

Human & Veterinary Medicinal Products Regulation *Turkey's Road to EU Membership*

It is a great pleasure to announce the conference 'Human & Veterinary Medicinal Products Regulation — *Turkey's Road to EU Membership*', to be held in Istanbul on 22-23 October 2007.

The conference is funded by the multi-beneficiary programme for supporting the participation of Croatia and Turkey in EMEA activities, and is being held under the auspices of the Ministry of Health and the Ministry of Agriculture and Rural Affairs of Turkey.

The objectives of the conference are:

- To give an overview of EU legislation governing the regulation of medicinal products for human and veterinary use.
- To provide feedback on the practical application of the *acquis communautaire* and legal aspects of its implementation.
- To explain the role of the guidelines in the EU to candidate-country regulators, and tackle specific areas in their application.
- To identify differences between EU and Turkish legislation.
- To discuss problems that may be encountered as Turkey moves towards EU membership.

The conference will target scientific audiences and will include specific activities with a view to informing the full cross-section of stakeholders in Turkey.

Further information can be found on the EMEA website at:
