European Medicines Agency decision

P/0018/2016

of 29 January 2016

on the acceptance of a modification of an agreed paediatric investigation plan for sonidegib (Odomzo) (EMA-000880-PIP02-11-M03) in accordance with Regulation (EC) No 1901/2006 of the European Parliament and of the Council

The European Medicines Agency,

Having regard to the Treaty on the Functioning of the European Union,

Having regard to Regulation (EC) No 1901/2006 of the European Parliament and of the Council of 12 December 2006 on medicinal products for paediatric use and amending Regulation (EEC) No. 1768/92, Directive 2001/20/EC, Directive 2001/83/EC and Regulation (EC) No 726/2004¹,

Having regard to Regulation (EC) No 726/2004 of the European Parliament and of the Council of 31 March 2004 laying down Community procedures for the authorisation and supervision of medicinal products for human and veterinary use and establishing a European Medicines Agency²,

Having regard to the European Medicines Agency's decision P/0192/2012 issued on 24 August 2012, the decision P/0302/2012 issued on 20 December 2012 and the decision P/0237/2013 issued on 24 September 2013.

Having regard to the application submitted by Novartis Europharm Ltd. on 16 September 2015 under Article 22 of Regulation (EC) No 1901/2006 proposing changes to the agreed paediatric investigation plan with a deferral and a waiver,

Having regard to the opinion of the Paediatric Committee of the European Medicines Agency, issued on 11 December 2015, in accordance with Article 22 of Regulation (EC) No 1901/2006,

Having regard to Article 25 of Regulation (EC) No 1901/2006,

Whereas:

- (1) The Paediatric Committee of the European Medicines Agency has given an opinion on the acceptance of changes to the agreed paediatric investigation plan.
- (2) It is therefore appropriate to adopt a decision on the acceptance of changes to the agreed paediatric investigation plan.

¹ OJ L 378, 27.12.2006, p.1.

² OJ L 136, 30.4.2004, p. 1.

Has adopted this decision:

Article 1

Changes to the agreed paediatric investigation plan for sonidegib (Odomzo), Powder and solvent for oral suspension, film-coated tablet, capsule, hard, oral use, are hereby accepted in the scope set out in the opinion of the Paediatric Committee of the European Medicines Agency annexed hereto, together with its appendices.

Article 2

This decision is addressed to Novartis Europharm Ltd., Frimley Business Park, GU16 7SR - Camberley United Kingdom.

London, 11 December 2015

Opinion of the Paediatric Committee on the acceptance of a modification of an agreed Paediatric Investigation Plan EMA-000880-PIP02-11-M03

Scope of the application

Active substance(s):

Sonidegib

Invented name:

Odomzo

Condition(s):

Treatment of medulloblastoma

Authorised indication(s):

See Annex II

Pharmaceutical form(s):

Capsule, hard

Film-coated tablet

Powder and solvent for oral suspension

Route(s) of administration:

Oral use

Name / corporate name of the PIP applicant:

Novartis Europharm Ltd.

Basis for opinion

Pursuant to Article 22 of Regulation (EC) No 1901/2006 as amended, Novartis Europharm Ltd. submitted to the European Medicines Agency on 16 September 2015 an application for modification of the agreed paediatric investigation plan with a deferral and a waiver as set out in the European

Medicines Agency's decision P/0192/2012 issued on 24 August 2012, the decision P/0302/2012 issued on 20 December 2012 and the decision P/0237/2013 issued on 24 September 2013.

The application for modification proposed changes to the agreed paediatric investigation plan.

The procedure started on 13 October 2015.

Scope of the modification

Some measures and timelines of the Paediatric Investigation Plan have been modified.

Opinion

1. The Paediatric Committee, having assessed the application in accordance with Article 22 of Regulation (EC) No 1901/2006 as amended, recommends as set out in the appended summary report:
 - to agree to changes to the paediatric investigation plan in the scope set out in the Annex I of this opinion.

The Norwegian Paediatric Committee member agrees with the above-mentioned recommendation of the Paediatric Committee.

2. The measures and timelines of the paediatric investigation plan and the subset(s) of the paediatric population and condition(s) covered by the waiver are set out in the Annex I.

This opinion is forwarded to the applicant and the Executive Director of the European Medicines Agency, together with its annex and appendix.

Annex I

The subset(s) of the paediatric population and condition(s) covered by the waiver and the measures and timelines of the agreed paediatric investigation plan (PIP)

1. Waiver

1.1. Condition:

Treatment of medulloblastoma

The waiver applies to:

- The paediatric population from birth to less than 4 months of age;
- for capsule, hard, film-coated tablet and powder and solvent for oral suspension for oral use;
- on the grounds that the disease or condition for which the specific medicinal product is intended does not occur in the specified paediatric subset(s).

2. Paediatric Investigation Plan

2.1. Condition:

Treatment of medulloblastoma

2.1.1. Indication(s) targeted by the PIP

- Treatment of paediatric and adult patients with hedgehog pathway-activated medulloblastoma who relapse following standard of care therapy (including children younger than 3 years of age and children not eligible for radiation therapy).
- Treatment of paediatric patients with high-risk hedgehog pathway-activated medulloblastoma in combination with standard chemotherapy following primary surgical resection with or without radiotherapy (including children younger than 3 years of age).

2.1.2. Subset(s) of the paediatric population concerned by the paediatric development

From 4 months to less than 18 years of age

2.1.3. Pharmaceutical form(s)

- Capsule, hard
- Film-coated tablet
- Powder and solvent for oral suspension

2.1.4. Measures

Area	Number of studies	Description
Quality-related studies	1	Study 1: Development of a powder and solvent for oral suspension.
Non-clinical	0	Not applicable.

Area	Number of studies	Description
studies		
Clinical studies	4	Study 2: Open-label, single-arm, non-controlled, dose-escalating, cohort-expanding trial to evaluate pharmacokinetics, tolerability and activity of sonidegib (LDE225) in children from 1 to less than 18 years of age (and in adults) with a refractory or recurrent solid malignant tumour which is potentially driven by hedgehog pathway. Study 3: Open-label multi-centre trial to evaluate the safety and activity of sonidegib (LDE225) in children from 4 months to less than 18 years of age (and adults) with a relapse of medulloblastoma with hedgehog pathway-activation. Study 4: Randomised, double-blind, multi-centre, placebo-controlled trial to evaluate the efficacy and safety of sonidegib (LDE225) as add-on to standard frontline chemotherapy and, where appropriate, radiation therapy in children from 12 months to less than 18 years with medulloblastoma with high-risk features and with hedgehog activation, with a safety run-in phase. Study 5: Population pharmacokinetic model using data from paediatric and adult patients.

3. Follow-up, completion and deferral of PIP

Concerns on potential long term safety issues in relation to paediatric use:	Yes
Date of completion of the paediatric investigation plan:	By December 2024
Deferral for one or more studies contained in the paediatric investigation plan:	Yes

Annex II

Information about the authorised medicinal product

Condition(s) and authorised indication(s):

Treatment of malignant skin neoplasm

Authorised indication(s):

- Odomzo is indicated for the treatment of adult patients with locally advanced basal cell carcinoma (BCC) who are not amenable to curative surgery or radiation therapy.

Authorised pharmaceutical form(s):

Capsule, hard

Authorised route(s) of administration:

Oral use
