European Medicines Agency decision

P/0300/2014

of 24 November 2014

on the acceptance of a modification of an agreed paediatric investigation plan for L-asparaginase encapsulated in erythrocytes (EMA-000341-PIP02-09-M01) in accordance with Regulation (EC) No 1901/2006 of the European Parliament and of the Council

The European Medicines Agency,

Having regard to the Treaty on the Functioning of the European Union,

Having regard to Regulation (EC) No 1901/2006 of the European Parliament and of the Council of 12 December 2006 on medicinal products for paediatric use and amending Regulation (EEC) No. 1768/92, Directive 2001/20/EC, Directive 2001/83/EC and Regulation (EC) No 726/2004¹,

Having regard to Regulation (EC) No 726/2004 of the European Parliament and of the Council of 31 March 2004 laying down Community procedures for the authorisation and supervision of medicinal products for human and veterinary use and establishing a European Medicines Agency²,

Having regard to the European Medicines Agency's decision P/209/2010 issued on 29 October 2010,

Having regard to the application submitted by ERYTECH pharma S.A. on 17 July 2014 under Article 22 of Regulation (EC) No 1901/2006 proposing changes to the agreed paediatric investigation plan with a deferral,

Having regard to the opinion of the Paediatric Committee of the European Medicines Agency, issued on 10 October 2014, in accordance with Article 22 of Regulation (EC) No 1901/2006,

Having regard to Article 25 of Regulation (EC) No 1901/2006,

Whereas:

- (1) The Paediatric Committee of the European Medicines Agency has given an opinion on the acceptance of changes to the agreed paediatric investigation plan and to the deferral.
- (2) It is therefore appropriate to adopt a decision on the acceptance of changes to the agreed paediatric investigation plan, including changes to the deferral.

¹ OJ L 378, 27.12.2006, p.1.

² OJ L 136, 30.4.2004, p. 1.

Has adopted this decision:

Article 1

Changes to the agreed paediatric investigation plan for L-asparaginase encapsulated in erythrocytes, suspension for injection, suspension for infusion, intravenous use, including changes to the deferral, are hereby accepted in the scope set out in the opinion of the Paediatric Committee of the European Medicines Agency annexed hereto, together with its appendices.

Article 2

This decision is addressed to ERYTECH pharma S.A., Bâtiment Adénine , 60 Avenue Rockefeller, 69008 – Lyon, France.

EMA/PDCO/469181/2014

Opinion of the Paediatric Committee on the acceptance of a modification of an agreed Paediatric Investigation Plan

EMA-000341-PIP02-09-M01

Scope of the application

Active substance(s):

L-asparaginase encapsulated in erythrocytes

Condition(s):

Treatment of acute lymphoblastic leukaemia

Pharmaceutical form(s):

Suspension for injection

Suspension for infusion

Route(s) of administration:

Intravenous use

Name / corporate name of the PIP applicant:

ERYTECH pharma S.A.

Basis for opinion

Pursuant to Article 22 of Regulation (EC) No 1901/2006 as amended, ERYTECH pharma S.A. submitted to the European Medicines Agency on 17 July 2014 an application for modification of the agreed paediatric investigation plan with a deferral as set out in the European Medicines Agency's decision P/209/2010 issued on 29 October 2010.

The application for modification proposed changes to the agreed paediatric investigation plan and to the deferral.

The procedure started on 13 August 2014.

Scope of the modification

Some measures and timelines of the Paediatric Investigation Plan have been modified. A measure for a paediatric subset has been removed.

Opinion

1. The Paediatric Committee, having assessed the application in accordance with Article 22 of Regulation (EC) No 1901/2006 as amended, recommends as set out in the appended summary report:
 - to agree to changes to the paediatric investigation plan and to the deferral in the scope set out in the Annex I of this opinion.

The Icelandic and the Norwegian Paediatric Committee members agree with the above-mentioned recommendation of the Paediatric Committee.

2. The measures and timelines of the paediatric investigation plan are set out in the Annex I.

This opinion is forwarded to the applicant and the Executive Director of the European Medicines Agency, together with its annex and appendix.

London, 10 October 2014

On behalf of the Paediatric Committee
Dr Dirk Mentzer, Chairman
(Signature on file)

Annex I

The subset(s) of the paediatric population and condition(s) covered by the waiver and the measures and timelines of the agreed paediatric investigation plan (PIP)

1. Waiver

Not applicable.

2. Paediatric investigation plan

2.1. Condition:

Treatment of acute lymphoblastic leukaemia

2.1.1. Indication(s) targeted by the PIP

Treatment of patients with acute lymphoblastic leukaemia

2.1.2. Subset(s) of the paediatric population concerned by the paediatric development

From birth to less than 18 years of age

2.1.3. Pharmaceutical form(s)

Suspension for injection

Suspension for infusion

2.1.4. Measures

Area	Number of measures	Description
Quality-related studies	0	Not applicable
Non-clinical studies	1	Study 1: To evaluate L-asparaginase activity in presence of specific neutralizing antibodies
Clinical studies	3	Study 3: Double-blind, dose-comparative, randomised, repeat-dose, multicentre, active-controlled trial to evaluate pharmacokinetics, pharmacodynamics, safety and immunogenicity of L-asparaginase encapsulated in erythrocytes in children from 1 years to less than 18 years (and in adults) with acute lymphoblastic leukaemia Study 4: Open-label, randomised, single-dose, multicentre, active-controlled trial to evaluate pharmacokinetics, safety, pharmacodynamic activity of L-asparaginase encapsulated in erythrocytes in children from 1 years to less than 18 years (and in adults) with first relapse of acute lymphoblastic leukaemia, with and without asparaginase hypersensitivity

Area	Number of measures	Description
		Study 5: Open-label, randomised, multicentre, active-controlled trial to evaluate safety, pharmacodynamic equivalence / comparative efficacy of L-asparaginase encapsulated in erythrocytes in children from birth to less than 18 years with newly-diagnosed acute lymphoblastic leukaemia
Extrapolation, modelling and simulation studies	0	Not applicable.
Other studies	0	Not applicable.
Other measures	0	Not applicable.

3. Follow-up, completion and deferral of PIP

Concerns on potential long term safety/efficacy issues in relation to paediatric use:	Yes
Date of completion of the paediatric investigation plan:	By December 2020
Deferral for one or more measures contained in the paediatric investigation plan:	Yes
