European Medicines Agency decision

P/0127/2014

of 22 May 2014

on the acceptance of a modification of an agreed paediatric investigation plan for brivaracetam (EMA-000332-PIP01-08-M08) in accordance with Regulation (EC) No 1901/2006 of the European Parliament and of the Council

The European Medicines Agency,

Having regard to the Treaty on the Functioning of the European Union,

Having regard to Regulation (EC) No 1901/2006 of the European Parliament and of the Council of 12 December 2006 on medicinal products for paediatric use and amending Regulation (EEC) No. 1768/92, Directive 2001/20/EC, Directive 2001/83/EC and Regulation (EC) No 726/2004¹,

Having regard to Regulation (EC) No 726/2004 of the European Parliament and of the Council of 31 March 2004 laying down Community procedures for the authorisation and supervision of medicinal products for human and veterinary use and establishing a European Medicines Agency²,

Having regard to the European Medicines Agency's decision P/126/2009 issued on 13 July 2009, the decision P/37/2010 issued on 31 March 2010, the decision P/195/2010 issued on 26 October 2010, the decision P/49/2011 issued on 4 March 2011, the decision P/211/2011 issued on 2 September 2011, the decision P/0016/2012 issued on 25 January 2012, the decision P/0078/2013 issued on 27 March 2013 and the decision P/0305/2013 issued on 28 November 2013,

Having regard to the application submitted by UCB Pharma SA on 30 January 2014 under Article 22 of Regulation (EC) No 1901/2006 proposing changes to the agreed paediatric investigation plan with a deferral and a waiver,

Having regard to the opinion of the Paediatric Committee of the European Medicines Agency, issued on 25 April 2014, in accordance with Article 22 of Regulation (EC) No 1901/2006,

Having regard to Article 25 of Regulation (EC) No 1901/2006,

Whereas:

- (1) The Paediatric Committee of the European Medicines Agency has given an opinion on the acceptance of changes to the agreed paediatric investigation plan and to the deferral.
- (2) It is therefore appropriate to adopt a decision on the acceptance of changes to the agreed paediatric investigation plan, including changes to the deferral.

¹ OJ L 378, 27.12.2006, p.1.

² OJ L 136, 30.4.2004, p. 1.

Has adopted this decision:

Article 1

Changes to the agreed paediatric investigation plan for brivaracetam, film-coated tablet, oral solution, solution for injection, oral use, intravenous use, including changes to the deferral are hereby accepted in the scope set out in the opinion of the Paediatric Committee of the European Medicines Agency annexed hereto, together with its appendices.

Article 2

This decision is addressed to UCB Pharma SA, Allee de la Recherche, 60, 1070 - Bruxelles, Belgium.

EMA/PDCO/69396/2014

Opinion of the Paediatric Committee on the acceptance of a modification of an agreed Paediatric Investigation Plan EMA-000332-PIP01-08-M08

Scope of the application

Active substance(s):

Brivaracetam

Condition(s):

Treatment of paediatric epilepsy syndromes

Treatment of neonatal seizures

Treatment of epilepsy with partial onset seizures

Pharmaceutical form(s):

Film-coated tablet

Oral solution

Solution for injection

Route(s) of administration:

Oral use

Intravenous use

Name / corporate name of the PIP applicant:

UCB Pharma SA

Basis for opinion

Pursuant to Article 22 of Regulation (EC) No 1901/2006 as amended, UCB Pharma SA submitted to the European Medicines Agency on 30 January 2014 an application for modification of the agreed paediatric investigation plan with a deferral and a waiver as set out in the European Medicines Agency's decision P/126/2009 issued on 13 July 2009, the decision P/37/2010 issued on 31 March 2010, the decision P/195/2010 issued on 26 October 2010, the decision P/49/2011 issued on 4 March 2011, the decision P/211/2011 issued on 2 September 2011, the decision P/0016/2012 issued on 25 January 2012, the decision P/0078/2013 issued on 27 March 2013 and the decision P/0305/2013 issued on 28 November 2013.

The application for modification proposed changes to the agreed paediatric investigation plan and to the deferral.

The procedure started on 26 February 2014.

Scope of the modification

Some measures and timelines of the Paediatric Investigation Plan have been modified.

Opinion

1. The Paediatric Committee, having assessed the application in accordance with Article 22 of Regulation (EC) No 1901/2006 as amended, recommends as set out in the appended summary report:
 - to agree to changes to the paediatric investigation plan and to the deferral in the scope set out in the Annex I of this opinion.

The Norwegian Paediatric Committee member agrees with the above-mentioned recommendation of the Paediatric Committee.

2. The measures and timelines of the paediatric investigation plan and the subset(s) of the paediatric population and condition(s) covered by the waiver are set out in the Annex I.

This opinion is forwarded to the applicant and the Executive Director of the European Medicines Agency, together with its annex and appendix.

London, 25 April 2014

On behalf of the Paediatric Committee
Dr Dirk Mentzer, Chairman
(Signature on file)

Annex I

The subset(s) of the paediatric population and condition(s) covered by the waiver and the measures and timelines of the agreed Paediatric Investigation Plan

1. Waiver

1.1. Condition: treatment of paediatric epilepsy syndromes

The waiver applies to:

- preterm newborn infants, term newborn infants (from birth to less than 28 days);
- for film-coated tablet, oral solution, solution for injection; oral use, intravenous use;
- on the grounds that the disease or condition for which the specific medicinal product is intended does not occur in the specified paediatric subset(s).

1.2. Condition: treatment of neonatal seizures

The waiver applies to:

- infants and toddlers (from 28 days to less than 24 months), children (from 2 to less than 12 years), adolescents (from 12 to less than 18 years);
- for film-coated tablet, oral solution, solution for injection; oral use, intravenous use;
- on the grounds that the disease or condition for which the specific medicinal product is intended does not occur in the specified paediatric subset(s).

2. Paediatric Investigation Plan

2.1. Condition: treatment of Paediatric Epilepsy Syndromes

2.1.1. Indication(s) targeted by the PIP

Treatment of refractory paediatric epilepsy syndromes with adjunctive administration of brivaracetam.

2.1.2. Subset(s) of the paediatric population concerned by the paediatric development

From 1 month to less than 18 years.

2.1.3. Pharmaceutical form(s)

Film-coated tablet (10 mg, 25 mg and 50 mg)

Oral solution (1 mg/ml, 10 mg/ml)

2.1.4. Measures

Area	Number of studies	Description
Quality	0	Not applicable.
Non-clinical	3	Study 1 9-week oral toxicity study followed by a 30-day recovery period in juvenile rats.

		Study 2 Study to evaluate brain weight in juvenile and adult rats. Study 3 9-month oral toxicity study in juvenile dogs with a 2-months recovery period.
Clinical	4	Study 4 In silico study for prediction of brivaracetam disposition in children. Study 5 Open-label, single-arm, multi-center, pharmacokinetic, safety and efficacy study of adjunctive administration of brivaracetam in children aged 1 month to less than 16 years with refractory paediatric epilepsy syndromes or epilepsy. Study 6 Randomized, double-blind, placebo-controlled, parallel-group, multicentre study to evaluate the efficacy, safety, and tolerability of brivaracetam as adjunctive therapy in patients aged 1 month to 16 years with a paediatric epileptic syndrome based on the results of measure 4. Study 7 Open-label, single-arm, long-term follow-up study of brivaracetam in children with epilepsy.

2.2. Condition: treatment of Neonatal Seizures

2.2.1. Indication(s) targeted by the PIP

Treatment of neonatal seizures with adjunctive administration of brivaracetam.

2.2.2. Subset(s) of the paediatric population concerned by the paediatric development

From birth to less than 28 days.

2.2.3. Pharmaceutical form(s)

Solution for injection

2.2.4. Measures

Area	Number of studies	Description
Quality	0	Not applicable.
Non-clinical	3	Same as for condition "Treatment of Paediatric Epilepsy Syndromes "

Clinical	4	Study 4 In silico study for prediction of brivaracetam disposition in children. Study 8 Modelling and simulation of intravenous brivaracetam pharmacokinetic profiles in children to evaluate dose adaptation rules. Study 9 Open, randomised, parallel group, active controlled study to evaluate efficacy, safety and pharmacokinetics of brivaracetam in neonates with repeated seizures. Study 7 Same as for condition "Treatment of Paediatric Epilepsy Syndromes "
----------	---	--

2.3. Condition: treatment of epilepsy with partial onset seizures

2.3.1. Indication(s) targeted by the PIP

Treatment of paediatric patients with partial onset seizures.

2.3.2. Subset(s) of the paediatric population concerned by the paediatric development

From birth to less than 18 years.

2.3.3. Pharmaceutical form(s)

Film-coated tablet (10 mg, 25 mg and 50 mg).

Oral solution (1 mg/ml, 10 mg/ml)

Solution for injection

2.3.4. Measures

Area	Number of studies	Description
Quality	0	Not applicable.
Non-clinical	3	Same as for condition "Treatment of Paediatric Epilepsy Syndromes".
Clinical	1	Study 5 Open-label, single-arm, multi-center, pharmacokinetic, safety and efficacy study of adjunctive administration of brivaracetam in children aged 1 month to less than 16 years with a refractory paediatric epilepsy syndrome or epilepsy.

		Study 7 Same as for condition "Treatment of Paediatric Epilepsy Syndromes " Study 9 Open, randomised, parallel group, active controlled study to evaluate efficacy, safety and pharmacokinetics brivaracetam in neonates with repeated epileptic seizures. Study 10 Systematic review of the literature of all published trials focusing on the possibility of extrapolating efficacy from adult to paediatric patients with partial onset seizures.
--	--	---

3. Follow-up, completion and deferral of PIP

Concerns on potential long term safety and efficacy issues in relation to paediatric use:	Yes
Date of completion of the paediatric investigation plan:	By June 2019
Deferral for one or more measures contained in the paediatric investigation plan:	Yes
