European Medicines Agency decision

P/0004/2018

of 4 January 2018

on the acceptance of a modification of an agreed paediatric investigation plan for L-asparaginase encapsulated in erythrocytes, (EMA-000341-PIP02-09-M05) in accordance with Regulation (EC) No 1901/2006 of the European Parliament and of the Council

The European Medicines Agency,

Having regard to the Treaty on the Functioning of the European Union,

Having regard to Regulation (EC) No 1901/2006 of the European Parliament and of the Council of 12 December 2006 on medicinal products for paediatric use and amending Regulation (EEC) No. 1768/92, Directive 2001/20/EC, Directive 2001/83/EC and Regulation (EC) No 726/2004¹,

Having regard to Regulation (EC) No 726/2004 of the European Parliament and of the Council of 31 March 2004 laying down Community procedures for the authorisation and supervision of medicinal products for human and veterinary use and establishing a European Medicines Agency²,

Having regard to the European Medicines Agency's decision P/209/2010 issued on 29 October 2010, the decision P/0300/2014 issued on 24 November 2014, the decision P/0188/2015 issued on 4 September 2015 and the decision P/0267/2017 issued on 4 September 2017,

Having regard to the application submitted by ERYTECH Pharma S.A. on 24 November 2017 under Article 22 of Regulation (EC) No 1901/2006 proposing changes to the agreed paediatric investigation plan with a deferral,

Having regard to the opinion of the Paediatric Committee of the European Medicines Agency, issued on 15 December 2017, in accordance with Article 22 of Regulation (EC) No 1901/2006,

Having regard to Article 25 of Regulation (EC) No 1901/2006,

Whereas:

- (1) The Paediatric Committee of the European Medicines Agency has given an opinion on the acceptance of changes to the agreed paediatric investigation plan.
- (2) It is therefore appropriate to adopt a decision on the acceptance of changes to the agreed paediatric investigation plan.

¹ OJ L 378, 27.12.2006, p.1.

² OJ L 136, 30.4.2004, p. 1.

Has adopted this decision:

Article 1

Changes to the agreed paediatric investigation plan for L-asparaginase encapsulated in erythrocytes, dispersion for injection, intravenous use, are hereby accepted in the scope set out in the opinion of the Paediatric Committee of the European Medicines Agency annexed hereto, together with its appendices.

Article 2

This decision is addressed to ERYTECH Pharma S.A., Bâtiment Adénine - 60 Avenue Rockefeller, 69008 - Lyon, France.

EMA/PDCO/787560/2017
London, 15 December 2017

Opinion of the Paediatric Committee on the acceptance of a modification of an agreed Paediatric Investigation Plan EMA-000341-PIP02-09-M05

Scope of the application

Active substance(s):

L-asparaginase encapsulated in erythrocytes

Condition(s):

Treatment of acute lymphoblastic leukaemia

Pharmaceutical form(s):

Dispersion for injection

Route(s) of administration:

Intravenous use

Name / corporate name of the PIP applicant:

ERYTECH Pharma S.A.

Basis for opinion

Pursuant to Article 22 of Regulation (EC) No 1901/2006 as amended, ERYTECH Pharma S.A. submitted to the European Medicines Agency on 24 November 2017 an application for modification of the agreed paediatric investigation plan with a deferral as set out in the European Medicines Agency's decision P/209/2010 issued on 29 October 2010, the decision P/0300/2014 issued on 24 November 2014, the decision P/0188/2015 issued on 4 September 2015 and the decision P/0267/2017 issued on 4 September 2017.

The application for modification proposed changes to the agreed paediatric investigation plan.

The procedure started on 28 November 2017.

Scope of the modification

Some measures of the Paediatric Investigation Plan have been modified.

Opinion

1. The Paediatric Committee, having assessed the application in accordance with Article 22 of Regulation (EC) No 1901/2006 as amended, recommends as set out in the appended summary report:
 - to agree to changes to the paediatric investigation plan in the scope set out in the Annex I of this opinion.

The Norwegian Paediatric Committee member agrees with the above-mentioned recommendation of the Paediatric Committee.

2. The measures and timelines of the paediatric investigation plan are set out in the Annex I.

This opinion is forwarded to the applicant and the Executive Director of the European Medicines Agency, together with its annex and appendix.

Annex I

The subset(s) of the paediatric population and condition(s) covered by the waiver and the measures and timelines of the agreed paediatric investigation plan (PIP)

1. Waiver

Not applicable.

2. Paediatric investigation plan

2.1. Condition:

Treatment of acute lymphoblastic leukaemia

2.1.1. Indication(s) targeted by the PIP

Treatment of patients with acute lymphoblastic leukaemia

2.1.2. Subset(s) of the paediatric population concerned by the paediatric development

From birth to less than 18 years of age

2.1.3. Pharmaceutical form(s)

Dispersion for injection

2.1.4. Measures

Area	Number of measures	Description
Quality-related studies	0	Not applicable
Non-clinical studies	1	Study 1: To evaluate L-asparaginase activity in presence of specific neutralizing antibodies
Clinical studies	3	Study 3: Double-blind, dose-comparative, randomised, repeat-dose, multicentre, active-controlled trial to evaluate pharmacokinetics, pharmacodynamics, safety and immunogenicity of L-asparaginase encapsulated in erythrocytes in children from 1 years to less than 18 years (and in adults) with acute lymphoblastic leukaemia Study 4: Open-label, randomised, single-dose, multicentre, active-controlled trial to evaluate pharmacokinetics, safety, pharmacodynamic activity of L-asparaginase encapsulated in erythrocytes in children from 1 years to less than 18 years (and in adults) with first relapse of acute lymphoblastic leukaemia, with and without asparaginase hypersensitivity

		Study 5: Open-label, randomised, multicentre, active-controlled trial to evaluate safety, pharmacodynamic equivalence / comparative efficacy of L-asparaginase encapsulated in erythrocytes in children from birth to less than 18 years with newly-diagnosed acute lymphoblastic leukaemia
Extrapolation, modelling and simulation studies	0	Not applicable.
Other studies	0	Not applicable.
Other measures	0	Not applicable.

3. Follow-up, completion and deferral of PIP

Concerns on potential long term safety/efficacy issues in relation to paediatric use:	Yes
Date of completion of the paediatric investigation plan:	By December 2020
Deferral for one or more measures contained in the paediatric investigation plan:	Yes
