**Public Consultation on the Joint Heads of Medicines Agencies /European Medicines Agency
Training Project Team 'Draft Strategy for Regulatory and Scientific Training within the
European Regulatory Network'**

At their meeting in Stockholm on the 8th July 2009, the Heads of Medicine Agencies adopted the '[Draft Strategy for Regulatory and Scientific Training](#) within the European Regulatory Network' for external consultation, together with a [draft Action Plan](#) as to how the strategy could be implemented.

This strategy has been developed by a joint HMA/EMA Training Project Team as a result of extensive discussion both within the European Regulatory Network and with external suppliers of training. Stakeholders are invited to submit their comments to Dr David Mackay at the EMA (david.mackay@emea.europa.eu) by Friday **30th September 2009**.

Comments received will be considered by HMA at their meeting in Uppsala on 29th October 2009, after which a revised strategy and an updated Action Plan will be published.

This invitation to comment is available on both the HMA and EMA websites and I look forward to receiving your comments and proposals.

Dr Gro Ramsten Wesenberg
Chair of the Joint HMA/EMA Training Project Team

Director General
Norwegian Medicines Agency
