European Medicines Agency decision

P/0186/2018

of 17 July 2018

on the acceptance of a modification of an agreed paediatric investigation plan for rimiducid (EMA-001870-PIP01-15-M01) in accordance with Regulation (EC) No 1901/2006 of the European Parliament and of the Council

The European Medicines Agency,

Having regard to the Treaty on the Functioning of the European Union,

Having regard to Regulation (EC) No 1901/2006 of the European Parliament and of the Council of 12 December 2006 on medicinal products for paediatric use and amending Regulation (EEC) No. 1768/92, Directive 2001/20/EC, Directive 2001/83/EC and Regulation (EC) No 726/2004¹,

Having regard to Regulation (EC) No 726/2004 of the European Parliament and of the Council of 31 March 2004 laying down Community procedures for the authorisation and supervision of medicinal products for human and veterinary use and establishing a European Medicines Agency²,

Having regard to the European Medicines Agency's decision P/0137/2017 issued on 7 June 2017,

Having regard to the application submitted by Bellicum Pharma Ltd on 12 March 2018 under Article 22 of Regulation (EC) No 1901/2006 proposing changes to the agreed paediatric investigation plan,

Having regard to the opinion of the Paediatric Committee of the European Medicines Agency, issued on 1 June 2018, in accordance with Article 22 of Regulation (EC) No 1901/2006,

Having regard to Article 25 of Regulation (EC) No 1901/2006,

Whereas:

- (1) The Paediatric Committee of the European Medicines Agency has given an opinion on the acceptance of changes to the agreed paediatric investigation plan.
- (2) It is therefore appropriate to adopt a decision on the acceptance of changes to the agreed paediatric investigation plan.

¹ OJ L 378, 27.12.2006, p.1.

² OJ L 136, 30.4.2004, p. 1.

Has adopted this decision:

Article 1

Changes to the agreed paediatric investigation plan for rimiducid, solution for infusion, intravenous use, are hereby accepted in the scope set out in the opinion of the Paediatric Committee of the European Medicines Agency annexed hereto, together with its appendices.

Article 2

This decision is addressed to Bellicum Pharma Ltd., Cooley (UK) LLP, Dashwood, Old Broad St, EC2M 1QS – London, United Kingdom.

EMA/PDCO/182652/2018

London, 1 June 2018

Opinion of the Paediatric Committee on the acceptance of a modification of an agreed Paediatric Investigation Plan EMA-001870-PIP01-15-M01

Scope of the application

Active substance(s):

Rimiducid

Condition(s):

Treatment of graft versus host disease

Pharmaceutical form(s):

Solution for infusion

Route(s) of administration:

Intravenous use

Name / corporate name of the PIP applicant:

Bellicum Pharma Ltd

Basis for opinion

Pursuant to Article 22 of Regulation (EC) No 1901/2006 as amended, Bellicum Pharma Ltd submitted to the European Medicines Agency on 12 March 2018 an application for modification of the agreed paediatric investigation plan as set out in the European Medicines Agency's decision P/0137/2017 issued on 7 June 2017.

The application for modification proposed changes to the agreed paediatric investigation plan.

The procedure started on 3 April 2018.

Scope of the modification

Some timelines of the Paediatric Investigation Plan have been modified.

Opinion

1. The Paediatric Committee, having assessed the application in accordance with Article 22 of Regulation (EC) No 1901/2006 as amended, recommends as set out in the appended summary report:

- to agree to changes to the paediatric investigation plan.

The Norwegian Paediatric Committee member agrees with the above-mentioned recommendation of the Paediatric Committee.

2. The measures and timelines of the paediatric investigation plan are set out in the Annex I.

This opinion is forwarded to the applicant and the Executive Director of the European Medicines Agency, together with its annex and appendix.

Annex I

The subset(s) of the paediatric population and condition(s) covered by the waiver and the measures and timelines of the agreed paediatric investigation plan (PIP)

1. Waiver

Not applicable

2. Paediatric investigation plan

2.1. Condition:

Treatment of graft versus host disease

2.1.1. Indication(s) targeted by the PIP

Treatment of graft versus host disease (GvHD) in paediatric patients who have received a mismatched, related, allogeneic haematopoietic stem cell transplantation together with expanded donor-derived allogeneic T cells transduced with the retroviral vector expressing the transgenes for inducible caspase9 and the truncated CD19 selectable marker (BPX-501)

2.1.2. Subset(s) of the paediatric population concerned by the paediatric development

From birth to less than 18 years of age

2.1.3. Pharmaceutical form(s)

Solution for infusion

2.1.4. Measures

Area	Number of measures	Description
Quality-related studies	0	Not applicable
Non-clinical studies	0	Not applicable
Clinical studies	3	Study 1 (BP-004) Open-label, non-randomised, externally-controlled, single-arm trial with 2 phases to determine the highest tolerated dose (Phase 1) and to evaluate safety and activity (Phase 2) of expanded donor-derived allogeneic T cells transduced with the retroviral vector expressing the transgenes for inducible caspase9 and the truncated CD19 selectable marker (BPX-501) and of rimiducid in children from birth to less than 18 years of age whose disease is deemed curable by haematopoietic stem cell transplantation (HSCT) but who do not have a matched donor (related or unrelated). (Same study as Study 1 in EMEA-001869-PIP01-15)

		Study 2 (BP-I-008) Open-label, non-controlled trial to evaluate pharmacokinetics and safety of rimiducid in children from 2 months to less than 18 years of age with recurrent or minimal residual disease (MRD) hematologic malignancies after prior allogeneic transplantation. Study 3 (C-004) Observational study in children from birth to less than 18 years of age whose disease is deemed curable by HSCT but who do not have a matched related donor but who have an alternative eligible matched unrelated donor (MUD), to collect safety and efficacy data of MUD transplant in these patients with haematopoietic disorders, both malignant and non-malignant. (Same study as Study 2 in EMEA-001869-PIP01-15)
Extrapolation, modelling and simulation studies	0	Not applicable
Other studies	0	Not applicable
Other measures	0	Not applicable

3. Follow-up, completion and deferral of PIP

Concerns on potential long term safety/efficacy issues in relation to paediatric use:	No
Date of completion of the paediatric investigation plan:	By March 2019
Deferral for one or more measures contained in the paediatric investigation plan:	No
