European Medicines Agency decision

P/0101/2014

of 11 April 2014

on the acceptance of a modification of an agreed paediatric investigation plan for tiotropium bromide (monohydrate) (Spiriva Respimat, Spiriva), (EMA-000035-PIP02-09-M01) in accordance with Regulation (EC) No 1901/2006 of the European Parliament and of the Council

The European Medicines Agency,

Having regard to the Treaty on the Functioning of the European Union,

Having regard to Regulation (EC) No 1901/2006 of the European Parliament and of the Council of 12 December 2006 on medicinal products for paediatric use and amending Regulation (EEC) No. 1768/92, Directive 2001/20/EC, Directive 2001/83/EC and Regulation (EC) No 726/2004¹,

Having regard to Regulation (EC) No 726/2004 of the European Parliament and of the Council of 31 March 2004 laying down Community procedures for the authorisation and supervision of medicinal products for human and veterinary use and establishing a European Medicines Agency²,

Having regard to the European Medicines Agency's decision P/0020/2013 issued on 15 February 2013,

Having regard to the application submitted by Boehringer Ingelheim International GmbH on 20 December 2013 under Article 22 of Regulation (EC) No 1901/2006 proposing changes to the agreed paediatric investigation plan with a deferral and a waiver,

Having regard to the opinion of the Paediatric Committee of the European Medicines Agency, issued on 21 March 2014, in accordance with Article 22 of Regulation (EC) No 1901/2006,

Having regard to Article 25 of Regulation (EC) No 1901/2006,

Whereas:

- (1) The Paediatric Committee of the European Medicines Agency has given an opinion on the acceptance of changes to the agreed paediatric investigation plan and to the deferral.
- (2) It is therefore appropriate to adopt a decision on the acceptance of changes to the agreed paediatric investigation plan, including changes to the deferral.

¹ OJ L 378, 27.12.2006, p.1.

² OJ L 136, 30.4.2004, p. 1.

Has adopted this decision:

Article 1

Changes to the agreed paediatric investigation plan for tiotropium bromide (monohydrate) (Spiriva Respimat, Spiriva), inhalation solution, inhalation powder, hard capsule, inhalation use, including changes to the deferral, are hereby accepted in the scope set out in the opinion of the Paediatric Committee of the European Medicines Agency annexed hereto, together with its appendices.

Article 2

This agreed PIP covers all conditions, indications, pharmaceutical forms, routes of administration, measures, timelines, waivers and deferrals, as agreed in the decision P/61/2008 issued on 15 August 2008, including subsequent modifications thereof.

Article 3

This decision is addressed to Boehringer Ingelheim International GmbH, Binger Straße 173, D-55216 - Ingelheim am Rhein, Germany.

EMA/PDCO/18591/2014

Opinion of the Paediatric Committee on the acceptance of a modification of an agreed Paediatric Investigation Plan

EMA-000035-PIP02-09-M01

Scope of the application

Active substance(s):

Tiotropium bromide (monohydrate)

Invented name:

Spiriva Respimat

Spiriva

Condition(s):

Treatment of asthma

Authorised indication(s):

See Annex II

Pharmaceutical form(s):

Inhalation solution

Inhalation powder, hard capsule

Route(s) of administration:

Inhalation use

Name / corporate name of the PIP applicant:

Boehringer Ingelheim International GmbH

Information about the authorised medicinal product:

See Annex II

Basis for opinion

Pursuant to Article 22 of Regulation (EC) No 1901/2006 as amended, Boehringer Ingelheim International GmbH submitted to the European Medicines Agency on 20 December 2013 an application for modification of the agreed paediatric investigation plan with a deferral and a waiver as set out in the European Medicines Agency's decision P/0020/2013 issued on 15 February 2013.

The application for modification proposed changes to the agreed paediatric investigation plan and to the deferral.

The procedure started on 21 January 2014.

Scope of the modification

Some timelines of the Paediatric Investigation Plan have been modified.

Opinion

1. The Paediatric Committee, having assessed the application in accordance with Article 22 of Regulation (EC) No 1901/2006 as amended, recommends as set out in the appended summary report:
 - to agree to changes to the paediatric investigation plan and to the deferral in the scope set out in the Annex I of this opinion.

The Icelandic and the Norwegian Paediatric Committee members agree with the above-mentioned recommendation of the Paediatric Committee.

2. The measures and timelines of the paediatric investigation plan and the subset(s) of the paediatric population and condition(s) covered by the waiver are set out in the Annex I.

This opinion is forwarded to the applicant and the Executive Director of the European Medicines Agency, together with its annexes and appendix.

London, 21 March 2014

On behalf of the Paediatric Committee
Dr Dirk Mentzer, Chairman
(Signature on file)

Annex I

The subset(s) of the paediatric population and condition(s) covered by the waiver and the measures and timelines of the agreed Paediatric Investigation Plan

1. Waiver

1.1. Condition: treatment of asthma

The waiver applies to:

- the paediatric population from birth to less than one year;
- for inhalation solution, inhalation use;
- on the grounds that the specific medicinal product does not represent a significant therapeutic benefit as clinical studies are not feasible.

The waiver applies to:

- all subsets of the paediatric population from birth to less than 18 years of age;
- for inhalation powder, hard capsules, inhalation use;
- on the grounds that the specific medicinal product does not represent a significant therapeutic benefit over existing treatments.

2. Paediatric Investigation Plan

2.1. Condition:

Treatment of asthma.

2.1.1. Indication(s) targeted by the PIP

Add-on maintenance bronchodilator treatment in patients with asthma, who are not adequately controlled on inhaled corticosteroids.

2.1.2. Subset(s) of the paediatric population concerned by the paediatric development

From 1 year to less than 18 years of age.

2.1.3. Pharmaceutical form(s)

Inhalation solution

2.1.4. Measures

Area	Number of studies	Description
Quality-related studies		Not applicable.
Non-clinical studies		Not applicable.

Clinical studies	7	1. Randomised, double-blind, placebo-controlled, incomplete-crossover, multiple dose trial to evaluate safety and efficacy in adolescents 12 to less than 18 years with moderate persistent asthma. (205.424) 2. Randomised, double-blind, placebo-controlled, incomplete-crossover, multiple dose trial to evaluate safety and efficacy in children 6 to less than 12 years with moderate persistent asthma. (205.425) 3. Randomised, double-blind, placebo-controlled, parallel-group, multiple dose trial to evaluate safety and efficacy in children 1 to less than 6 years with persistent asthma. (205.443) 4. Randomised, double-blind, placebo-controlled, parallel-group, multiple dose trial to evaluate safety and efficacy in adolescents 12 to less than 18 years with moderate persistent asthma. (205.444) 5. Randomised, double-blind, placebo-controlled, parallel-group, multiple dose trial to evaluate safety and efficacy in children 6 to less than 12 years with moderate persistent asthma. (205.445) 6. Randomised, double-blind, placebo-controlled, parallel-group, multiple dose trial to evaluate safety and efficacy in children 6 to less than 12 years with severe persistent asthma. (205.446) 7. Randomised, double-blind, placebo-controlled, parallel-group, multiple dose trial to evaluate safety and efficacy in adolescents 12 to less than 18 years with severe persistent asthma. (205.456)
Extrapolation, modelling and simulation studies	1	8. Extrapolation study justifying why the efficacy and safety data with regard to the comparison of tiotropium and LABA as add-on treatment to inhaled corticosteroid can be extrapolated from adult data to the different age subsets of paediatric patients with persistent asthma
Other studies		Not applicable.
Other measures		Not applicable.

3. Follow-up, completion and deferral of PIP

Concerns on potential long term safety / efficacy issues in relation to paediatric use:	Yes
Date of completion of the paediatric investigation plan:	By October 2015
Deferral for one or more measures contained in the paediatric investigation plan:	Yes

Annex II

Information about the authorised medicinal product

Condition(s) and authorised indication(s):

1. Treatment of chronic obstructive pulmonary disease (COPD)

Authorised indications:

- Tiotropium is indicated as a maintenance bronchodilator treatment to relieve symptoms of patients with chronic obstructive pulmonary disease (COPD).

Authorised pharmaceutical formulation(s):

Spiriva Respimat, solution for inhalation

Spiriva Inhalation powder, hard capsule

Authorised route(s) of administration:

Inhalation use
