# European Union herbal monograph on *Panax ginseng* C.A. Mey., radix

## 1. Name of the medicinal product

To be specified for the individual finished product.

## 2. Qualitative and quantitative composition<sup>1, 2</sup>

| Well-established use | Traditional use   |
|----------------------|---|
|                      | <p>With regard to the registration application of Article 16d(1) of Directive 2001/83/EC</p> <p><i>Panax ginseng</i> C.A. Mey., radix (Ginseng)</p> <p>i) Herbal substance</p> <p>Not applicable.</p> <p>ii) Herbal preparations</p> <p><u>White ginseng:</u></p> <p>a) Comminuted herbal substance</p> <p>b) Powdered herbal substance</p> <p>c) Dry extract (DER 2-7:1), extraction solvent ethanol 34-40% V/V</p> <p>d) Dry extract (DER 3-7:1), extraction solvent ethanol 40% V/V, containing 4% ginsenosides (sum of Rb<sub>1</sub>, Rb<sub>2</sub>, Rc, Rd, Re, Rf, Rg<sub>1</sub>, Rg<sub>2</sub>)</p> <p>e) Dry extract (DER 3-7:1), extraction solvent ethanol 57.9% V/V (=50% m/m)-60% V/V</p> <p>f) Dry extract (DER 3.3-5:1), extraction solvent methanol 60% V/V</p> <p>g) Soft extract (DER 1.7-3.2:1), extraction solvent ethanol 60%-70% V/V</p> <p>h) Soft extract (DER 2-6:1), extraction solvent methanol 30% V/V</p> <p>i) Liquid extract (DER 1: 0.8-1.2), extraction solvent ethanol 30.5% V/V</p> |

<sup>1</sup> The declaration of the active substance(s) for an individual finished product should be in accordance with relevant herbal quality guidance.

<sup>2</sup> The material complies with the Ph. Eur. monograph (ref.: 1523)

| Well-established use | Traditional use  |
|----------------------|--|
|                      | <p>(=25% m/m) – 34% m/m</p> <p>j) Liquid extract (DER 1:11-13.6), extraction solvent liquor wine</p> <p><u>Red Ginseng:</u></p> <p>k) Powdered herbal substance</p> <p>l) Dry extract (DER 2-4.5:1), extraction solvent ethanol 60% V/V solvent</p> <p>m) Soft extract (DER 2.5-3.2:1), extraction solvent ethanol 60% V/V</p> |

### 3. Pharmaceutical form

| Well-established use | Traditional use   |
|----------------------|---|
|                      | <p>Comminuted herbal substance (herbal preparation a)) as herbal tea for oral use.</p> <p>Herbal preparations f, k, l in solid dosage forms for oral use.</p> <p>Herbal preparations g, h, i, j, m in liquid dosage forms for oral use.</p> <p>Herbal preparations b, c, d, e in solid and liquid dosage forms for oral use.</p> <p>The pharmaceutical form should be described by the European Pharmacopoeia full standard term.</p> |

### 4. Clinical particulars

#### 4.1. Therapeutic indications

| Well-established use | Traditional use   |
|----------------------|---|
|                      | <p>Traditional herbal medicinal product for symptoms of asthenia such as fatigue and weakness.</p> <p>The product is a traditional herbal medicinal product for use in the specified indication exclusively based upon long-standing use.</p> |

## 4.2. Posology and method of administration<sup>3</sup>

| Well-established use | Traditional use  |
|----------------------|--|
|                      | <p><b>Posology</b></p> <p><i>Adults and elderly</i></p> <p><u>White ginseng:</u></p> <p>a) Comminuted herbal substance:</p> <p style="padding-left: 20px;">Herbal tea: 1000-2000 mg of the comminuted herbal substance in 150 ml of water as a decoction 2-3 times daily</p> <p>b) Powdered herbal substance:</p> <p style="padding-left: 20px;">Single dose: 250-1200 mg</p> <p style="padding-left: 20px;">Daily dose: 600-2000 mg</p> <p style="padding-left: 20px;">Dosage frequency: once daily (1200 mg), 2-8 times daily</p> <p>c) Dry extract (DER 2-7:1), extraction solvent ethanol 34-40% V/V</p> <p style="padding-left: 20px;">Single dose: 90-360 mg</p> <p style="padding-left: 20px;">Daily dose: 200-670 mg</p> <p style="padding-left: 20px;">Dosage frequency: 1-4 times daily</p> <p>d) Dry extract (DER 3-7:1), extraction solvent ethanol 40% V/V, containing 4% ginsenosides (sum of Rb<sub>1</sub>, Rb<sub>2</sub>, Rc, Rd, Re, Rf, Rg<sub>1</sub>, Rg<sub>2</sub>)</p> <p style="padding-left: 20px;">Single dose: 40-200 mg</p> <p style="padding-left: 20px;">Daily dose: 40-200 mg (can be increased up to 600 mg in the first 5 days in special situations)</p> <p style="padding-left: 20px;">Dosage frequency: 1-2 times daily</p> <p>e) Dry extract (DER 3-7:1), extraction solvent ethanol 57.9 % V/V (=50% m/m) – 60% V/V</p> <p style="padding-left: 20px;">Single dose: 98-360 mg</p> <p style="padding-left: 20px;">Daily dose: 196-525 mg</p> <p style="padding-left: 20px;">Dosage frequency: 1-4 times daily</p> |

<sup>3</sup> For guidance on herbal substance/herbal preparation administered as herbal tea or as infusion/decoction/macerate preparation, please refer to the HMPC 'Glossary on herbal teas' (EMA/HMPC/5829/2010 Rev.1).

| Well-established use | Traditional use  |
|----------------------|--|
|                      | <p>f) Dry extract (DER 3.3-5:1), extraction solvent methanol 60% V/V</p> <p>Single dose: 120 mg</p> <p>Daily dose: 360 mg</p> <p>Dosage frequency: 3 times daily</p> <p>g) Soft extract (DER 1.7-3.2:1), extraction solvent ethanol 60%-70% V/V</p> <p>Single dose: 300-440 mg</p> <p>Daily dose: 440-700 mg</p> <p>Dosage frequency: once daily (440 mg) or 2 times daily</p> <p>h) Soft extract (DER 2-6:1), extraction solvent methanol 30% V/V</p> <p>Single dose: 219.8 mg</p> <p>Daily dose: 439.6 mg</p> <p>Dosage frequency: 2 times daily</p> <p>i) Liquid extract (DER 1:0.8-1.2), ethanol 30.5% V/V (=25% m/m) – 34% m/m</p> <p>Single dose: 500 mg - 1250 mg<br/>Daily dose: 900 mg – 2500 mg<br/>Dosage frequency: 1-2 times daily</p> <p>j) Liquid extract (DER 1:11-13.6), extraction solvent liquor wine</p> <p>Single dose: 9.90 g</p> <p>Daily dose: 19.80 g</p> <p>Dosage frequency: 2 times daily</p> <p><u>Red ginseng:</u></p> <p>k) Powdered herbal substance:</p> <p>Single dose: 600 mg -1200 mg</p> <p>Daily dose: 1200 mg - 1800 mg</p> <p>Dosage frequency: 1-3 times daily</p> <p>l) Dry extract (DER 2-4.5:1), extraction solvent ethanol 60% V/V</p> <p>Single dose: 180-500 mg</p> |

| Well-established use | Traditional use   |
|----------------------|---|
|                      | <p>Daily dose: 360-500 mg</p> <p>Dosage frequency: once daily (475 mg or 500 mg) or 2 times daily</p> <p>m) Soft extract (DER 2.5-3.2:1), extraction solvent ethanol 60% V/V</p> <p>Single dose: 440 mg</p> <p>Daily dose: 440 mg</p> <p>Dosage frequency: once daily</p> <p>The use in children and adolescents under 18 years of age is not recommended (see section 4.4 'Special warnings and precautions for use').</p> <p><b>Duration of use</b></p> <p>Duration of use up to 3 months. If the symptoms persist longer than 2 weeks during the use of the medicinal product, a doctor or a qualified health care practitioner should be consulted.</p> <p><b>Method of administration</b></p> <p>Oral use.</p> |

### 4.3. Contraindications

| Well-established use | Traditional use                           |
|----------------------|---|
|                      | Hypersensitivity to the active substance. |

### 4.4. Special warnings and precautions for use

| Well-established use | Traditional use  |
|----------------------|--|
|                      | <p>The use in children and adolescents under 18 years of age has not been established due to lack of adequate data.</p> <p>If the symptoms worsen during the use of the medicinal product, a doctor or a qualified health care practitioner should be consulted.</p> <p>For extracts containing ethanol, the appropriate labelling for ethanol, taken from the 'Guideline on excipients in the label and package leaflet of medicinal products for human use', must be included.</p> |

#### **4.5. Interactions with other medicinal products and other forms of interaction**

| <b>Well-established use</b> | <b>Traditional use</b> |
|-----------------------------|------------------------|
|                             | None reported.         |

#### **4.6. Fertility, pregnancy and lactation**

| <b>Well-established use</b> | <b>Traditional use</b>  |
|-----------------------------|---|
|                             | Safety during pregnancy and lactation has not been established. In the absence of sufficient data, the use during pregnancy and lactation is not recommended.<br><br>No fertility data available. |

#### **4.7. Effects on ability to drive and use machines**

| <b>Well-established use</b> | <b>Traditional use</b>   |
|-----------------------------|--|
|                             | No studies on the effect on the ability to drive and use machines have been performed. |

#### **4.8. Undesirable effects**

| <b>Well-established use</b> | <b>Traditional use</b>  |
|-----------------------------|---|
|                             | Gastrointestinal disorders: stomach discomfort, nausea, vomiting, diarrhoea, and constipation have been reported. The frequency is not known.<br><br>Immune system disorders: Hypersensitivity reactions (urticaria, itching) have been reported: The frequency is not known.<br><br>Nervous system disorders: Insomnia has been reported. The frequency is not known.<br><br>If other adverse reactions not mentioned above occur, a doctor or a qualified health care practitioner should be consulted. |

#### **4.9. Overdose**

| <b>Well-established use</b> | <b>Traditional use</b>                 |
|-----------------------------|--|
|                             | No case of overdose has been reported. |

## 5. Pharmacological properties

### 5.1. Pharmacodynamic properties

| Well-established use | Traditional use   |
|----------------------|---|
|                      | Not required as per Article 16c(1)(a)(iii) of Directive 2001/83/EC. |

### 5.2. Pharmacokinetic properties

| Well-established use | Traditional use   |
|----------------------|---|
|                      | Not required as per Article 16c(1)(a)(iii) of Directive 2001/83/EC. |

### 5.3. Preclinical safety data

| Well-established use | Traditional use  |
|----------------------|--|
|                      | <p>Not required as per Article 16c(1)(a)(iii) of Directive 2001/83/EC, unless necessary for the safe use of the product.</p> <p>No signs of genotoxicity were observed in an AMES-test (Salmonella typhimurium strains TA 1535, TA 1537, TA 1538, TA 98 and TA 100) with and without metabolic activation using an extract prepared with ethanol 40% V/V (herbal preparation d). This was confirmed with an extract prepared with ethanol 80% in a guideline- conform AMES-test (OECD-471) with and without metabolic activation as well as in a micronucleus test.</p> <p>After 2 years of oral administration of an extract prepared with ethanol 80% in dosages of up to 5000 mg/kg b.w. no signs of carcinogenicity were observed in mice or rats.</p> <p>Adequate tests on reproductive toxicity have not been performed.</p> |

## 6. Pharmaceutical particulars

| Well-established use | Traditional use |
|----------------------|-----------------|
|                      | Not applicable. |

## **7. Date of compilation/last revision**

12 May 2023
