European Medicines Agency decision

P/0208/2015

of 11 September 2015

on the acceptance of a modification of an agreed paediatric investigation plan for PEGylated recombinant factor VIII (EMA-001296-PIP01-12-M02) in accordance with Regulation (EC) No 1901/2006 of the European Parliament and of the Council

The European Medicines Agency,

Having regard to the Treaty on the Functioning of the European Union,

Having regard to Regulation (EC) No 1901/2006 of the European Parliament and of the Council of 12 December 2006 on medicinal products for paediatric use and amending Regulation (EEC) No. 1768/92, Directive 2001/20/EC, Directive 2001/83/EC and Regulation (EC) No 726/2004¹,

Having regard to Regulation (EC) No 726/2004 of the European Parliament and of the Council of 31 March 2004 laying down Community procedures for the authorisation and supervision of medicinal products for human and veterinary use and establishing a European Medicines Agency²,

Having regard to the European Medicines Agency's decision P/0072/2013 issued on 26 March 2013 and the decision P/0139/2014 issued on 11 June 2014,

Having regard to the application submitted by Baxalta Innovations GmbH on 26 May 2015 under Article 22 of Regulation (EC) No 1901/2006 proposing changes to the agreed paediatric investigation plan with a deferral,

Having regard to the opinion of the Paediatric Committee of the European Medicines Agency, issued on 14 August 2015, in accordance with Article 22 of Regulation (EC) No 1901/2006,

Having regard to Article 25 of Regulation (EC) No 1901/2006,

Whereas:

- (1) The Paediatric Committee of the European Medicines Agency has given an opinion on the acceptance of changes to the agreed paediatric investigation plan.
- (2) It is therefore appropriate to adopt a decision on the acceptance of changes to the agreed paediatric investigation plan.

¹ OJ L 378, 27.12.2006, p.1.

² OJ L 136, 30.4.2004, p. 1.

Has adopted this decision:

Article 1

Changes to the agreed paediatric investigation plan for PEGylated recombinant factor VIII, powder and solvent for solution for injection, intravenous use, are hereby accepted in the scope set out in the opinion of the Paediatric Committee of the European Medicines Agency annexed hereto, together with its appendices.

Article 2

This decision is addressed to Baxalta Innovations GmbH, Industriestrasse 67, 1221 – Vienna, Austria.

EMA/PDCO/377220/2015 Corr
London, 14 August 2015

Opinion of the Paediatric Committee on the acceptance of a modification of an agreed Paediatric Investigation Plan EMA-001296-PIP01-12-M02

Scope of the application

Active substance(s):

PEGylated recombinant factor VIII

Condition(s):

Treatment and prophylaxis of bleeding in patients with haemophilia A (congenital factor VIII deficiency)

Pharmaceutical form(s):

Powder and solvent for solution for injection

Route(s) of administration:

Intravenous use

Name / corporate name of the PIP applicant:

Baxalta Innovations GmbH

Basis for opinion

Pursuant to Article 22 of Regulation (EC) No 1901/2006 as amended, Baxalta Innovations GmbH submitted to the European Medicines Agency on 26 May 2015 an application for modification of the agreed paediatric investigation plan with a deferral as set out in the European Medicines Agency's decision P/0072/2013 issued on 26 March 2013 and the decision P/0139/2014 issued on 11 June 2014.

The application for modification proposed changes to the agreed paediatric investigation plan and to the deferral.

The procedure started on 16 June 2015.

Scope of the modification

Some measures and timelines of the Paediatric Investigation Plan have been modified.

Opinion

1. The Paediatric Committee, having assessed the application in accordance with Article 22 of Regulation (EC) No 1901/2006 as amended, recommends as set out in the appended summary report:
 - to agree to changes to the paediatric investigation plan in the scope set out in the Annex I of this opinion.

The Norwegian Paediatric Committee member agrees with the above-mentioned recommendation of the Paediatric Committee.

2. The measures and timelines of the paediatric investigation plan and the subset(s) of the paediatric population and condition(s) covered by the waiver are set out in the Annex I.

This opinion is forwarded to the applicant and the Executive Director of the European Medicines Agency, together with its annex and appendix.

Annex I

The subset(s) of the paediatric population and condition(s) covered by the waiver and the measures and timelines of the agreed paediatric investigation plan (PIP)

1. Waiver

Not applicable.

2. Paediatric Investigation Plan

2.1. Condition:

Treatment of congenital factor VIII deficiency

2.1.1. Indication(s) targeted by the PIP

Treatment and prophylaxis of bleeding in patients with congenital factor VIII deficiency (haemophilia A)

2.1.2. Subset(s) of the paediatric population concerned by the paediatric development

From birth to less than 18 years of age

2.1.3. Pharmaceutical form(s)

Powder and solvent for solution for injection

2.1.4. Measures

Area	Number of studies	Description
Quality-related studies	0	Not applicable.
Non-clinical studies	0	Not applicable.
Clinical studies	5	Study 1: Randomised, open-label, 2-arm study in adults and adolescents previously treated male patients (PTPs) with severe haemophilia A to evaluate efficacy, safety, and pharmacokinetic (PK) parameters of pegylated recombinant FVIII (BAX 855) for prophylaxis and treatment of bleeding. Study 2: Open-label, single-arm study to evaluate the efficacy and safety of BAX 855 in adults and adolescents male previously treated patients (PTPs) with severe haemophilia A undergoing elective major or minor emergency surgical, dental or other invasive procedures. Study 3: Open label, single-arm study in paediatric PTPs less than 12 years of age with severe haemophilia A to evaluate safety, immunogenicity, efficacy and PK parameters of BAX 855 for prophylaxis of bleeding.

		Study 4: Open label, randomised, single-arm study to evaluate safety including immunogenicity and efficacy of BAX 855 in previously untreated patients (PUPs) below 6 years of age with severe haemophilia A. Study 5: Prospective, open label, study to further evaluate safety, including long-term safety and efficacy of BAX 855 for prophylactic use including paediatric and adult PTPs with severe haemophilia A from other BAX 855 studies and BAX 855-naïve patients.
