European Medicines Agency decision

P/0109/2014

of 5 May 2014

on the acceptance of a modification of an agreed paediatric investigation plan for eribulin (Halaven) (EMA-001261-PIP01-11-M01) in accordance with Regulation (EC) No 1901/2006 of the European Parliament and of the Council

The European Medicines Agency,

Having regard to the Treaty on the Functioning of the European Union,

Having regard to Regulation (EC) No 1901/2006 of the European Parliament and of the Council of 12 December 2006 on medicinal products for paediatric use and amending Regulation (EEC) No. 1768/92, Directive 2001/20/EC, Directive 2001/83/EC and Regulation (EC) No 726/2004¹,

Having regard to Regulation (EC) No 726/2004 of the European Parliament and of the Council of 31 March 2004 laying down Community procedures for the authorisation and supervision of medicinal products for human and veterinary use and establishing a European Medicines Agency²,

Having regard to the European Medicines Agency's decision P/0023/2013 issued on 25 February 2013,

Having regard to the application submitted by Eisai Europe Ltd on 20 December 2013 under Article 22 of Regulation (EC) No 1901/2006 proposing changes to the agreed paediatric investigation plan with a deferral³,

Having regard to the opinion of the Paediatric Committee of the European Medicines Agency, issued on 21 March 2014, in accordance with Article 22 of Regulation (EC) No 1901/2006,

Having regard to Article 25 of Regulation (EC) No 1901/2006,

Whereas:

- (1) The Paediatric Committee of the European Medicines Agency has given an opinion on the acceptance of changes to the agreed paediatric investigation plan.
- (2) It is therefore appropriate to adopt a decision on the acceptance of changes to the agreed paediatric investigation plan.

¹ OJ L 378, 27.12.2006, p.1.

² OJ L 136, 30.4.2004, p. 1.

³ The waiver was removed

Has adopted this decision:

Article 1

Changes to the agreed paediatric investigation plan for eribulin (Halaven), solution for injection, intravenous use, are hereby accepted in the scope set out in the opinion of the Paediatric Committee of the European Medicines Agency annexed hereto, together with its appendices.

Article 2

This decision is addressed to Eisai Europe Ltd, Mosquito Way, AL10 9SN - Hatfield
United Kingdom.

EMA/PDCO/14345/2014 Corr

Opinion of the Paediatric Committee on the acceptance of a modification of an agreed Paediatric Investigation Plan

EMA-001261-PIP01-11-M01

Scope of the application

Active substance(s):

Eribulin

Invented name:

Halaven

Condition(s):

Treatment of soft tissue sarcoma

Authorised indication(s):

See Annex II

Pharmaceutical form(s):

Solution for injection

Route(s) of administration:

Intravenous use

Name / corporate name of the PIP applicant:

Eisai Europe Ltd

Information about the authorised medicinal product:

See Annex II

Basis for opinion

Pursuant to Article 22 of Regulation (EC) No 1901/2006 as amended, Eisai Europe Ltd submitted to the European Medicines Agency on 20 December 2013 an application for modification of the agreed paediatric investigation plan with a deferral as set out in the European Medicines Agency's decision P/0023/2013 issued on 25 February 2013.

The application for modification proposed changes to the agreed paediatric investigation plan.

The procedure started on 21 January 2014.

Scope of the modification

Some measures of the agreed Paediatric Investigation Plan have been modified.

Opinion

1. The Paediatric Committee, having assessed the application in accordance with Article 22 of Regulation (EC) No 1901/2006 as amended, recommends as set out in the appended summary report:
 - to agree to changes to the paediatric investigation plan in the scope set out in the Annex I of this opinion.

The Icelandic and the Norwegian Paediatric Committee members agree with the above-mentioned recommendation of the Paediatric Committee.

2. The measures and timelines of the paediatric investigation plan are set out in the Annex I.

This opinion is forwarded to the applicant and the Executive Director of the European Medicines Agency, together with its annexes and appendix.

London, 21 March 2014

On behalf of the Paediatric Committee
Dr Dirk Mentzer, Chairman
(Signature on file)

Annex I

The subset(s) of the paediatric population and condition(s) covered by the waiver and the measures and timelines of the agreed Paediatric Investigation Plan

1. Waiver

Not applicable.

2. Paediatric Investigation Plan

2.1. Condition: Treatment of soft Tissue Sarcoma

2.1.1. Indication(s) targeted by the PIP

Treatment of rhabdomyosarcoma

Treatment of non-rhabdomyosarcoma soft tissue sarcoma

2.1.2. Subset(s) of the paediatric population concerned by the paediatric development

From birth to less than 18 years of age

2.1.3. Pharmaceutical form(s)

Solution for injection

2.1.4. Measures

Area	Number of measures	Description
Quality	0	Not applicable.
Non-clinical	4	Study 1: In vitro sensitivity of 23 human paediatric tumour cell lines to inhibition of proliferation by eribulin Study 2: Antitumor activity of eribulin in human paediatric tumour xenografts in athymic mice Study 3: Dose-response and Ewing sarcoma testing Study 4: Human RMS tumour xenograft study with eribulin plus irinotecan
Clinical	3	Study 5: Dose escalation study to assess maximum tolerated dose (MTD), safety, and preliminary efficacy of eribulin in paediatric patients at least 6 months of age with soft tissue sarcoma. Study 6: Open-label, single arm study to assess safety and efficacy of eribulin in combination with irinotecan in paediatric patients at least 6 months of age with relapsed/refractory soft tissue sarcoma. Study 7: Randomized, controlled study to compared 2 chemotherapy regimen in newly diagnosed patients with rhabdomyosarcoma from birth to less than 18 years of age.

3. Follow-up, completion and deferral of PIP

Concerns on potential long term safety and efficacy issues in relation to paediatric use:	Yes
Date of completion of the paediatric investigation plan:	By November 2029
Deferral for one or more measures contained in the paediatric investigation plan:	Yes

Annex II

Information about the authorised medicinal product

Condition(s) and authorised indication(s):

1. Treatment of breast carcinoma

Authorised indication(s):

- treatment of patients with locally advanced or metastatic breast cancer who have progressed after at least two chemotherapeutic regimens for advanced disease.

Authorised pharmaceutical formulation(s):

Solution for injection.

Authorised route(s) of administration:

Intravenous use.
