TRAVEL ARRANGEMENTS

Amsterdam Schiphol Airport

Amsterdam Schiphol Airport is the third largest European airport in terms of passenger numbers. The airport is easily accessible by car and public transport. The railway station is directly underneath the passenger terminal and offers 24/7 transportation to all major cities in the Netherlands including Amsterdam, Rotterdam, Utrecht and The Hague.

Amsterdam Centraal Station

Central station has fast train connections to other European cities such as Brussels, Paris, London, Berlin and Cologne.

Public transport

The rail system in the Netherlands is fast, efficient and comfortable. Trains run frequently and connect most of the country. Within the Amsterdam metropolitan area, options for travel – other than trains – include trams, metros and buses. Throughout the Netherlands, the public transport chip card (‘OV-chipkaart’) is used. The card can be recharged and reused at any time.

Taxis

Different taxi companies are available in Amsterdam. Official taxis are easily recognisable by the ‘taxi’ sign on the car roof and blue number plates. There are permanent taxi stops near popular squares, attractions and stations. Apps such as Uber are available in major Dutch cities, but do not yet provide national coverage.

Ecological footprint

The EMA building was awarded a BREEAM rating of “Excellent” for its design and an Energy label of A+++ due to conscious choices of construction material, energy efficient installations and encouragement of environmentally friendly choices.
UPON ARRIVAL AT THE AGENCY

Upon arrival at the EMA building, please report to the main reception on the ground floor. The receptionist will verify your ID card, passport or driving licence before providing you with an access badge and an EMA corporate lanyard. If you already have an EMA access card, this will be exchanged for a new access badge on your first visit to the EMA building.

Your badge and the EMA corporate lanyard provided must be worn throughout your visit to the EMA offices. You will need it to enter and exit the building via the gates in the lobby area by the reception, as well as for access to conference rooms, Delegates lounge and other areas of the building.

Please note that in line with new EMA security standards, access control restrictions have been introduced for staff, contractors, delegates and visitors. Therefore, you will only be able to access the office space on floors 4-18 when invited and accompanied by an EMA staff member.

All conference room doors are automatic and have motion sensors. The doors will open and close automatically. Keep away from the door sensors after swiping your badge on the specific card to open the door. From inside the rooms there is an electrical push to open button. Please do not use manual force to open or close the doors because that will result in door malfunction, which may require repairing.

Recording and broadcasting

The Agency records or broadcasts many of its meetings, including virtual meetings, as part of its commitment to the principle of transparency as enshrined in the Treaty on European Union. By attending these meetings you are consenting to any such recordings or broadcasts.

Video-surveillance system

The Agency operates a closed-circuit television (CCTV) system. Recorded footage is used solely for security and safety purposes and stored for 28 days in accordance with the EMA CCTV policy. The processing of personal data at EMA is subject to Regulation (EC) No 2018/1725. EMA Meetings Support Services team can access the live viewing to mark the presence of external delegates during the meeting organised in EMA meeting rooms. For more information, consult: www.ema.europa.eu/en/about-us/legal/general-privacy-statement
Accessibility

The building is fully accessible. There is full step-free access to all floors via the elevators.

There are male and female toilets, including toilets for persons with reduced mobility, on each floor.

A pick-up and drop-off point for vehicles is available in front of the building. Visitors can use this drop-off point when they come to the EMA building via taxi or private car.

Visitors with impairments are welcome to contact the staff of EMA in advance to allow time for the necessary arrangements (e.g. installation of hearing loop, specific health and safety measures, parking, etc.).

Fire and emergency / First aid / Health and safety

- **Fire and emergency**
  
  In case of fire, the whole building will be evacuated simultaneously.

  Please pay attention to the fire alarm message: every floor will hear the same alarm - a slow 'whoop siren', followed by a voice message in English and Dutch, asking you to evacuate the building:

  "Attention please, you must leave the building immediately by the designated emergency exits. Do not use the elevators".

  "Attentie, u moet het gebouw verlaten via de aangegeven nooduitgangen. Maak geen gebruik van de liften".

  If a fire alarm happens during a meeting, please listen to the instructions from EMA staff, who will guide you to the nearest exit. In some larger meeting rooms, it may be necessary to evacuate personnel towards two different staircases.

  Suitcases and other bulky items must not be taken into the staircases in an evacuation.

  Any persons with a mobility-impairment who are planning to attend a meeting at the Agency should notify their Agency contact in advance so that arrangements can be made to assist them in case of fire or other emergency.

- **First Aid**: call 7777 from an EMA phone (e.g. in meeting rooms) or +31 (0)88 781 7777 for all First Aid matters, including access to the two First Aid / Nursing Rooms (located on the 1st floor of the EMA building)

- **Emergency number**: call 112 (for ambulance only, both from land lines and mobile phones). Please note that security will call the police or fire brigade in case of fire.
