European Medicines Agency decision

P/0215/2018

of 17 July 2018

on the acceptance of a modification of an agreed paediatric investigation plan for tasimelteon (Hetlioz), (EMA-001531-PIP01-13-M04) in accordance with Regulation (EC) No 1901/2006 of the European Parliament and of the Council

The European Medicines Agency,

Having regard to the Treaty on the Functioning of the European Union,

Having regard to Regulation (EC) No 1901/2006 of the European Parliament and of the Council of 12 December 2006 on medicinal products for paediatric use and amending Regulation (EEC) No. 1768/92, Directive 2001/20/EC, Directive 2001/83/EC and Regulation (EC) No 726/2004¹,

Having regard to Regulation (EC) No 726/2004 of the European Parliament and of the Council of 31 March 2004 laying down Community procedures for the authorisation and supervision of medicinal products for human and veterinary use and establishing a European Medicines Agency²,

Having regard to the European Medicines Agency's decision P/0141/2014 issued on 28 May 2014, the decision P/0123/2015 issued on 5 June 2015 and the decision P/0053/2016 issued on 18 March 2016,

Having regard to the application submitted by Vanda Pharmaceuticals Ltd. on 12 March 2018 under Article 22 of Regulation (EC) No 1901/2006 proposing changes to the agreed paediatric investigation plan with a deferral and a waiver,

Having regard to the opinion of the Paediatric Committee of the European Medicines Agency, issued on 1 June 2018, in accordance with Article 22 of Regulation (EC) No 1901/2006,

Having regard to Article 25 of Regulation (EC) No 1901/2006,

Whereas:

- (1) The Paediatric Committee of the European Medicines Agency has given an opinion on the acceptance of changes to the agreed paediatric investigation plan.
- (2) It is therefore appropriate to adopt a decision on the acceptance of changes to the agreed paediatric investigation plan.

¹ OJ L 378, 27.12.2006, p.1.

² OJ L 136, 30.4.2004, p. 1.

Has adopted this decision:

Article 1

Changes to the agreed paediatric investigation plan for tasimelteon (Hetlioz), capsule, hard, age-appropriate liquid form, oral use, are hereby accepted in the scope set out in the opinion of the Paediatric Committee of the European Medicines Agency annexed hereto, together with its appendices.

Article 2

This decision is addressed to Vanda Pharmaceuticals, 25 Old Broad Street Level 21A, EC2N 1HQ – London, United Kingdom.

EMA/PDCO/166634/2018

London, 1 June 2018

Opinion of the Paediatric Committee on the acceptance of a modification of an agreed Paediatric Investigation Plan EMA-001531-PIP01-13-M04

Scope of the application

Active substance(s):

Tasimelteon

Invented name:

Hetlioz

Condition(s):

Treatment of non-24-hour sleep-wake disorder in the totally blind

Authorised indication(s):

See Annex II

Pharmaceutical form(s):

Capsule, hard

Age-appropriate liquid form

Route(s) of administration:

Oral use

Name/corporate name of the PIP applicant:

Vanda Pharmaceuticals Ltd.

Information about the authorised medicinal product:

See Annex II

Basis for opinion

Pursuant to Article 22 of Regulation (EC) No 1901/2006 as amended, Vanda Pharmaceuticals Ltd. submitted to the European Medicines Agency on 12 March 2018 an application for modification of the agreed paediatric investigation plan with a deferral and a waiver as set out in the European Medicines Agency's decision P/0141/2014 issued on 28 May 2014, the decision P/0123/2015 issued on 5 June 2015 and the decision P/0053/2016 issued on 18 March 2016.

The application for modification proposed changes to the agreed paediatric investigation plan.

The procedure started on 3 April 2018.

Scope of the modification

Some measures and timelines of the Paediatric Investigation Plan have been modified.

Opinion

1. The Paediatric Committee, having assessed the application in accordance with Article 22 of Regulation (EC) No 1901/2006 as amended, recommends as set out in the appended summary report:
 - to agree to changes to the paediatric investigation plan in the scope set out in the Annex I of this opinion.

The Norwegian Paediatric Committee member agrees with the above-mentioned recommendation of the Paediatric Committee.

2. The measures and timelines of the paediatric investigation plan and the subset(s) of the paediatric population and condition(s) covered by the waiver are set out in the Annex I.

This opinion is forwarded to the applicant and the Executive Director of the European Medicines Agency, together with its annexes and appendix.

Annex I

The subset(s) of the paediatric population and condition(s) covered by the waiver and the measures and timelines of the agreed paediatric investigation plan (PIP)

1. Waiver

1.1. Condition

Treatment of non-24-hour sleep-wake disorder in the totally blind

The waiver applies to:

- the paediatric population from birth to less than 3 years;
- capsule, hard and age-appropriate liquid form for oral use;
- on the grounds that clinical studies with the specific medicinal product cannot be expected to be of significant therapeutic benefit to or fulfil a therapeutic need of the specified paediatric subset(s).

2. Paediatric investigation plan

2.1. Condition

Treatment of non-24-hour sleep-wake disorder in the totally blind

2.1.1. Indication(s) targeted by the PIP

Treatment of non-24-hour sleep-wake disorder in the totally blind

2.1.2. Subset(s) of the paediatric population concerned by the paediatric development

From 3 years to less than 18 years of age

2.1.3. Pharmaceutical form(s)

Capsule, hard

Age-appropriate oral liquid form

2.1.4. Measures

Area	Number of measures	Description
Quality-related studies	1	Study 1 Development of an age-appropriate formulation
Non-clinical studies	1	Study 2 Juvenile toxicity study
Clinical studies	3	Study 3 Open-label, single dose, non-controlled trial to evaluate the pharmacokinetics of tasimelteon in children from 3 years to less than 18 years of age with Non-24 hours sleep-wake disorder; have Autism Spectrum Disorder (ASD) and Smith Magenis Syndrome (SMS), or another neurodevelopmental disorder with a sleep complaint (VP-VEC-162-4201).

		Study 4 Double-blind, placebo-controlled, randomised withdrawal trial to evaluate maintenance effect of 2 fixed doses of tasimelteon compared to placebo in children from 3 to less than 18 years of age who have no conscious light perception and have non-24-hour sleep-wake disorder (VP-VEC-162-4203). Study 5 Open-label trial to evaluate safety of tasimelteon in children from 3 to less than 18 years of age with who have no conscious light perception and have non-24-hour sleep-wake disorder (VP-VEC-162-4204).
Extrapolation, modelling and simulation studies	2	Study 6 Modelling and simulation study to find the appropriate dose of tasimelteon in non-24 paediatric children from 3 to less than 18 years of age with comparable systemic exposure to the adult dosing. Study 7 Extrapolation of tasimelteon Non-24 efficacy data observed in adult subjects compared to paediatric subjects.
Other studies	0	Not applicable.
Other measures	0	Not applicable.

3. Follow-up, completion and deferral of PIP

Concerns on potential long term safety/efficacy issues in relation to paediatric use:	Yes
Date of completion of the paediatric investigation plan:	By January 2023
Deferral for one or more measures contained in the paediatric investigation plan:	Yes

Annex II

Information about the authorised medicinal product

Condition(s) and authorised indication(s):

Treatment of Non-24-Hour Sleep-Wake Disorder (Non-24) in totally blind adults.

Authorised indication(s):

- HETLIOZ is indicated for the treatment of Non-24-Hour Sleep-Wake Disorder (Non-24) in totally blind adults.

Authorised pharmaceutical form(s):

Hard capsule

Authorised route(s) of administration:

Oral use
