

EMA veterinary medicines innovation day

Thursday, 19 April 2018

European Medicines Agency
London, United Kingdom

EUROPEAN MEDICINES AGENCY
SCIENCE MEDICINES HEALTH

About this event

The objective of this meeting is to further raise awareness of the support available to facilitate innovation of veterinary medicines by giving an overview of the legislative framework and by describing the support offered by the EMA and interactions with stakeholders. This event is open to all companies and stakeholders developing veterinary medicinal products.

Arrival at the Agency and registration

On arriving for your meeting at 30 Churchill Place, please report to reception where you will be issued with an access pass. This pass will allow you to enter our industry lounge, which you are welcome to utilise during your visit. The industry lounge is located through the sliding doors to the right of the reception desk past the security turnstiles. Your EMA contact point will meet you there.

We strongly advise you to arrive up to 30 minutes before the start of the info day, to allow you time for registration. Please note that the Agency requires all visitors to provide a valid photo ID on arrival, such as passport, identity card or driving licence. Participants without a valid photo ID may be turned away.

Media disclaimer

The Agency records or broadcasts a number of its meetings, including some virtual meetings. This is part of the Agency's commitment to the principle of transparency as enshrined in the Treaty on European Union.

The Agency herewith informs attendees that this particular meeting will be recorded and broadcast. For more information about processing of personal data by EMA, please visit the [EMA website](#) or contact: dataprotection@ema.europa.eu. By attending this meeting you consent to any recording or broadcast.
