European Medicines Agency decision

P/0256/2017

of 4 September 2017

on the acceptance of a modification of an agreed paediatric investigation plan for darunavir / cobicistat (Rezolsta), (EMA-001280-PIP01-12-M01) in accordance with Regulation (EC) No 1901/2006 of the European Parliament and of the Council

The European Medicines Agency,

Having regard to the Treaty on the Functioning of the European Union,

Having regard to Regulation (EC) No 1901/2006 of the European Parliament and of the Council of 12 December 2006 on medicinal products for paediatric use and amending Regulation (EEC) No. 1768/92, Directive 2001/20/EC, Directive 2001/83/EC and Regulation (EC) No 726/2004¹,

Having regard to Regulation (EC) No 726/2004 of the European Parliament and of the Council of 31 March 2004 laying down Community procedures for the authorisation and supervision of medicinal products for human and veterinary use and establishing a European Medicines Agency²,

Having regard to the European Medicines Agency's decision P/0036/2013 issued on 27 February 2013,

Having regard to the application submitted by Janssen-Cilag International NV on 2 May 2017 under Article 22 of Regulation (EC) No 1901/2006 proposing changes to the agreed paediatric investigation plan with a deferral and a waiver,

Having regard to the opinion of the Paediatric Committee of the European Medicines Agency, issued on 21 July 2017, in accordance with Article 22 of Regulation (EC) No 1901/2006,

Having regard to Article 25 of Regulation (EC) No 1901/2006,

Whereas:

- (1) The Paediatric Committee of the European Medicines Agency has given an opinion on the acceptance of changes to the agreed paediatric investigation plan.
- (2) It is therefore appropriate to adopt a decision on the acceptance of changes to the agreed paediatric investigation plan.

¹ OJ L 378, 27.12.2006, p.1.

² OJ L 136, 30.4.2004, p. 1.

Has adopted this decision:

Article 1

Changes to the agreed paediatric investigation plan for darunavir / cobicistat (Rezolsta), film-coated tablet, age-appropriate oral solid dosage form, age-appropriate oral liquid dosage form, oral use, are hereby accepted in the scope set out in the opinion of the Paediatric Committee of the European Medicines Agency annexed hereto, together with its appendices.

Article 2

This decision is addressed to Janssen-Cilag International NV, Turnhoutseweg 30, 2340 - Beerse, Belgium.

EMA/PDCO/297038/2017

London, 21 July 2017

Opinion of the Paediatric Committee on the acceptance of a modification of an agreed Paediatric Investigation Plan EMA-001280-PIP01-12-M01

Scope of the application

Active substance(s):

Darunavir / cobicistat

Invented name:

Rezolsta

Condition(s):

Treatment of HIV-1 infection

Authorised indication(s):

See Annex II

Pharmaceutical form(s):

Film-coated tablet

Age-appropriate oral solid dosage form

Age-appropriate oral liquid dosage form

Route(s) of administration:

Oral use

Name / corporate name of the PIP applicant:

Janssen-Cilag International NV

Information about the authorised medicinal product:

See Annex II

Basis for opinion

Pursuant to Article 22 of Regulation (EC) No 1901/2006 as amended, Janssen-Cilag International NV submitted to the European Medicines Agency on 2 May 2017 an application for modification of the agreed paediatric investigation plan with a deferral and a waiver as set out in the European Medicines Agency's decision P/0036/2013 issued on 27 February 2013.

The application for modification proposed changes to the agreed paediatric investigation plan.

The procedure started on 24 May 2017.

Scope of the modification

Some measures and timelines of the Paediatric Investigation Plan have been modified.

Opinion

1. The Paediatric Committee, having assessed the application in accordance with Article 22 of Regulation (EC) No 1901/2006 as amended, recommends as set out in the appended summary report:
 - to agree to changes to the paediatric investigation plan in the scope set out in the Annex I of this opinion.

The Norwegian Paediatric Committee member agrees with the above-mentioned recommendation of the Paediatric Committee.

2. The measures and timelines of the paediatric investigation plan and the subset(s) of the paediatric population and condition(s) covered by the waiver are set out in the Annex I.

This opinion is forwarded to the applicant and the Executive Director of the European Medicines Agency, together with its annexes and appendix.

Annex I

The subset(s) of the paediatric population and condition(s) covered by the waiver and the measures and timelines of the agreed paediatric investigation plan (PIP)

1. Waiver

1.1. Condition:

Treatment of HIV-1 infection

The waiver applies to:

- the paediatric population from birth to less than 3 years of age;
- for film-coated tablet, age-appropriate oral solid dosage forms, age-appropriate oral liquid dosage forms, oral use;
- on the grounds that the specific medicinal product is likely to be unsafe.

2. Paediatric Investigation Plan

2.1. Condition:

Treatment of HIV-1 infection

2.1.1. Indication(s) targeted by the PIP

Treatment of HIV-1 infection in paediatric patients from 3 years to less than 18 years

2.1.2. Subset(s) of the paediatric population concerned by the paediatric development

From 3 to less than 18 years of age

2.1.3. Pharmaceutical form(s)

Film-coated tablet

Age-appropriate oral solid dosage form

Age-appropriate oral liquid dosage form

2.1.4. Measures

Area	Number of measures	Description
Quality-related studies	3	Study 1 Acceptability assessment of adult film-coated tablets in children from 12 to less than 18 years of age. Study 2 Development of age-appropriate oral solid dosage form and age-appropriate oral liquid dosage form for children from 3 to less than 12 years of age with acceptability assessment.

		Study 3 Bioavailability study in healthy adult subjects with the liquid dosage form.
Non-clinical studies	0	Not applicable.
Clinical studies	3	Study 4 Phase II, open-label multiple dose trial. Part I: Pharmacokinetic study to determine the recommended paediatric dose and to evaluate short-term safety, tolerability and efficacy of darunavir. Part II: To evaluate long-term safety, tolerability and efficacy of the selected paediatric dose of darunavir. Study 5 Phase II, open-label trial to investigate pharmacokinetics, long-term safety, tolerability and antiviral activity of the selected adult dose of darunavir in treatment-naïve HIV-1 infected adolescents from 12 to less than 18 years of age. Study 6 Open-label, multicentre, multi-cohort, 2-part study to evaluate pharmacokinetics (PK), safety, and efficacy and confirm the dose of cobicistat-boosted darunavir (DRV) in children from 3 to less than 18 years of age with HIV-1 infection.
Extrapolation, modelling and simulation studies	1	Study 7 Extrapolation of pharmacokinetic, safety and efficacy data on darunavir and cobicistat from studies including at least TMC114-228, TMC114-C230 and GS-US-216-0128 (measures 4, 5 and 6) to children from 3 to less than 18 years of age for darunavir/cobicistat fixed dose combination for treatment of HIV-1 infection.
Other studies	0	Not applicable
Other measures	0	Not applicable

3. Follow-up, completion and deferral of PIP

Concerns on potential long term safety issues in relation to paediatric use:	Yes
Date of completion of the paediatric investigation plan:	By December 2021
Deferral for one or more measures contained in the paediatric investigation plan:	Yes

Annex II

Information about the authorised medicinal product

Condition(s) and authorised indication(s):

1. Treatment of HIV-1 infection

Authorised indication(s):

- Rezolsta is indicated in combination with other antiretroviral medicinal products for the treatment of human immunodeficiency virus-1 (HIV-1) infection in adults aged 18 years or older.

Authorised pharmaceutical form(s):

Film-coated tablet

Authorised route(s) of administration:

Oral use
