Human Medicines Evaluation

The timetables in this document may be subject to revision

Informed consent and multiple application*

[Assessment of initial submission \(60-day timetable\)](#)

[Assessment of responses to List of Questions \(LOQ\)](#)

[Assessment of responses to List of Outstanding Issues \(30-day timetable after clock-stop for responses\)](#)

[Assessment of responses to List of Outstanding Issues \(30-day timetable after immediate responses\)](#)

(*) This timetable only applies to multiples of identical products with existing marketing authorisations. If the product of the multiple application is not identical to an existing product (authorised or under assessment), then an independent timetable for a full marketing authorisation application will apply to the multiple application. On the other hand, a multiple of an identical product with an ongoing marketing authorisation application will follow the same timetable as the ongoing application. However, there should be adequate time for validation of the multiple application. Therefore, the initial submission deadline of this timetable still applies in these cases (i.e. the application should be submitted following the deadline of the initial submission above and e.g. well ahead of any planned responses to the List of Questions for the parent product application).

(*) The Agency strongly recommends submitting the application before the published submission deadline. This is to avoid missing the target start date as a result of a technically invalid eCTD submission, in which case the submission is considered void and it needs to be re-despatched.

(^) The validation period between submission date and start date is generally thirteen EMA working days. For further information about the dates on which the Agency will be closed during the current year, please refer to the business hours and holidays page on the website.

(-) PRAC steps are applicable only if RMP is submitted.

(**) Comments from CHMP and PRAC members are not made available to Applicants.

(#) The PRAC outcome is captured in the subsequent PRAC Rapporteur updated assessment report.

(***) An updated AR is optional and dependent on the comments received from committee (PRAC, CHMP) members which create the need for the update.

(*) The Agency strongly recommends submitting the application before the published submission deadline. This is to avoid missing the target start date as a result of a technically invalid eCTD submission, in which case the submission is considered void and it needs to be re-despatched.

(~) PRAC steps are applicable only if RMP is submitted.

(**) Comments from CHMP and PRAC members are not made available to Applicants.

(#) The PRAC outcome is captured in the subsequent PRAC Rapporteur updated assessment report.

(***) An updated AR is optional and dependent on the comments received from committee (PRAC, CHMP) members which create the need for the update.
