

## Overview of assessment work - Priority list

Last update: January 2019

Summary:

	Status <sup>1</sup>	First assessment	Review <sup>2</sup>	Revision 1	Revision 2
Final monographs (Total)	F	161	12	48	2
Finalised List entries (sent to Eur. Com.)	F	13	0	1	
Final Public statements	F	22	0	n/a	
Assessment close to finalisation	PF	0	n/a	3	
Draft published	P	0	n/a		
Draft under discussion	D	10	10	12	
Call for scientific data	C	1	12		
Rapporteur assigned	R	0	n/a	10	
Assessment cancelled due to insufficient data	Canc.	14	n/a	n/a	

<sup>1</sup> **R**: Rapporteur assigned, **C**: Call for scientific data, **D**: Draft under discussion, **P**: Draft published, **PF**: Assessment close to finalisation (pre-final), **F**: Final opinion adopted,

**Canc.**: Assessment work cancelled due to insufficient data

<sup>2</sup> Review of new information to decide on a necessary update of monographs/ list entries is initiated by time elapsed since the previous published version (Periodic review after at least 5 years) or by data submitted to HMPC (Unscheduled review) in accordance with Procedure for the review and revision of EU herbal monographs and list entries (EMA/HMPC/124695/2011 Rev. 2). The review step before revision was introduced in 2018. The outcome of the review is: (I) yes, revision is needed because of new data of relevance for the content of the monograph or (II) no revision needed. For (I) the revision procedure is started ending with a new opinion on a revised monograph/ list entry and supporting documents. Previous documents are marked as superseded but remain on the EMA website. For (II) a summary of new data is published as an Addendum to the existing assessment report. Monograph and all supporting documents remain unchanged.

<sup>3</sup> HMPC assessment outcome (MO: monograph, LE: list entry, PS: public statement)

<sup>4</sup> HMPC monograph for traditional use (TU), well-established use (WEU) or both
