European Medicines Agency decision

P/0104/2015

of 11 May 2015

on the agreement of a paediatric investigation plan and on the granting of a deferral and on the granting of a waiver for ibodutant (EMA-001663-PIP01-14) in accordance with Regulation (EC) No 1901/2006 of the European Parliament and of the Council

The European Medicines Agency,

Having regard to the Treaty on the Functioning of the European Union,

Having regard to Regulation (EC) No 1901/2006 of the European Parliament and of the Council of 12 December 2006 on medicinal products for paediatric use and amending Regulation (EEC) No. 1768/92, Directive 2001/20/EC, Directive 2001/83/EC and Regulation (EC) No 726/2004¹,

Having regard to Regulation (EC) No 726/2004 of the European Parliament and of the Council of 31 March 2004 laying down Community procedures for the authorisation and supervision of medicinal products for human and veterinary use and establishing a European Medicines Agency²,

Having regard to the application submitted by Menarini Ricerche S.p.A. on 7 July 2014 under Article 16(1) of Regulation (EC) No 1901/2006 also requesting a deferral under Article 20 of said Regulation and a waiver under Article 13 of said Regulation,

Having regard to the opinion of the Paediatric Committee of the European Medicines Agency, issued on 20 March 2015, in accordance with Article 18 of Regulation (EC) No 1901/2006, and Article 21 of said Regulation and Article 13 of said Regulation,

Having regard to Article 25 of Regulation (EC) No 1901/2006,

Whereas:

- (1) The Paediatric Committee of the European Medicines Agency has given an opinion on the agreement of a paediatric investigation plan and on the granting of a deferral and on the granting of a waiver.
- (2) It is therefore appropriate to adopt a decision agreeing a paediatric investigation plan.
- (3) It is therefore appropriate to adopt a decision granting a deferral.
- (4) It is therefore appropriate to adopt a decision granting a waiver.

¹ OJ L 378, 27.12.2006, p.1.

² OJ L 136, 30.4.2004, p. 1.

Has adopted this decision:

Article 1

A paediatric investigation plan for ibodutant, tablet, film-coated tablet, oral use, the details of which are set out in the opinion of the Paediatric Committee of the European Medicines Agency annexed hereto, together with its appendices, is hereby agreed.

Article 2

A deferral for ibodutant, tablet, film-coated tablet, oral use, the details of which are set out in the opinion of the Paediatric Committee of the European Medicines Agency annexed hereto, together with its appendices, is hereby granted.

Article 3

A waiver for ibodutant, tablet, film-coated tablet, oral use, the details of which are set out in the opinion of the Paediatric Committee of the European Medicines Agency annexed hereto, together with its appendices, is hereby granted.

Article 4

This decision is addressed to Menarini Ricerche S.p.A., Via Tito Speri 10, 00040 - Pomezia (Rome), Italy.

EMA/PDCO/20923/2015
London, 20 March 2015

Opinion of the Paediatric Committee on the agreement of a Paediatric Investigation Plan and a deferral and a waiver

EMA-001663-PIP01-14

Scope of the application

Active substance(s):

Ibodontant

Condition(s):

Treatment of diarrhoea-predominant irritable bowel Syndrome

Pharmaceutical form(s):

Tablet

Film-coated tablet

Route(s) of administration:

Oral use

Name / corporate name of the PIP applicant:

Menarini Ricerche S.p.A.

Basis for opinion

Pursuant to Article 16(1) of Regulation (EC) No 1901/2006 as amended, Menarini Ricerche S.p.A. submitted for agreement to the European Medicines Agency on 7 July 2014 an application for a paediatric investigation plan for the above mentioned medicinal product and a deferral under Article 20 of said Regulation and a waiver under Article 13 of said Regulation.

The procedure started on 13 August 2014.

Supplementary information was provided by the applicant on 22 December 2014. The applicant proposed modifications to the paediatric investigation plan.

Opinion

1. The Paediatric Committee, having assessed the proposed paediatric investigation plan in accordance with Article 17 of Regulation (EC) No 1901/2006 as amended, recommends as set out in the appended summary report:

- to agree the paediatric investigation plan in accordance with Article 18 of said Regulation;
- to grant a deferral in accordance with Article 21 of said Regulation;
- to grant a waiver for one or more subsets of the paediatric population in accordance with Article 13 of said Regulation and concluded in accordance with Article 11(1)(c) of said Regulation, on the grounds that the specific medicinal product does not represent a significant therapeutic benefit over existing treatments for paediatric patients.

The Icelandic and the Norwegian Paediatric Committee members agree with the above-mentioned recommendation of the Paediatric Committee.

2. The measures and timelines of the agreed paediatric investigation plan and the subset(s) of the paediatric population and condition(s) covered by the waiver are set out in the Annex I.

This opinion is forwarded to the applicant and the Executive Director of the European Medicines Agency, together with its annex and appendix.

Annex I

The subset(s) of the paediatric population and condition(s) covered by the waiver and the measures and timelines of the agreed paediatric investigation plan (PIP)

1. Waiver

Treatment of diarrhoea-predominant irritable bowel syndrome

The waiver applies to:

- the paediatric population from birth to less than 6 years;
- tablet, film-coated tablet, oral use;
- on the grounds that clinical studies with the specific medicinal product cannot be expected to be of significant therapeutic benefit to or fulfil a therapeutic need of the specified paediatric subset(s).

2. Paediatric investigation plan

2.1. Condition

Treatment of diarrhoea-predominant irritable bowel syndrome

2.1.1. Indication(s) targeted by the PIP

Treatment of diarrhoea-predominant irritable bowel syndrome

2.1.2. Subset(s) of the paediatric population concerned by the paediatric development

From 6 to less than 18 years of age

2.1.3. Pharmaceutical form(s)

Tablet, film-coated tablet

2.1.4. Measures

Area	Number of measures	Description
Quality-related studies	1	Study 1 Development of an age-appropriate solid oral formulation.
Non-clinical studies	0	
Clinical studies	4	Study 2 (NAK-01-ADO) Randomised, double-blind, placebo-controlled, parallel-group, dose finding study to evaluate the efficacy and safety of ibodutant in adolescents from 12 to less than 18 years of age with irritable bowel syndrome with diarrhoea (IBS-D). Study 3 (NAK-02-ADO) Randomised, double-blind, placebo-controlled, parallel-group study to evaluate the efficacy and safety of ibodutant in adolescents from 12 to less than 18 years of age with irritable bowel syndrome with diarrhoea (IBS-D).

		Study 4 (NAK-01-CHI) Randomised, double-blind, placebo-controlled, parallel-group, dose finding study to evaluate the efficacy and safety of ibodutant in children from 6 to less than 12 years of age with irritable bowel syndrome with diarrhoea (IBS-D). Study 5 (NAK-02-CHI) Randomised, double-blind, placebo-controlled, parallel-group study to evaluate the efficacy and safety of ibodutant in children from 6 to less than 12 years of age with irritable bowel syndrome with diarrhoea (IBS-D).
Extrapolation, modelling and simulation studies	0	Not applicable.
Other studies	0	Not applicable.
Other measures	0	Not applicable.

3. Follow-up, completion and deferral of PIP

Concerns on potential long term safety/efficacy issues in relation to paediatric use:	No
Date of completion of the paediatric investigation plan:	By November 2023
Deferral for one or more measures contained in the paediatric investigation plan:	Yes
