

EUROPEAN MEDICINES AGENCY
SCIENCE MEDICINES HEALTH

5 December 2018
EMA/CAT/7336/2019
Inspections, Human Medicines Pharmacovigilance and Committees Division

Committee for Advanced Therapies (CAT)

Minutes of the meeting on 07-08 November 2018

Chair: Martina Schübler-Lenz; Vice-Chair: Ilona Reischl

Health and safety information

In accordance with the Agency's health and safety policy, delegates are to be briefed on health, safety and emergency information and procedures prior to the start of the meeting.

Disclaimers

Some of the information contained in these minutes is considered commercially confidential or sensitive and therefore not disclosed. With regard to intended therapeutic indications or procedure scopes listed against products, it must be noted that these may not reflect the full wording proposed by applicants and may also vary during the course of the review. Additional details on some of these procedures will be published in the CAT meeting reports once the procedures are finalised.

Of note, the minutes are a working document primarily designed for CAT members and the work the Committee undertakes.

Note on access to documents

Some documents mentioned in the minutes cannot be released at present following a request for access to documents within the framework of Regulation (EC) No 1049/2001 as they are subject to on-going procedures for which a final decision has not yet been adopted. They will become public when adopted or considered public according to the principles stated in the Agency policy on access to documents (EMA/127362/2006).

1. Introduction

1.1. Welcome and declarations of interest of members, alternates and experts

In accordance with the Agency's policy on handling of declarations of interests of scientific committees' members and experts, based on the declarations of interest submitted by the Committee members, alternates and experts and based on the topics in the agenda of the current meeting, the Committee Secretariat announced that no restriction in the involvement of meeting participants in upcoming discussions was identified.

Participants in this meeting were asked to declare any changes, omissions or errors to their declared interests and/or additional restrictions concerning the matters for discussion. No new or additional interests or restrictions were declared.

Discussions, deliberations and voting took place in full respect of the restricted involvement of Committee members and experts in line with the relevant provisions of the Rules of Procedure and as included in the list of participants. All decisions taken at this meeting were made in the presence of a quorum of members (i.e. 22 or more members were present in the room). All decisions, recommendations and advice were agreed by consensus, unless otherwise specified.

1.2. Adoption of agenda

The CAT agenda for 07-08 November 2018 meeting was adopted.

1.3. Adoption of the minutes

The CAT minutes of 10-12 October 2018 meeting were adopted.

2. Evaluation of ATMPs

2.1. Opinions

No items

2.2. Oral explanations

No items

2.3. Day 180 list of outstanding issues

No items

2.4. Day 120 list of questions

No items

2.5. Day 80 assessment reports

No items

2.6. Update on ongoing initial applications

No items

2.7. New applications

2.7.1. Onasemnogene abeparvovec - EMEA/H/C/004750

Accelerated assessment

treatment of spinal muscular atrophy (SMA)

Scope: timetable for assessment

Action: for adoption

The timetable was adopted.

2.8. Withdrawal of initial marking authorisation application

No items

2.9. Re-examination of initial application procedures under Article 9(2) of Regulation No. 726/2004

No items

2.10. GMP and GCP inspections requests

No items

2.11. Type II variations - variation of therapeutic indication procedure according to Commission Regulation (EC) No 1234/2008

2.11.1. Kymriah - tisagenlecleucel - Orphan - EMEA/H/C/004090/II/0001

Novartis Europharm Limited; treatment of B cell acute lymphoblastic leukaemia (ALL) and diffuse large B cell lymphoma (DLBCL)

Rapporteur: Rune Kjekken, Co-Rapporteur: Christiane Niederlaender, CHMP Coordinators: Bjorg Bolstad and Greg Markey

Scope: quality; timetable

Action: for adoption

The timetable was adopted.

2.12. Other Post-Authorisation Activities

2.12.1. Holoclar - *ex vivo* expanded autologous human corneal epithelial cells containing stem cells - Orphan - EMEA/H/C/002450/R/0021

Chiesi Farmaceutici S.p.A.

Rapporteur: Egbert Flory; CHMP Coordinator: Jan Mueller-Berghaus; PRAC Rapporteur: Julie Williams

Scope: 4th annual reassessment for the renewal of conditional marketing authorisation. Opinion

Action: for adoption

The opinion for the 4th annual reassessment was adopted.

2.12.2. Kymriah - tisagenlecleucel - Orphan - EMEA/H/C/004090

Novartis Europharm Limited; treatment of B cell acute lymphoblastic leukaemia (ALL) and diffuse large B cell lymphoma (DLBCL)

Rapporteur: Rune Kjekken, Co-Rapporteur: Christiane Niederlaender, CHMP Coordinators: Bjorg Bolstad and Greg Markey

Scope: quality

Action: for information

The information was noted.

3. Certification of ATMPs

Information related to this section cannot be released at the present time as it is deemed to contain commercially confidential information.

3.1. Opinion

No items

3.2. Day 60 Evaluation Reports

No items

3.3. New Applications

4. Scientific Recommendation on Classification of ATMPs

4.1. New requests – Appointment of CAT Coordinator

4.1.1. Bacteriophage capsid containing deoxyribonucleic acid (DNA) encoding a ribonucleic acid (RNA)-guided nuclease and associated RNA guides, targeting shiga-toxin genes - H0005237

Intended for the treatment of Shiga-Toxin producing *E. coli* (STEC) infection
Scope: appointment of CAT Coordinator and adoption of timetable

Action: for adoption

Nominations were received. The following CAT member was appointed as CAT Coordinator.

4.1.2. Allogeneic expanded natural killer (NK) cells – H0005241

Intended for the treatment of multiple myeloma

Scope: appointment of CAT Coordinator and adoption of timetable

Action: for adoption

Nominations were received. The following CAT member was appointed as CAT coordinator.

4.1.3. Autologous modified CD34+ haematopoietic cells transduced with a lentiviral vector encoding for the CD18 β -subunit of human β 2 Integrin - H0005238

Intended for the treatment of severe leukocyte adhesion deficiency type I (LAD-I)

Scope: appointment of CAT Coordinator and adoption of timetable

Action: for adoption

Nominations were received. The following CAT member was appointed as CAT coordinator.

4.1.4. Allogeneic cultured postnatal thymus tissue-derived product - H0005239

Intended for immune reconstitution in patients with congenital athymia

Scope: appointment of CAT Coordinator and adoption of timetable

Action: for adoption

Nominations were received. The following CAT member was appointed as CAT coordinator.

4.1.5. Autologous Dendritic Cell, electroporated with messenger ribonucleic acid (mRNA) encoding tumour antigen Wilms tumor (WT)-1 – H0005240

Intended for the treatment of lung cancer

Scope: appointment of CAT Coordinator and adoption of timetable

Action: for adoption

Nominations were received. The following CAT member was appointed as CAT coordinator.

4.2. Day 30 ATMP scientific recommendation

4.2.1. Allogeneic Wharton's jelly mesenchymal stem cells (MSCs) on dermal scaffold - H0005198

Intended for the treatment of epidermolysis bullosaScope: ATMP scientific recommendation

Action: for adoption

CAT discussed the ATMP classification report. CAT Secretariat to send the draft scientific recommendation to the European Commission for comments by 23 November 2018.

The CAT recommendation will be considered final if no comments are received from the European Commission. The final report will be sent thereafter to the applicant.

4.2.2. Genetically modified bone marrow derived allogeneic mesenchymal stem cells (MSCs) expressing human alpha-1 antitrypsin (AAT) - H0005206

Intended for the treatment of steroid refractory acute graft-versus-host-disease (GvHD), grades II-IV

Scope: ATMP scientific recommendation

Action: for adoption

CAT discussed the ATMP classification report. CAT Secretariat to send the draft scientific recommendation to the European Commission for comments by 23 November 2018.

The CAT recommendation will be considered final if no comments are received from the European Commission. The final report will be sent thereafter to the applicant.

4.2.3. Suspension of human olfactory ensheathing cells (OECs) and olfactory nerve fibroblasts (ONFs) – H0005197

Indicated for the treatment of complete and incomplete spinal cord injuries in human patients, aiming to support neuroregeneration

Scope: ATMP scientific recommendation

Action: for adoption

CAT discussed the ATMP classification report. CAT secretariat to send the draft scientific recommendation to the European Commission for comments by 23 November 2018.

The CAT recommendation will be considered final if no comments are received from the European Commission. The final report will be sent thereafter to the applicant.

4.2.4. [Whole lipoaspirate containing viable autologous adipose-derived regenerative cells - H0005212](#)

Intended for the treatment of progressive hemifacial atrophy (Parry-Romberg syndrome)

Scope: ATMP scientific recommendation

Action: for adoption

CAT discussed the classification reports for agenda points 4.2.4 to 4.2.9. CAT considered that additional information should be provided by the applicant before concluding on the above classifications. Questions were sent to the applicant

The procedural clock will restart at the next CAT meeting date.

4.2.5. [Viable autologous adipose-derived regenerative cells combined with whole lipoaspirate - H0005213](#)

Intended for the treatment of progressive hemifacial atrophy (Parry-Romberg syndrome)

Scope: ATMP scientific recommendation

Action: for adoption

See agenda point 4.2.4.

4.2.6. [Viable autologous adipose-derived regenerative cells combined with whole lipoaspirate - H0005214](#)

Intended for the treatment of progressive hemifacial atrophy (Parry-Romberg syndrome)

Scope: ATMP scientific recommendation

Action: for adoption

See agenda point 4.2.4.

4.2.7. [Whole lipoaspirate containing viable autologous adipose-derived regenerative cells - H0005215](#)

Intended for the treatment of burn scars

Scope: ATMP scientific recommendation

Action: for adoption

See agenda point 4.2.4.

4.2.8. [Viable autologous adipose-derived regenerative cells - H0005216](#)

Intended for the treatment of burn scars

Scope: ATMP scientific recommendation

Action: for adoption

See agenda point 4.2.4.

4.2.9. Viable autologous adipose-derived regenerative cells - H0005217

Intended for the treatment of burn scars

Scope: ATMP scientific recommendation

Action: for adoption

See agenda point 4.2.4.

4.2.10. Human donor haematopoietic stem cells treated *ex vivo* - H0005195

Intended for the treatment of severe combined immunodeficiency

Scope: ATMP scientific recommendation

Action: for adoption

CAT discussed the ATMP classification report. CAT secretariat to send the draft scientific recommendation to the European Commission for comments by 23 November 2018.

The CAT recommendation will be considered final if no comments are received from the European Commission. The final report will be sent thereafter to the Applicant.

4.2.11. Recombinant adeno-associated virus serotype 1 (AAV1) containing a transgene that encodes a microRNA (miRNA) targeting huntingtin - H0005196

Intended for the treatment of Huntington's disease

Scope: ATMP scientific recommendation

Action: for adoption

CAT discussed the ATMP classification report. CAT Secretariat to send the draft scientific recommendation to the European Commission for comments by 23 November 2018.

The CAT's recommendation will be considered final if no comments are received from the European Commission. The final report will be sent thereafter to the applicant.

4.3. Day 60 revised scientific recommendation (following list of questions)

No items

4.4. Finalisation of procedure

4.4.1. Allogeneic Epstein-Barr virus (EBV)-specific cytotoxic T cells – H0005168

Intended for the treatment of refractory / relapsed EBV-associated post-transplant lymphoproliferative disease (PTDL)

Scope: the European Commission raised no comments. Final ATMP scientific recommendation

Action: for information

The information was noted.

4.4.2. Autologous bone marrow derived mesenchymal stem cells – H0005176

Intended for the treatment of ischemic stroke

Scope: the European Commission raised no comments. Final ATMP scientific recommendation

Action: for information

The information was noted.

4.4.3. Autologous bone marrow derived mesenchymal stem cells – H0005177

Intended for the regeneration of cartilage, ligamentum bone and muscle defects

Scope: the European Commission raised no comments. Final ATMP scientific recommendation

Action: for information

The information was noted.

4.4.4. Codon-optimised human cystic fibrosis transmembrane conductance regulator messenger ribonucleic acid complexed with lipid-based nanoparticles – H0005161

Intended for the treatment of cystic fibrosis

Scope: the European Commission raised no comments. Final ATMP scientific recommendation

Action: for information

The information was noted.

4.4.5. Adeno-associated virus (AAV) vector containing a human neuronal ceroid lipofuscinosis (hCLN2) expression cassette encoding for the soluble lysosomal enzyme tripeptidyl-peptidase 1 (TPP1) – H0005160

Intended for the treatment of late-infantile neuronal ceroid lipofuscinosis type 2 (CLN2) disease

Scope: the European Commission raised no comments. Final ATMP scientific recommendation

Action: for information

The information was noted.

5. Scientific Advice

Information related to this section cannot be released at the present time as it is deemed to contain commercially confidential information.

5.1. New requests – appointment of CAT Rapporteurs

5.2. CAT reports

5.3. List of Issues

5.4. Finalisation of SA procedures

6. Pre-Authorisation Activities

Information related to this section cannot be released at the present time as it is deemed to contain commercially confidential information.

6.1. Paediatric investigation plans

No items

6.2. ITF briefing meetings in the field of ATMPs

6.3. Priority Medicines (PRIME) – Eligibility requests

6.3.1. Month 0 - Start of the procedure

No items

6.3.2. Month 1 – Discussion of eligibility

6.3.3. Month 2 – Recommendation of eligibility

6.3.4. Ongoing support

No items

7. Organisational, regulatory and methodological matters

7.1. Mandate and organisation of the CAT

No items

7.2. Coordination with EMA Scientific Committees

7.2.1. Committee for Medicinal Products for Human Use (CHMP)

Scope: Summary of Outcomes (SoO) for the October 2018 meeting

Action: for information

The information was noted.

7.3. Coordination with EMA Working Parties/Working Groups/Drafting Groups

7.3.1. Guideline on requirements for investigational ATMPs

Drafting group: Iлона Reischl (Rapporteur), Tiina Palomäki (Rapporteur), Martina Schübler-Lenz, Simona Badoi, Tomáš Boráň, Violaine Closson-Carella, Paolo Gasparini, Carla Herberts, Metoda Lipnik-Stangelj, Margarida Menezes Ferreira, Christiane Niederlaender, Maura O'Donovan, Olli Tenhunen, Heli Suila, Barbara Bonamassa, Giuseppa Pistritto, Marcel Hoefnagel

Scope: guideline for a release for external consultation until July 2019

Action: for discussion

Comments have been received from CAT and BWP members on the version that was circulated to CAT and BWP .

All comments received have been / will be reviewed by the drafting group Rapporteurs and changes to the guideline text are / will be made. The final version on the non-clinical part was circulated to the CAT members during the meeting.

The guideline was presented to the BWP on 6 November. Further quality comments can be submitted until Friday 9 November.

Following plan of action was agreed: after review of the comments, the reworked guideline text will be circulated to CAT and BWP members for final comments by 26 November latest. In parallel the Guideline Consistency Group will be consulted. It was agreed that the final version

will be brought to the BWP for their agreement. The guideline will be scheduled for adoption by CAT and CHMP in December 2018, for release for external consultation.

7.3.2. Gene therapy in haemophilia

CAT: Martina Schübler-Lenz

Scope: feedback from patient and healthcare professionals

Action: for information

A discussion with a physician treating haemophilia patient , a patient representative and a patient took place .

7.4. Cooperation within the EU regulatory network

None

7.5. Cooperation with international regulators

None

7.6. CAT work plan

None

7.7. Planning and reporting

7.7.1. Workshop on the EMA Regulatory Science to 2025

CAT: Martina Schübler-Lenz

Scope: feedback from the EMA workshop held on 24 October 2018

Action: for information

You can access the agenda here:

<https://www.ema.europa.eu/en/news/shaping-regulatory-science-2025>

A short feedback from the meeting was provided by the CAT chair.

7.8. Others

None

8. Any other business

8.1. European Society of Gene and Cell Therapy – annual conference

CAT: Martina Schübler-Lenz

Scope: feedback from the CAT session at the ESGCT annual conference which took place on 17 October 2018.

Action: for information

Note: following CAT members/experts participated to the CAT session: Martina Schüssler-Lenz, Marcos Timon, Hans Ovelgönne, Ilona Reischl, Matthias Renner.

A short feedback from the CAT session was provided by the CAT chair.

Date of next CAT meeting:

5-7/12/2018

9. Explanatory notes

The Notes give a brief explanation of relevant agenda items and should be read in conjunction with the agenda.

 TT: Timetable

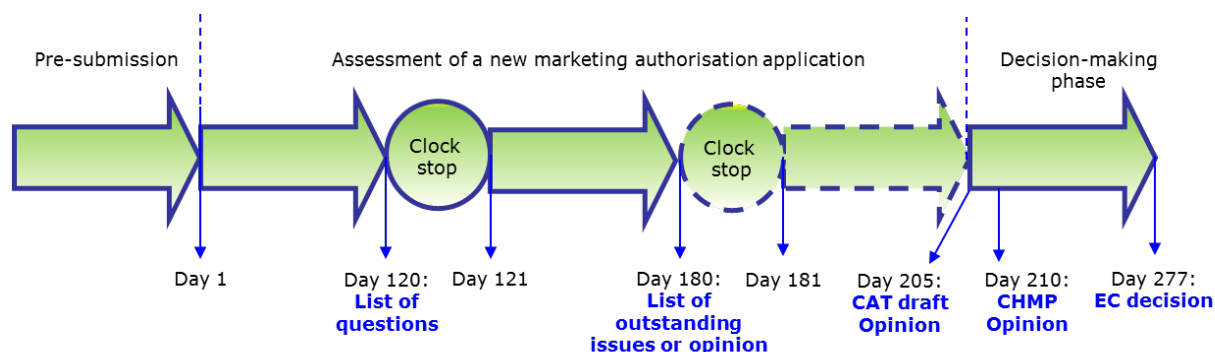

Evaluation of ATMPs (section 2)

This section lists applications for marketing authorisations of new Advanced Therapy Medicinal Products (ATMPs) that are to be discussed by the Committee. It also lists any ATMP related inspection requests (section 2.9) and Post-authorisation activities (section 2.10).

New applications (sections 2.1. to 2.12.)

Section 2.1 is for ATMPs nearing the end of the evaluation and for which the CAT is expected to adopt a draft **opinion** at this meeting on whether marketing authorisation should be granted. Once adopted, the CAT opinion is transmitted to the CHMP for final adoption. The CHMP opinion will be forwarded to the European Commission for a final legally binding decision valid throughout the EU. More information on the evaluation of ATMPs can be found [here](#).

The other items in the section are listed depending on the stage of the evaluation, which is shown graphically below:

The assessment of an application for a new medicine takes up to 210 'active' days. This active evaluation time is interrupted by at least one 'clock-stop' during which time the applicant prepares the answers to questions from the CAT. The clock stop happens after day 120 and may also happen after day 180, when the CAT has adopted respectively a **Day 120 list of questions** (section 2.3) or a List of outstanding issues to be addressed by the company, which is listed in the agenda under sections 2.7 (**Ongoing evaluation procedures**). Section 2.7 also includes the CAT discussions at any other timepoint of the evaluation procedure of new applications.

Oral explanation (section 2.2.)

Prior to adoption of the CAT opinion, marketing authorisation applicants are normally invited to the CAT plenary meeting to address questions raised by the Committee.

Oral explanations normally relate to ongoing applications, but they can also relate to any other issue for which the CAT would like to discuss with company representatives in person.

Re-examination procedures (new applications) under article 9(2) of regulation no 726/2004 (section 2.6.)

This section lists applications for new marketing authorisation for ATMPs for which the applicant has requested a re-examination of the opinion previously issued by the CHMP. Similar to the initial evaluation of a marketing authorisation of an ATMP, CAT will adopt a draft re-examination opinion, which is transmitted to the CHMP for final adoption.

Withdrawal of applications (section 2.7.)

This section includes information on marketing authorisation applications that are withdrawn by the applicant. Applicants may decide to withdraw applications at any stage during the assessment and a CAT opinion will therefore not be issued. Withdrawals are included in the agenda for information or discussion, as necessary.

New applications (section 2.9.)

In this section, information is included on upcoming marketing authorisation applications for ATMPs, as well as information on appointment of Rapporteurs for new ATMP applications.

GMP and GCP Inspections Issues (section 2.10.)

This section lists inspections that are undertaken for ATMPs. Inspections are carried out by regulatory agencies to ensure that marketing authorisation holders comply with their obligations. Inspection can relate to good manufacturing practice (GMP), good clinical practice (GCP), good laboratory practice (GLP) or good pharmacovigilance practice (GVP).

Post-authorisation activities (section 2.12.)

This section lists type II variations, extension application according to Annex I of Reg. 1234/2008, re-examination procedures for type II variations (including extension of indication applications) for which the applicant has requested re-examination of the opinion previously issued by the CHMP and other issues concerning authorised medicines that are not covered elsewhere in the agenda such as annual reassessments, 5-year renewals, supply shortages, qualify defects. Issues that have been discussed at the previous meeting of the PRAC, the EMA's committee responsible for evaluating and monitoring safety issues for medicines, will also be included here.

Certification of ATMPs (section 3)

This section includes the scientific evaluation by the CAT of quality and non-clinical data that small and medium-sized enterprises have generated at any stage of the ATMP development process. More information on the ATMP certification procedure can be found [here](#).

Scientific Recommendation on Classification of ATMPs (Section 4)

This section includes the scientific recommendation by the CAT on whether medicines based on genes, cells or tissues meet the scientific criteria that define ATMPs. More information on the ATMP classification procedure, including the outcomes of finalised classifications, can be found [here](#).

Scientific Advice (section 5)

This section includes all scientific advice given to companies during the development of an ATMP. Information related to the number of ATMP related scientific advices discussed by CAT can be found in the CAT Monthly reports. Further information on SAWP can be found [here](#).

Pre-Authorisation (section 6)

Paediatric Investigation Plan (PIP)

This section includes the discussion of an ATMP before a formal application for marketing authorisation is submitted. These cases refer for example to requests for an accelerated assessment for medicines that

are of major interest for public health or can be considered a therapeutic innovation: in case of an accelerated assessment the assessment timetable is reduced from 210 to 150 days.

CAT contributes to the evaluation of a Paediatric Investigation Plan (PIPs) for ATMPs by the Paediatric Committee. These PIPs are included in this section of the Agenda.

ITF Briefing meeting in the field of ATMPs

This section refers to briefing meetings of the Innovation Task Force and International co-operations activities of the CAT

The Innovation Task Force (ITF) is a body set up to encourage early dialogue with applicants developing innovative medicines. Minutes of meetings with applicants developing ATMPs and of other ITF meetings of interest to the CAT are included in this section of the agenda. Further information on the ITF can be found [here](#).

Priority Medicines (PRIME)

This section includes the new requests for eligibility to PRIME for ATMPs under development, the discussions in CAT of these eligibility requests and the final recommendations for eligibility of ATMPs adopted by CHMP.

CAT will appoint one of its members as the CAT sponsor for each new ATMP eligibility request who will lead the CAT discussion based on the recommendation from the SAWP.

Organisational, regulatory and methodological matters (section 7)

This section includes topics related to regulatory and procedural guidance, CAT workplan, CAT meeting organisation (including CAT membership), planning and reporting, co-ordination with other committees, working parties and scientific advisory groups.

Furthermore, this section refers to the activities of the CAT drafting groups developing scientific guidelines for gene therapy medicinal products and for cell-based medicinal products, cooperation within the EU regulatory network and international regulators as well as direct interaction with interested parties. It also includes topics of scientific interest for the Committee that are not directly related to the work of the CAT drafting groups or CAT associated working parties.

Any other business (section 8)

This section is populated with miscellaneous topics not suitable under the previous headings.

More detailed information on the above terms can be found on the EMA website: www.ema.europa.eu/

10. List of participants

including any restrictions with respect to involvement of members / alternates / experts following evaluation of declared interests for the 7-8 November 2018 meeting.

Name	Role	Member state or affiliation	Outcome restriction following evaluation of e-DoI	Topics on agenda for which restrictions apply
Martina Schüssler-Lenz	Chair	Germany	No interests declared	N/A
Ilona Reischl	Member	Austria	No interests declared	N/A
Claire Beuneu	Member	Belgium	No interests declared	N/A
Rozalina Kulaksazova	Member	Bulgaria	No interests declared	N/A
Mirna Golemovic	Member	Croatia	No interests declared	N/A
Marina Ieridi	Member	Cyprus	No interests declared	N/A
Ivana Haunerova	Member	Czech Republic	No interests declared	N/A
Anne Pastoft	Member	Denmark	No interests declared	N/A
Pille Saalik	Alternate	Estonia	No interests declared	N/A
Heli Suila	Member	Finland	No interests declared	N/A
Violaine Closson	Member	France	No interests declared	N/A
Jan Mueller-Berghaus	Member	Germany	No interests declared	N/A
Egbert Flory	Alternate	Germany	No interests declared	N/A
Asterios Tsiftoglou	Member	Greece	No interests declared	N/A
Katalin Lengyel	Member	Hungary	No interests declared	N/A
Niamh Curran	Alternate	Ireland	No interests declared	N/A
Una Riekstina	Member	Latvia	No interests declared	N/A
Anthony Samuel	Alternate (to CHMP representative)	Malta	No interests declared	N/A
Johannes Hendrikus Ovelgönne	Member	Netherlands	No interests declared	N/A
Rune Kjekken	Alternate	Norway	No restrictions applicable to this meeting	N/A
Dariusz Śladowski	Member	Poland	No restrictions applicable to this meeting	N/A
Margarida Menezes-Ferreira	Alternate (to CHMP representative)	Portugal	No interests declared	N/A

Name	Role	Member state or affiliation	Outcome restriction following evaluation of e-DoI	Topics on agenda for which restrictions apply
Gianina-Nicoleta Andrei	Alternate	Romania	No interests declared	N/A
Lukas Slovak	Member	Slovakia	No interests declared	N/A
Metoda Lipnik-Stangelj	Member	Slovenia	No interests declared	N/A
Sol Ruiz	Member (CHMP co-opted member)	Spain	No interests declared	N/A
Marcos Timón	Alternate, to CHMP representative	Spain	No interests declared	N/A
Björn Carlsson	Alternate	Sweden	No interests declared	N/A
Christiane Niederlaender	Member	United Kingdom	No interests declared	N/A
James McBlane	Alternate	United Kingdom	No interests declared	N/A
Marc Turner	Member	Healthcare Professionals' Representative	Restrictions applicable to this meeting	N/A
Bernd Gänsbacher	Member	Healthcare Professionals' Representative	No interests declared	N/A
Willem Fibbe	Alternate	Healthcare Professionals' Representative	No restrictions applicable to this meeting	N/A
Kieran Breen	Member	Patients' Representative	No restrictions applicable to this meeting	N/A
Michelino Lipucci di Paola	Alternate	Patients' Representative	No restrictions applicable to this meeting	N/A
Maria Driessens	Member	Patients' Representative	No restrictions applicable to this meeting	N/A
Christos Sotirelis	Expert – In person*	Patients' Representative	No interests declared	N/A
Declan Noone	Expert – In person*	Patients' Representative	No interests declared	N/A
Jack Grehan	Expert – In person*	Patients' Representative	No interests declared	N/A
Wolfgang Miesbach	Expert – In person*	Patients' Representative	Direct interests declared	N/A
John J. Johnston	Expert – In person*	MHRA	No interests declared	N/A
Paolo Gasparini	Member – Via telephone*	Italy	No interests declared	N/A
Giuseppa Pistritto	Expert – Via telephone*	Italy	No interests declared	N/A
Andreea Barbu	Expert – Via telephone*	Sweden	No interests declared	N/A
Tiina Palomäki	Expert – Via telephone*	Germany	No interests declared	N/A
