to the activities of the CAT drafting groups developing scientific guidelines for gene therapy medicinal products and for cell-based medicinal products, cooperation within the EU regulatory network and international regulators as well as direct interaction with interested parties. It also includes topics of scientific interest for the Committee that are not directly related to the work of the CAT drafting groups or CAT associated working parties.

Any other business (section 8)

This section is populated with miscellaneous topics not suitable under the previous headings.

More detailed information on the above terms can be found on the EMA website: www.ema.europa.eu/
