

**When you're still itchy  
and your human doesn't  
do anything about it.**

When parasite treatments don't work as expected.

Learn how to **protect your animals** - and help keep medicines effective.

Check that the medicine is working.

## **Watch for:**

- ongoing signs of parasites;
- no improvement after treatment;
- weight loss or poor growth.

If you think a  
medicine isn't  
working or makes  
them unwell, **tell  
your vet!**
