General comments to draft document

Interested party	Comment and Rationale	Outcome
ESCOP	ESCOP appreciates the draft for a Community Herbal Monograph on " <i>Commiphora molmol</i> , gummi-resina" prepared by the Committee on Herbal Medicinal Products (HMPC). However, we propose the following	

SPECIFIC COMMENTS ON TEXT

Section number and heading	Interested party	Comment and Rationale	Outcome
4.2. Posology and method of administration	ESCOP	According to the European Pharmacopoeia, tinctures are prepared using either 1 part of herbal drug and 10 parts of extraction solvent, or 1 part of herbal drug and 5 parts of extraction solvent. The concentration of the tincture should be specified.	The concentration of the tincture (1:5) is given in the monograph under heading 2. Qualitative and Quantitative Composition. No change of monograph.
