European Medicines Agency decision

EMA/PE/0000183430

of 6 December 2024

on the acceptance of a modification of an agreed paediatric investigation plan for tralokinumab (Adtralza) in accordance with Regulation (EC) No 1901/2006 of the European Parliament and of the Council

The European Medicines Agency,

Having regard to the Treaty on the Functioning of the European Union,

Having regard to Regulation (EC) No 1901/2006 of the European Parliament and of the Council of 12 December 2006 on medicinal products for paediatric use and amending Regulation (EEC) No. 1768/92, Directive 2001/20/EC, Directive 2001/83/EC and Regulation (EC) No 726/2004¹,

Having regard to Regulation (EC) No 726/2004 of the European Parliament and of the Council of 31 March 2004 laying down Union procedures for the authorisation and supervision of medicinal products for human use and establishing a European Medicines Agency²,

Having regard to the European Medicines Agency's decision P/0083/2018 issued on 16 March 2018, the decision P/0250/2018 issued on 15 August 2018, the decision P/0104/2019 issued on 25 March 2019, the decision P/0145/2020 issued on 15 April 2020, the decision P/0440/2020 issued on 1 December 2020, the decision P/0292/2021 issued on 11 August 2021, the decision P/0096/2022 issued on 11 March 2022, the decision P/0186/2023 issued on 5 June 2023 and the decision P/0012/2024 issued on 31 January 2024,

Having regard to the application submitted by LEO PHARMA A/S on 28 June 2024 under Article 22 of Regulation (EC) No 1901/2006 proposing changes to the agreed paediatric investigation plan with a deferral and a waiver,

Having regard to the opinion of the Paediatric Committee of the European Medicines Agency, issued on 18 October 2024, in accordance with Article 22 of Regulation (EC) No 1901/2006,

Having regard to Article 25 of Regulation (EC) No 1901/2006,

Whereas:

- (1) The Paediatric Committee of the European Medicines Agency has given an opinion on the acceptance of changes to the agreed paediatric investigation plan and to the deferral.
- (2) It is therefore appropriate to adopt a decision on the acceptance of changes to the agreed paediatric investigation plan including changes to the deferral.

¹ OJ L 378, 27.12.2006, p.1, as amended.

² OJ L 136, 30.4.2004, p. 1, as amended.

Has adopted this decision:

Article 1

Changes to the agreed paediatric investigation plan for tralokinumab (Adtralza), including changes to the deferral, are hereby accepted in the scope set out in the opinion of the Paediatric Committee of the European Medicines Agency annexed hereto, together with its appendices.

Article 2

This decision is addressed to LEO PHARMA A/S, 55 Industriparken, 2750 – Ballerup Denmark.

EMADOC-1700519818-1617814 Corr¹
Amsterdam, 18 October 2024

Opinion of the Paediatric Committee on the acceptance of a modification of an agreed Paediatric Investigation Plan EMA/PE/0000183430

Scope of the application

Active substance(s):

Tralokinumab

Invented name and authorisation status:

See Annex II

Condition(s):

Treatment of atopic dermatitis

Pharmaceutical form(s):

Solution for injection

Route(s) of administration:

Subcutaneous use

Name/corporate name of the PIP applicant:

LEO Pharma A/S

Basis for opinion

Pursuant to Article 22 of Regulation (EC) No 1901/2006 as amended, LEO Pharma A/S submitted to the European Medicines Agency on 28 June 2024 an application for modification of the agreed paediatric investigation plan with a deferral and a waiver as set out in the European Medicines Agency's decision P/0083/2018 issued on 16 March 2018, the decision P/0250/2018 issued on 15 August 2018, the decision P/0104/2019 issued on 25 March 2019, the decision P/0145/2020 issued on 15 April 2020, the decision P/0440/2020 issued on 1 December 2020, the decision P/0292/2021 issued on 11 August 2021, the decision P/0096/2022 issued on 11 March 2022, the decision P/0186/2023 issued on 5 June 2023 and the decision P/0012/2024 issued on 31 January 2024.

¹ 12/11/2024

The application for modification proposed changes to the agreed paediatric investigation plan and to the deferral.

The procedure started on 19 August 2024.

Scope of the modification

Some measures and timelines of the Paediatric Investigation Plan have been modified.

Opinion

1. The Paediatric Committee, having assessed the application in accordance with Article 22 of Regulation (EC) No 1901/2006 as amended, recommends as set out in the appended summary report:
 - to agree to changes to the paediatric investigation plan and to the deferral in the scope set out in the Annex I of this opinion.

The Paediatric Committee member of Norway agrees with the above-mentioned recommendation of the Paediatric Committee.

2. The measures and timelines of the paediatric investigation plan and the subset(s) of the paediatric population and condition(s) covered by the waiver are set out in the Annex I.

This opinion is forwarded to the applicant and the Executive Director of the European Medicines Agency, together with its annexes and appendix.

Annex I

The subset(s) of the paediatric population and condition(s) covered by the waiver and the measures and timelines of the agreed paediatric investigation plan (PIP)

1. Waiver

1.1. Condition

Treatment of atopic dermatitis

The waiver applies to:

- all subsets of the paediatric population from birth to less than 2 years of age;
- solution for injection, subcutaneous use;
- on the grounds that clinical studies with the specific medicinal product cannot be expected to be of significant therapeutic benefit to or fulfil a therapeutic need of the specified paediatric subset(s).

2. Paediatric investigation plan

2.1. Condition

Treatment of atopic dermatitis

2.1.1. Indication(s) targeted by the PIP

Treatment of moderate-to-severe atopic dermatitis in adolescents (12–<18 years) who are candidates for systemic treatment

Treatment of moderate-to-severe atopic dermatitis in children (2–<12 years) who are candidates for systemic treatment

2.1.2. Subset(s) of the paediatric population concerned by the paediatric development

From 2 to less than 18 years of age

2.1.3. Pharmaceutical form(s)

Solution for injection

2.1.4. Measures

Area	Description
Quality-related studies	Not applicable
Non-clinical studies	Not applicable
Clinical studies	Study 1 (LP0162-1334) Double-blind, randomised, placebo-controlled trial to evaluate efficacy and safety of tralokinumab compared to placebo in adolescents from 12 years to less than 18 years with moderate-to-severe atopic dermatitis

	Study 2 (LP0162-1335) Assessor-blind, randomised trial to evaluate PK and safety of tralokinumab in children from 6 years to less than 12 years of age with moderate-to-severe atopic dermatitis Study 3 (LP0162-1336) Double-blind, randomised, placebo-controlled trial to evaluate efficacy and safety of tralokinumab + topical corticosteroids (TCS) compared to placebo + TCS in children from 2 years to 12 years of age with moderate-to-severe atopic dermatitis
Extrapolation, modelling and simulation studies	Study 4 (Modelling and simulation 1) Modelling and simulation study to support the dose selection for PK & safety trial in children in PIP Study 2 Study 5 (Modelling and simulation 2) Modelling and simulation study to support the dose selection for efficacy & safety trial in children in PIP Study 3
Other studies	Not applicable
Other measures	Not applicable

3. Follow-up, completion and deferral of PIP

Concerns on potential long-term safety/efficacy issues in relation to paediatric use:	Yes
Date of completion of the paediatric investigation plan:	By November 2027
Deferral for one or more measures contained in the paediatric investigation plan:	Yes

Annex II

Information about the authorised medicinal product

Information provided by the applicant:

Condition(s) and authorised indication(s)

1. Treatment of atopic dermatitis

Authorised indication(s):

- Adtralza is indicated for the treatment of moderate-to-severe atopic dermatitis in adult and adolescent patients who are candidates for systemic therapy.
 - Invented name(s): Adtralza
 - Authorised pharmaceutical form(s): Solution for injection
 - Authorised route(s) of administration: Subcutaneous injection
 - Authorised via centralised procedure
