European Medicines Agency decision

P/0259/2013

of 29 October 2013

on the acceptance of a modification of an agreed paediatric investigation plan for octocog alfa (EMA-001064-PIP01-10-M01) in accordance with Regulation (EC) No 1901/2006 of the European Parliament and of the Council

The European Medicines Agency,

Having regard to the Treaty on the Functioning of the European Union,

Having regard to Regulation (EC) No 1901/2006 of the European Parliament and of the Council of 12 December 2006 on medicinal products for paediatric use and amending Regulation (EEC) No. 1768/92, Directive 2001/20/EC, Directive 2001/83/EC and Regulation (EC) No 726/2004¹,

Having regard to Regulation (EC) No 726/2004 of the European Parliament and of the Council of 31 March 2004 laying down Community procedures for the authorisation and supervision of medicinal products for human and veterinary use and establishing a European Medicines Agency²,

Having regard to the European Medicines Agency's decision P/126/2011 issued on 7 June 2011,

Having regard to the application submitted by Bayer Pharma AG on 18 June 2013 under Article 22 of Regulation (EC) No 1901/2006 proposing changes to the agreed paediatric investigation plan with a deferral,

Having regard to the opinion of the Paediatric Committee of the European Medicines Agency, issued on 13 September 2013, in accordance with Article 22 of Regulation (EC) No 1901/2006,

Having regard to Article 25 of Regulation (EC) No 1901/2006,

Whereas:

- (1) The Paediatric Committee of the European Medicines Agency has given an opinion on the acceptance of changes to the agreed paediatric investigation plan.
- (2) It is therefore appropriate to adopt a decision on the acceptance of changes to the agreed paediatric investigation plan.

¹ OJ L 378, 27.12.2006, p.1.

² OJ L 136, 30.4.2004, p. 1.

Has adopted this decision:

Article 1

Changes to the agreed paediatric investigation plan for octocog alfa, powder and solvent for solution for injection, intravenous use, are hereby accepted in the scope set out in the opinion of the Paediatric Committee of the European Medicines Agency annexed hereto, together with its appendices.

Article 2

This decision is addressed to Bayer Pharma AG, Müllerstrasse 178, 13342 – Berlin, Germany.

Done at London, 29 October 2013

EMA/PDCO/381762/2013

Opinion of the Paediatric Committee on the acceptance of a modification of an agreed Paediatric Investigation Plan EMA-001064-PIP01-10-M01

Scope of the application

Active substance(s):

Octocog alfa

Condition(s):

Treatment of hereditary factor VIII deficiency

Pharmaceutical form(s):

Powder and solvent for solution for injection

Route(s) of administration:

Intravenous use

Name / corporate name of the PIP applicant:

Bayer Pharma AG

Basis for opinion

Pursuant to Article 22 of Regulation (EC) No 1901/2006 as amended, Bayer Pharma AG submitted to the European Medicines Agency on 18 June 2013 an application for modification of the agreed paediatric investigation plan with a deferral as set out in the European Medicines Agency's decision P/126/2011 issued on 7 June 2011.

The application for modification proposed changes to the agreed paediatric investigation plan.

The procedure started on 17 July 2013.

Scope of the modification

Some measures and timelines of the Paediatric Investigation Plan have been modified.

Opinion

1. The Paediatric Committee, having assessed the application in accordance with Article 22 of Regulation (EC) No 1901/2006 as amended, recommends as set out in the appended summary report:

- to agree to changes to the paediatric investigation plan in the scope set out in the Annex I of this opinion.

The Icelandic and the Norwegian Paediatric Committee members agree with the above-mentioned recommendation of the Paediatric Committee.

2. The measures and timelines of the paediatric investigation plan are set out in the Annex I.

This opinion is forwarded to the applicant and the Executive Director of the European Medicines Agency, together with its annex and appendix.

London, 13 September 2013

On behalf of the Paediatric Committee
Dr Dirk Mentzer, Chairman
(Signature on file)

Annex I

The subset(s) of the paediatric population and condition(s) covered by the waiver and the measures and timelines of the agreed Paediatric Investigation Plan

1. Waiver

Not applicable.

2. Paediatric Investigation Plan

2.1. Condition: treatment of hereditary factor VIII deficiency

2.1.1. Indication(s) targeted by the PIP

Treatment and prophylaxis of bleeding in patients with haemophilia A.

2.1.2. Subset(s) of the paediatric population concerned by the paediatric development

From birth to less than 18 years of age.

2.1.3. Pharmaceutical form(s)

Powder and solvent for solution for injection.

2.1.4. Studies

Area	Number of studies	Description
Quality	0	Not applicable
Non-clinical	0	Not applicable
Clinical	5	Study 1: Open-label, multicentre, cross-over, single dose trial to evaluate pharmacokinetics of new Octocog alfa (BAY 81-8973) as compared to already authorised Octocog alfa (KOGENATE Bayer), in previously treated adult and adolescent patients at least 12 years of age, with hereditary factor VIII deficiency. Study 2: Open-label, multicentre, uncontrolled, cross-over comparing two different methods (assays) for measuring the amount of study drug, multiple dose trial to evaluate safety and efficacy of new Octocog alfa (BAY 81-8973), in previously treated adult and adolescent patients at least 12 years of age, with hereditary factor VIII deficiency. Study 3: Open-label, multicentre, uncontrolled, multiple dose trial to evaluate safety, efficacy and pharmacokinetics of new Octocog alfa (BAY 81-8973) for prophylaxis and treatment of bleeding, in previously treated patients less than 12 years of age, with hereditary factor VIII deficiency. Study 4: Open-label, multicentre, uncontrolled, multiple dose trial to evaluate efficacy and safety of new Octocog alfa (BAY 81-8973) for prophylaxis and treatment of bleeding in previously untreated children with hereditary factor VIII deficiency. Study 5: Open-label, multicentre, uncontrolled, multiple dose trial to monitor

		the safety of new Octocog alfa (BAY 81-8973), including immunogenicity, in patients less than 12 years of age with hereditary factor VIII deficiency.
