European Medicines Agency decision

P/0193/2015

of 4 September 2015

on the acceptance of a modification of an agreed paediatric investigation plan for indacaterol (acetate) / mometasone (furoate) (EMA-001217-PIP01-11-M01) in accordance with Regulation (EC) No 1901/2006 of the European Parliament and of the Council

The European Medicines Agency,

Having regard to the Treaty on the Functioning of the European Union,

Having regard to Regulation (EC) No 1901/2006 of the European Parliament and of the Council of 12 December 2006 on medicinal products for paediatric use and amending Regulation (EEC) No. 1768/92, Directive 2001/20/EC, Directive 2001/83/EC and Regulation (EC) No 726/2004¹,

Having regard to Regulation (EC) No 726/2004 of the European Parliament and of the Council of 31 March 2004 laying down Community procedures for the authorisation and supervision of medicinal products for human and veterinary use and establishing a European Medicines Agency²,

Having regard to the European Medicines Agency's decision P/0184/2012 issued on 21 August 2012,

Having regard to the application submitted by Novartis Europharm Limited on 27 April 2015 under Article 22 of Regulation (EC) No 1901/2006 proposing changes to the agreed paediatric investigation plan with a deferral and a waiver,

Having regard to the opinion of the Paediatric Committee of the European Medicines Agency, issued on 17 July 2015, in accordance with Article 22 of Regulation (EC) No 1901/2006,

Having regard to Article 25 of Regulation (EC) No 1901/2006,

Whereas:

- (1) The Paediatric Committee of the European Medicines Agency has given an opinion on the acceptance of changes to the agreed paediatric investigation plan and to the deferral.
- (2) It is therefore appropriate to adopt a decision on the acceptance of changes to the agreed paediatric investigation plan, including changes to the deferral.

¹ OJ L 378, 27.12.2006, p.1.

² OJ L 136, 30.4.2004, p. 1.

Has adopted this decision:

Article 1

Changes to the agreed paediatric investigation plan for indacaterol (acetate) / mometasone (furoate), inhalation powder, hard capsule, inhalation use, including changes to the deferral, are hereby accepted in the scope set out in the opinion of the Paediatric Committee of the European Medicines Agency annexed hereto, together with its appendices.

Article 2

This decision is addressed to Novartis Europharm Limited, Frimley Business Park, GU16 7SR – Camberley, United Kingdom.

EMA/PDCO/290718/2015

London, 17 July 2015

Opinion of the Paediatric Committee on the acceptance of a modification of an agreed Paediatric Investigation Plan EMA-001217-PIP01-11-M01

Scope of the application

Active substance(s):

Indacaterol (acetate) / mometasone (furoate)

Condition(s):

Treatment of asthma

Pharmaceutical form(s):

Inhalation powder, hard capsule

Route(s) of administration:

Inhalation use

Name / corporate name of the PIP applicant:

Novartis Europharm Limited

Basis for opinion

Pursuant to Article 22 of Regulation (EC) No 1901/2006 as amended, Novartis Europharm Limited submitted to the European Medicines Agency on 27 April 2015 an application for modification of the agreed paediatric investigation plan with a deferral and a waiver as set out in the European Medicines Agency's decision P/0184/2012 issued on 21 August 2012.

The application for modification proposed changes to the agreed paediatric investigation plan and to the deferral.

The procedure started on 19 May 2015.

Scope of the modification

Some measures and timelines of the Paediatric Investigation Plan have been modified.

Opinion

1. The Paediatric Committee, having assessed the application in accordance with Article 22 of Regulation (EC) No 1901/2006 as amended, recommends as set out in the appended summary report:
 - to agree to changes to the paediatric investigation plan and to the deferral in the scope set out in the Annex I of this opinion.

The Norwegian Paediatric Committee member agrees with the above-mentioned recommendation of the Paediatric Committee.

2. The measures and timelines of the paediatric investigation plan and the subset(s) of the paediatric population and condition(s) covered by the waiver are set out in the Annex I.

This opinion is forwarded to the applicant and the Executive Director of the European Medicines Agency, together with its annex and appendix.

Annex I

The subset(s) of the paediatric population and condition(s) covered by the waiver and the measures and timelines of the agreed paediatric investigation plan (PIP)

Waiver

1.1. Condition:

Treatment of asthma

The waiver applies to:

- all subsets of the paediatric population from birth to less than 6 years of age;
- for inhalation powder, hard capsule, inhalation use;
- on the grounds that the specific medicinal product does not represent a significant therapeutic benefit over existing treatments.

2. Paediatric Investigation Plan

2.1. Condition:

Treatment of asthma

2.1.1. Indication(s) targeted by the PIP

Treatment of persistent asthma

2.1.2. Subset(s) of the paediatric population concerned by the paediatric development

From 6 years to less than 18 years of age

2.1.3. Pharmaceutical form(s)

Inhalation powder, hard capsule

2.1.4. Measures

Area	Number of measures	Description
Quality-related studies	1	Study 1 Open label, uncontrolled trial to investigate the inhalation flow profiles generated through Concept1 inhaler in children from 6 to less than 18 years of age with asthma
Non-clinical studies	0	Not applicable

Area	Number of measures	Description
Clinical studies	5	Study 2 Double-blind, double-dummy, randomised, multiple dose, parallel-group active-controlled trial to evaluate efficacy and safety and pharmacokinetics of two doses of mometasone furoate, delivered via Concept1 or Twisthaler in terms of non-inferiority in children from 12 to less than 18 years of age (and in adults) with persistent asthma Study 3 Double-blind, randomised, multiple dose, parallel-group, active-controlled trial to evaluate PK and PD, safety and tolerability of different indacaterol acetate compared to indacaterol maleate in children from 6 to less than 12 years of age with asthma Study 4 Double blind, double-dummy, randomised, multiple dose, parallel group, active-controlled trial to evaluate efficacy and safety of indacaterol acetate / mometasone furoate compared to mometasone furoate in terms of superiority in children from 12 to less than 18 years of age (and in adults) with asthma Study 5 Deleted in procedure EMEA-001217-PIP01-11-M01 Study 6 Deleted in procedure EMEA-001217-PIP01-11-M01 Study 7 Double-blind, triple-dummy, randomised, multiple dose, parallel-group, active-controlled trial to evaluate efficacy and safety of indacaterol acetate / mometasone furoate compared to mometasone furoate in terms of superiority and to salmeterol / fluticasone in terms of non-inferiority in children from 6 to less than 12 years of age with asthma Study 8 Double blind, triple-dummy, randomised, multiple dose, parallel group, active-controlled trial to evaluate efficacy and safety of indacaterol acetate / mometasone furoate compared to mometasone furoate in terms of superiority and to salmeterol / fluticasone in terms of non-inferiority in children from 12 to less than 18 years of age (and in adults) with asthma
Extrapolation, modelling and simulation studies	0	Not applicable

Area	Number of measures	Description
Other studies	0	Not applicable
Other measures	0	Not applicable

3. Follow-up, completion and deferral of PIP

Concerns on potential long term safety issues in relation to paediatric use:	Yes
Date of completion of the paediatric investigation plan:	By October 2020
Deferral for one or more studies contained in the paediatric investigation plan:	Yes
