European Medicines Agency decision

P/0207/2012

of 21 September 2012

on the acceptance of a modification of an agreed paediatric investigation plan for dapagliflozin (EMA-000694-PIP01-09-M01) in accordance with Regulation (EC) No 1901/2006 of the European Parliament and of the Council

The European Medicines Agency,

Having regard to the Treaty on the Functioning of the European Union,

Having regard to Regulation (EC) No 1901/2006 of the European Parliament and of the Council of 12 December 2006 on medicinal products for paediatric use and amending Regulation (EEC) No. 1768/92, Directive 2001/20/EC, Directive 2001/83/EC and Regulation (EC) No 726/2004¹,

Having regard to Regulation (EC) No 726/2004 of the European Parliament and of the Council of 31 March 2004 laying down Community procedures for the authorisation and supervision of medicinal products for human and veterinary use and establishing a European Medicines Agency²,

Having regard to the European Medicines Agency's decision P/100/2010 issued on 11 June 2010,

Having regard to the application submitted by Bristol Myers Squibb /AstraZeneca EEIG on 15 June 2012 under Article 22 of Regulation (EC) No 1901/2006 proposing changes to the agreed paediatric investigation plan with a deferral and a waiver,

Having regard to the opinion of the Paediatric Committee of the European Medicines Agency, issued on 7 September 2012, in accordance with Article 22 of Regulation (EC) No 1901/2006,

Having regard to Article 25 of Regulation (EC) No 1901/2006,

Whereas:

- (1) The Paediatric Committee of the European Medicines Agency has given an opinion on the acceptance of changes to the agreed paediatric investigation plan and to the deferral.
- (2) It is therefore appropriate to adopt a decision on the acceptance of changes to the agreed paediatric investigation plan, including changes to the deferral.

¹ OJ L 378, 27.12.2006, p.1.

² OJ L 136, 30.4.2004, p. 1.

Has adopted this decision:

Article 1

Changes to the agreed paediatric investigation plan for dapagliflozin, tablet, oral use, including changes to the deferral, are hereby accepted in the scope set out in the opinion of the Paediatric Committee of the European Medicines Agency annexed hereto, together with its appendices.

Article 2

This decision is addressed to Bristol Myers Squibb / AstraZeneca EEIG, Bristol Myers Squibb House, Uxbridge Business Park, Sanderson Road, UB8 1DH - Uxbridge United Kingdom.

EMA/PDCO/436134/2012

Opinion of the Paediatric Committee on the acceptance of a modification of an agreed Paediatric Investigation Plan

EMA-000694-PIP01-09-M01

Scope of the application

Active substance(s):

Dapagliflozin

Condition(s):

Treatment of Type 2 Diabetes

Pharmaceutical form(s):

Tablet

Route(s) of administration:

Oral use

Name/corporate name of the PIP applicant:

Bristol Myers Squibb /AstraZeneca EEIG

Basis for opinion

Pursuant to Article 22 of Regulation (EC) No 1901/2006 as amended, Bristol Myers Squibb /AstraZeneca EEIG submitted to the European Medicines Agency on 15 June 2012 an application for modification of the agreed paediatric investigation plan with a deferral and a waiver as set out in the European Medicines Agency's decision P/100/2010 issued on 11 June 2010.

The application for modification proposed changes to the agreed paediatric investigation plan and to the deferral.

The procedure started on 11 July 2012.

Scope of the modification

Some timelines of the Paediatric Investigation Plan have been modified.

Opinion

1. The Paediatric Committee, having assessed the application in accordance with Article 22 of Regulation (EC) No 1901/2006 as amended, recommends as set out in the appended summary report:
 - to agree to changes to the paediatric investigation plan and to the deferral in the scope set out in the Annex I of this opinion.

The Icelandic and the Norwegian Paediatric Committee members agree with the above-mentioned recommendation of the Paediatric Committee.

2. The measures and timelines of the paediatric investigation plan and the subset(s) of the paediatric population and condition(s) covered by the waiver are set out in the Annex I.

This opinion is forwarded to the applicant and the Executive Director of the European Medicines Agency, together with its annex(es) and appendix.

London, 7 September 2012

On behalf of the Paediatric Committee
Dr Daniel Brasseur, Chairman
(Signature on file)

Annex I

The subset(s) of the paediatric population and condition(s) covered by the waiver and the measures and timelines of the agreed Paediatric Investigation Plan

1. Waiver

1.1. Condition: Treatment of Type 2 Diabetes

The waiver applies to:

- the paediatric population from birth to less than 10 years of age;
- for tablets, oral use;
- on the grounds that the disease or condition for which the specific medicinal product is intended does not occur in the specified paediatric subset(s).

2. Paediatric Investigation Plan

2.1. Condition: Treatment of Type 2 Diabetes

2.1.1. Indication(s) targeted by the PIP

Treatment of Type 2 Diabetes.

2.1.2. Subset(s) of the paediatric population concerned by the paediatric development

From 10 to less than 18 years of age.

2.1.3. Pharmaceutical form(s)

Tablet

2.1.4. Studies

Area	Number of studies	Description
Quality	1	1. Assessment of acceptability of tablets in children (ability to swallow 2.5, 5 or 10 mg tablets) in the paediatric PK/PD study.
Non-clinical	2	2. Oral carcinogenicity study in mice. 3. Oral carcinogenicity study in rats.
Clinical	2	4. Randomised, multi-centre, parallel, single-dose study to explore the pharmacokinetics and pharmacodynamics of dapagliflozin in children, 10 to less than 18years of age with Type 2 Diabetes receiving one of three dose levels of dapagliflozin: 2.5, 5, or 10 mg. 5. a) Main study: Randomised, double-blind, multicentre, international, placebo-controlled, 12 week add-on to metformin study with a 40-week extension period to evaluate dapagliflozin versus placebo in paediatric patients with Type 2 Diabetes who are inadequately controlled on metformin monotherapy.

Area	Number of studies	Description
		5. b) Monotherapy Substudy: Non-randomised, open-label dapagliflozin monotherapy substudy in drug-naïve patients with inadequately controlled Type 2 Diabetes.

3. Follow-up, completion and deferral of PIP

Concerns on potential long term safety issues in relation to paediatric use:	Yes.
Date of completion of the paediatric investigation plan:	By September 2017.
Deferral for one or more studies contained in the paediatric investigation plan:	Yes.
