European Medicines Agency decision

P/0105/2015

of 29 April 2015

on the acceptance of a modification of an agreed paediatric investigation plan for dulaglutide (Trulicity) (EMA-000783-PIP01-09-M02) in accordance with Regulation (EC) No 1901/2006 of the European Parliament and of the Council

The European Medicines Agency,

Having regard to the Treaty on the Functioning of the European Union,

Having regard to Regulation (EC) No 1901/2006 of the European Parliament and of the Council of 12 December 2006 on medicinal products for paediatric use and amending Regulation (EEC) No. 1768/92, Directive 2001/20/EC, Directive 2001/83/EC and Regulation (EC) No 726/2004¹,

Having regard to Regulation (EC) No 726/2004 of the European Parliament and of the Council of 31 March 2004 laying down Community procedures for the authorisation and supervision of medicinal products for human and veterinary use and establishing a European Medicines Agency²,

Having regard to the European Medicines Agency's decision P/37/2011 issued on 24 January 2011 and the decision P/0039/2014 issued on 5 March 2014,

Having regard to the application submitted by Eli Lilly & Company on 24 November 2014 under Article 22 of Regulation (EC) No 1901/2006 proposing changes to the agreed paediatric investigation plan with a deferral and a waiver,

Having regard to the opinion of the Paediatric Committee of the European Medicines Agency, issued on 17 April 2015, in accordance with Article 22 of Regulation (EC) No 1901/2006,

Having regard to Article 25 of Regulation (EC) No 1901/2006,

Whereas:

- (1) The Paediatric Committee of the European Medicines Agency has given, following a re-examination procedure of the Paediatric Committee's opinion according to Article 25(3) Regulation (EC) No 1901/2006, an opinion on the acceptance of changes to the agreed paediatric investigation plan.
- (2) It is therefore appropriate to adopt a decision on the acceptance of changes to the agreed paediatric investigation plan.

EMA/PDCO/205419/2015

London, 17 April 2015

Final opinion of the Paediatric Committee on the acceptance of a modification of an agreed Paediatric Investigation Plan

EMA-000783-PIP01-09-M02

Scope of the application

Active substance(s):

Dulaglutide

Invented name:

Trulicity

Condition(s):

Treatment of type 2 diabetes mellitus

Authorised indication(s):

See Annex II

Pharmaceutical form(s):

Solution for injection (pre-filled pen)

Route(s) of administration:

Subcutaneous use

Name / corporate name of the PIP applicant:

Eli Lilly & Company

Information about the authorised medicinal product:

See Annex II

Basis for opinion

Pursuant to Article 22 of Regulation (EC) No 1901/2006 as amended, Eli Lilly & Company submitted to the European Medicines Agency on 24 November 2014 an application for modification of the agreed paediatric investigation plan with a deferral and a waiver as set out in the European Medicines Agency's decision P/37/2011 issued on 24 January 2011 and the decision P/0039/2014 issued on 5 March 2014.

The application for modification proposed changes to the agreed paediatric investigation plan.

An Opinion was adopted by the Paediatric Committee on 13 February 2015 for the above mentioned product. Eli Lilly & Company received the Paediatric Committee Opinion on 23 February 2015.

On 23 March 2015 Eli Lilly & Company submitted to the European Medicines Agency a written request including detailed grounds for a re-examination of the Opinion.

The re-examination procedure started on 25 March 2015.

Scope of the modification

Some measures of the Paediatric Investigation Plan have been modified.

Final Opinion

1. The Paediatric Committee, having assessed the detailed grounds for re-examination, in accordance with Article 25(3) of Regulation (EC) No 1901/2006 as amended, recommends as set out in the appended summary report:
 - 1.1. to revise its opinion and to agree to the changes regarding the measures of the paediatric investigation plan in the scope set out in the Annex I of this opinion;
 - 1.2. following re-examination, to amend the scope of the modifications of the paediatric investigation plan.

The Icelandic and the Norwegian Paediatric Committee members agree with the above-mentioned recommendation of the Paediatric Committee.

2. The measures and timelines of the agreed paediatric investigation plan and the subset(s) of the paediatric population and condition(s) covered by the waiver are set out in the Annex I.

This opinion is forwarded to the applicant and the Executive Director of the European Medicines Agency, together with its annexes and appendix.

Annex I

The subset(s) of the paediatric population and condition(s) covered by the waiver and the measures and timelines of the agreed paediatric investigation plan (PIP)

1. Waiver

1.1. Condition: treatment of type 2 diabetes mellitus

The waiver applies to:

- all subsets of the paediatric population from birth to less than 10 years of age;
- for solution for injection (pre-filled pen), subcutaneous use;
- on the grounds that the disease or condition for which the specific medicinal product is intended does not occur in the specified paediatric subset(s).

2. Paediatric Investigation Plan

2.1. Condition: treatment of type 2 diabetes mellitus

2.1.1. Indication(s) targeted by the PIP

Treatment of type 2 diabetes mellitus

2.1.2. Subset(s) of the paediatric population concerned by the paediatric development

From 10 to less than 18 years of age

2.1.3. Pharmaceutical form(s)

Solution for injection (pre-filled pen)

2.1.4. Studies

Area	Number of studies	Description
Quality	1	Study 1 Development of a pre-filled pen for subcutaneous use
Non-clinical	2	Study 2 Juvenile toxicity study to evaluate potential effects on sexual maturation, reproductive function, and neurobehavioural development and function in immature rats exposed to dulaglutide Study 3 Comparative analysis of the tumourigenic potential of dulaglutide versus liraglutide Comparative analysis of affinity (IC50) and potency (EC50) for the GLP-1 receptor binding of dulaglutide versus liraglutide

Area	Number of studies	Description
Clinical	1	Study 4 Double blind, randomised, multi-centre, placebo-controlled superiority trial to evaluate pharmacokinetics, pharmacodynamics, safety and efficacy of dulaglutide in children from 10 to less than 18 years of age with open-label extension to evaluate safety

3. Follow-up, completion and deferral of PIP

Concerns on potential long term safety issues in relation to paediatric use:	Yes
Date of completion of the paediatric investigation plan:	By June 2022
Deferral for one or more studies contained in the paediatric investigation plan:	Yes

Annex II

Information about the authorised medicinal product

Condition(s) and authorised indication(s):

1. Treatment of type 2 diabetes mellitus

Authorised indication(s):

Trulicity is indicated in adults with type 2 diabetes mellitus to improve glycaemic control as:

- Monotherapy

When diet and exercise alone do not provide adequate glycaemic control in patients for whom the use of metformin is considered inappropriate due to intolerance or contraindications.

- Add-on therapy

In combination with other glucose-lowering medicinal products including insulin, when these, together with diet and exercise, do not provide adequate glycaemic control.

Authorised pharmaceutical form(s):

Solution for injection

Authorised route(s) of administration:

Subcutaneous use
