European Medicines Agency decision

P/0080/2024

of 15 March 2024

on the agreement of a paediatric investigation plan and on the granting of a deferral and on the granting of a waiver for *Borrelia* outer surface protein A (OspA) serotypes (ST1-6) lipidated, fusion protein vaccine (EMA-003130-PIP02-23) in accordance with Regulation (EC) No 1901/2006 of the European Parliament and of the Council

The European Medicines Agency,

Having regard to the Treaty on the Functioning of the European Union,

Having regard to Regulation (EC) No 1901/2006 of the European Parliament and of the Council of 12 December 2006 on medicinal products for paediatric use and amending Regulation (EEC) No 1768/92, Directive 2001/20/EC, Directive 2001/83/EC and Regulation (EC) No 726/2004¹,

Having regard to Regulation (EC) No 726/2004 of the European Parliament and of the Council of 31 March 2004 laying down Union procedures for the authorisation and supervision of medicinal products for human use and establishing a European Medicines Agency²,

Having regard to the application submitted by Pfizer Europe MA EEIG on 30 May 2023 under Article 16(1) of Regulation (EC) No 1901/2006 also requesting a deferral under Article 20 of said Regulation and a waiver under Article 13 of said Regulation,

Having regard to the opinion of the Paediatric Committee of the European Medicines Agency, issued on 19 January 2024, in accordance with Article 17 of Regulation (EC) No 1901/2006 and Article 21 of said Regulation and Article 13 of said Regulation,

Having regard to Article 25 of Regulation (EC) No 1901/2006,

Whereas:

- (1) The Paediatric Committee of the European Medicines Agency has given an opinion on the agreement of a paediatric investigation plan and on the granting of a deferral and on the granting of a waiver.
- (2) It is therefore appropriate to adopt a decision agreeing a paediatric investigation plan.
- (3) It is therefore appropriate to adopt a decision granting a deferral.
- (4) It is therefore appropriate to adopt a decision granting a waiver.

¹ OJ L 378, 27.12.2006, p.1, as amended.

² OJ L 136, 30.4.2004, p. 1, as amended.

Has adopted this decision:

Article 1

A paediatric investigation plan for *Borrelia* outer surface protein A (OspA) serotypes (ST1-6) lipidated, fusion protein vaccine, suspension for injection in pre-filled syringe, intramuscular use, the details of which are set out in the opinion of the Paediatric Committee of the European Medicines Agency annexed hereto, together with its appendices, is hereby agreed.

Article 2

A deferral for *Borrelia* outer surface protein A (OspA) serotypes (ST1-6) lipidated, fusion protein vaccine, suspension for injection in pre-filled syringe, intramuscular use, the details of which are set out in the opinion of the Paediatric Committee of the European Medicines Agency annexed hereto, together with its appendices, is hereby granted.

Article 3

A waiver for *Borrelia* outer surface protein A (OspA) serotypes (ST1-6) lipidated, fusion protein vaccine, suspension for injection in pre-filled syringe, intramuscular use, the details of which are set out in the opinion of the Paediatric Committee of the European Medicines Agency annexed hereto, together with its appendices, is hereby granted.

Article 4

This decision is addressed to Pfizer Europe MA EEIG, Boulevard de la Plaine 17, 1050 – Brussels, Belgium.

EUROPEAN MEDICINES AGENCY
SCIENCE MEDICINES HEALTH

EMA/PDCO/528453/2023
Amsterdam, 19 January 2024

Opinion of the Paediatric Committee on the agreement of a Paediatric Investigation Plan and a deferral and a waiver

EMA-003130-PIP02-23

Scope of the application

Active substance(s):

Borrelia outer surface protein A (OspA) serotypes (ST1-6) lipidated, fusion protein vaccine

Invented name and authorisation status:

See Annex II

Condition(s):

Prevention of Lyme disease

Pharmaceutical form(s):

Suspension for injection in pre-filled syringe

Route(s) of administration:

Intramuscular use

Name/corporate name of the PIP applicant:

Pfizer Europe MA EEIG

Basis for opinion

Pursuant to Article 16(1) of Regulation (EC) No 1901/2006 as amended, Pfizer Europe MA EEIG submitted for agreement to the European Medicines Agency on 30 May 2023 an application for a paediatric investigation plan for the above mentioned medicinal product and a deferral under Article 20 of said Regulation and a waiver under Article 13 of said Regulation.

The procedure started on 10 July 2023.

Supplementary information was provided by the applicant on 20 November 2023. The applicant proposed modifications to the paediatric investigation plan.

Opinion

1. The Paediatric Committee, having assessed the proposed paediatric investigation plan in accordance with Article 17 of Regulation (EC) No 1901/2006 as amended, recommends as set out in the appended summary report:

- to agree the paediatric investigation plan in accordance with Article 17(1) of said Regulation;
- to grant a deferral in accordance with Article 21 of said Regulation;
- to grant a waiver for one or more subsets of the paediatric population in accordance with Article 13 of said Regulation and concluded in accordance with Article 11(1)(c) of said Regulation, on the grounds that the specific medicinal product does not represent a significant therapeutic benefit over existing treatments for paediatric patients.

The Paediatric Committee member of Norway agrees with the above-mentioned recommendation of the Paediatric Committee.

2. The measures and timelines of the agreed paediatric investigation plan and the subset(s) of the paediatric population and condition(s) covered by the waiver are set out in the Annex I.

This opinion is forwarded to the applicant and the Executive Director of the European Medicines Agency, together with its annexes and appendix.

Annex I

The subset(s) of the paediatric population and condition(s) covered by the waiver and the measures and timelines of the agreed paediatric investigation plan (PIP)

1. Waiver

1.1. Condition:

Prevention of Lyme disease

The waiver applies to:

- the paediatric population from birth to less than 1 year of age;
- suspension for injection in pre-filled syringe, intramuscular use;
- on the grounds that the specific medicinal product does not represent a significant therapeutic benefit as clinical studies are not feasible.

2. Paediatric investigation plan

2.1. Condition:

Prevention of Lyme disease

2.1.1. Indication(s) targeted by the PIP

Active immunisation for the prevention of Lyme disease caused by *Borrelia* species

2.1.2. Subset(s) of the paediatric population concerned by the paediatric development

From 1 year to less than 18 years of age.

2.1.3. Pharmaceutical form(s)

Suspension for injection in pre-filled syringe

2.1.4. Measures

Area	Description
Quality-related studies	Not applicable.
Non-clinical studies	Not applicable.
Clinical studies	Study 1 (C4601009) Randomised, placebo-controlled, observer-blind trial to evaluate safety, tolerability, and immunogenicity of a 6-valent OspA-based Lyme disease vaccine (VLA15) in healthy children from 1 year to less than 5 years of age. Study 2 (C4601003) Multicentre, placebo-controlled, randomised, observer-blind trial to evaluate the safety, efficacy, immunogenicity, and lot consistency of a 6-valent OspA-based Lyme disease vaccine (VLA15) in healthy participants from 5 years to less than 18 years of age (and adults).

	<p>Study 3 (C4601012)</p> <p>Randomised, placebo-controlled, observer-blind trial to evaluate the safety of a 6-valent OspA-based Lyme disease vaccine (VLA15) in healthy children from 5 years to less than 18 years of age.</p> <p>Study 4 (VLA15-221)</p> <p>Randomised, observer-blind, placebo-controlled, multicentre trial to evaluate safety and immunogenicity of a 6-valent OspA-based Lyme disease vaccine (VLA15) in healthy children from 5 years to less than 18 years of age (and adults).</p>
Modelling and simulation analyses	Not applicable.
Other studies	Not applicable.
Extrapolation plan	Not applicable.

3. Follow-up, completion and deferral of PIP

Concerns on potential long term safety/efficacy issues in relation to paediatric use:	No
Date of completion of the paediatric investigation plan:	By April 2029
Deferral for one or more measures contained in the paediatric investigation plan:	Yes

Annex II

Information about the authorised medicinal product
