European Medicines Agency decision

P/0310/2018

of 1 October 2018

on the acceptance of a modification of an agreed paediatric investigation plan for darunavir / cobicistat / emtricitabine / tenofovir alafenamide (Symtuza) (EMA-001825-PIP01-15-M02) in accordance with Regulation (EC) No 1901/2006 of the European Parliament and of the Council

The European Medicines Agency,

Having regard to the Treaty on the Functioning of the European Union,

Having regard to Regulation (EC) No 1901/2006 of the European Parliament and of the Council of 12 December 2006 on medicinal products for paediatric use and amending Regulation (EEC) No. 1768/92, Directive 2001/20/EC, Directive 2001/83/EC and Regulation (EC) No 726/2004¹,

Having regard to Regulation (EC) No 726/2004 of the European Parliament and of the Council of 31 March 2004 laying down Community procedures for the authorisation and supervision of medicinal products for human and veterinary use and establishing a European Medicines Agency²,

Having regard to the European Medicines Agency's decision P/0123/2016 issued on 12 May 2016 and the decision P/0253/2017 issued on 4 September 2017,

Having regard to the application submitted by Janssen-Cilag International NV on 7 May 2018 under Article 22 of Regulation (EC) No 1901/2006 proposing changes to the agreed paediatric investigation plan with a deferral and a waiver,

Having regard to the opinion of the Paediatric Committee of the European Medicines Agency, issued on 21 September 2018, in accordance with Article 22 of Regulation (EC) No 1901/2006,

Having regard to Article 25 of Regulation (EC) No 1901/2006,

Whereas:

- (1) The Paediatric Committee of the European Medicines Agency has given, following a re-examination procedure of the Paediatric Committee's opinion according to Article 25(3) Regulation (EC) No 1901/2006, an opinion on the acceptance of changes to the agreed paediatric investigation plan.
- (2) It is therefore appropriate to adopt a decision on the acceptance of changes to the agreed paediatric investigation plan.

¹ OJ L 378, 27.12.2006, p.1.

² OJ L 136, 30.4.2004, p. 1.

Has adopted this decision:

Article 1

Changes to the agreed paediatric investigation plan for darunavir / cobicistat / emtricitabine / tenofovir alafenamide (Symtuza), film-coated tablet, oral use, are hereby accepted in the scope set out in the opinion of the Paediatric Committee of the European Medicines Agency annexed hereto, together with its appendices.

Article 2

This decision is addressed to Janssen-Cilag International NV, Turnhoutseweg 30, 2340 - Beerse, Belgium.

EUROPEAN MEDICINES AGENCY

EMA/PDCO/596957/2018

London, 21 September 2018

Final opinion of the Paediatric Committee on the acceptance of a modification of an agreed Paediatric Investigation Plan

EMA-001825-PIP01-15-M02

Scope of the application

Active substance(s):

Darunavir / cobicistat / emtricitabine / tenofovir alafenamide

Invented name:

Symtuza

Condition(s):

Treatment of human immunodeficiency virus type-1 (HIV-1) infection

Authorised indication(s):

See Annex II

Pharmaceutical form(s):

Film-coated tablet

Route(s) of administration:

Oral use

Name / corporate name of the PIP applicant:

Janssen-Cilag International NV

Information about the authorised medicinal product:

See Annex II

Basis for opinion

Pursuant to Article 22 of Regulation (EC) No 1901/2006 as amended, Janssen-Cilag International NV submitted to the European Medicines Agency on 7 May 2018 an application for modification of the agreed paediatric investigation plan with a deferral and a waiver as set out in the European Medicines Agency's decision P/0123/2016 issued on 12 May 2016 and the decision P/0253/2017 issued on 4 September 2017.

The application for modification proposed changes to the agreed paediatric investigation plan.

An Opinion was adopted by the Paediatric Committee on 27 July 2018. Janssen-Cilag International NV received the Paediatric Committee Opinion on 6 August 2018.

On 3 September 2018 Janssen-Cilag International NV submitted to the European Medicines Agency a written request including detailed grounds for a re-examination of the Opinion.

The re-examination procedure started on 4 September 2018.

Scope of the modification

Some measures of the Paediatric Investigation Plan have been modified.

Final Opinion

1. The Paediatric Committee, having assessed the detailed grounds for re-examination, in accordance with Article 25(3) of Regulation (EC) No 1901/2006 as amended, recommends as set out in the appended summary report:

1.1. to revise its opinion and

- to agree to the changes regarding the measures in the scope set out in the Annex I of this opinion.

1.2 following re-examination, to amend the scope of the modifications of the paediatric investigation plan.

The Norwegian Paediatric Committee member agrees with the above-mentioned recommendation of the Paediatric Committee.

2. The measures and timelines of the agreed paediatric investigation plan and the subset(s) of the paediatric population and condition(s) covered by the waiver are set out in the Annex I.

This opinion is forwarded to the applicant and the Executive Director of the European Medicines Agency, together with its annexes and appendix.

Annex I

The subset(s) of the paediatric population and condition(s) covered by the waiver and the measures and timelines of the agreed paediatric investigation plan (PIP)

1. Waiver

1.1. Condition

Treatment of human immunodeficiency virus (HIV-1) infection

The waiver applies to:

- the paediatric population below 6 years of age or weighing less than 25 kg;
- film-coated tablet, oral use;
- on the grounds that the specific medicinal product does not represent a significant therapeutic benefit over existing treatments.

2. Paediatric investigation plan

2.1. Condition

Treatment of human immunodeficiency virus type-1 (HIV-1) infection

2.1.1. Indication(s) targeted by the PIP

Treatment of HIV-1 infection in paediatric subjects weighing 25 kg or more from 6 years of age

2.1.2. Subset(s) of the paediatric population concerned by the paediatric development

Subjects weighing 25 kg or more from 6 to less than 18 years of age

2.1.3. Pharmaceutical form(s)

Film-coated tablet

2.1.4. Measures

Area	Number of measures	Description
Quality-related studies	2	Study 1 Evaluation of the acceptability for paediatric patients between 12 to less than 18 year olds of the adult tablet of Symtuza. Study 2 Development of a scored film-coated tablet of Symtuza and evaluation of acceptability for patients aged at least 6 years old weighing at least 25 kg.
Non-clinical studies	0	Not applicable

Clinical studies	2	Study 3 <i>Study deleted in EMEA-001825-PIP01-15-M02</i> Study 4 <i>This study is included as Study 3 (GS-US-311-1269) in procedure EMEA-001577-PIP02-14 (P/0032/2015 of 16 February 2015) and subsequent modifications thereof.</i> Open-label, uncontrolled trial to evaluate pharmacokinetics (PK), safety, tolerability and efficacy of emtricitabine/ tenofovir alafenamide (F/TAF) fixed-dose combination (FDC) in children from 6 to less than 18 years of age with HIV-1 infection, who are virologically suppressed on an antiretroviral (ARV) regimen or treatment naïve (GS-US-311-1269)
Extrapolation, modelling and simulation studies	1	Study 5 Modelling and simulation study for cobicistat-boosted darunavir (D) doses in paediatric subjects ≥ 25 kg to less than 40 kg
Other studies	0	Not applicable
Other measures	0	Not applicable

3. Follow-up, completion and deferral of PIP

Concerns on potential long term safety/efficacy issues in relation to paediatric use:	Yes
Date of completion of the paediatric investigation plan:	By June 2020
Deferral for one or more measures contained in the paediatric investigation plan:	Yes

Annex II

Information about the authorised medicinal product

Condition(s) and authorised indication(s):

1. Treatment of human immunodeficiency virus type-1 (HIV-1) infection

Authorised indication(s):

- Symtuza is indicated for the treatment of human immunodeficiency virus type 1 (HIV-1) infection in adults and adolescents (aged 12 years and older with body weight at least 40 kg). Genotypic testing should guide the use of Symtuza.

Authorised pharmaceutical form(s):

Film-coated tablet

Authorised route(s) of administration:

Oral use
