European Medicines Agency decision

P/0353/2017

of 1 December 2017

on the acceptance of a modification of an agreed paediatric investigation plan for lubiprostone (Amitiza), (EMA-000245-PIP01-08-M04) in accordance with Regulation (EC) No 1901/2006 of the European Parliament and of the Council

The European Medicines Agency,

Having regard to the Treaty on the Functioning of the European Union,

Having regard to Regulation (EC) No 1901/2006 of the European Parliament and of the Council of 12 December 2006 on medicinal products for paediatric use and amending Regulation (EEC) No. 1768/92, Directive 2001/20/EC, Directive 2001/83/EC and Regulation (EC) No 726/2004¹,

Having regard to Regulation (EC) No 726/2004 of the European Parliament and of the Council of 31 March 2004 laying down Community procedures for the authorisation and supervision of medicinal products for human and veterinary use and establishing a European Medicines Agency²,

Having regard to the European Medicines Agency's decision P/84/2011 issued on 8 April 2011, the decision P/0190/2012 issued on 24 August 2012, the decision P/0142/2014 issued on 13 June 2014 and the decision P/0241/2016 issued on 9 September 2016,

Having regard to the application submitted by Sucampo AG on 1 September 2017 under Article 22 of Regulation (EC) No 1901/2006 proposing changes to the agreed paediatric investigation plan with a deferral and a waiver,

Having regard to the opinion of the Paediatric Committee of the European Medicines Agency, issued on 13 October 2017, in accordance with Article 22 of Regulation (EC) No 1901/2006,

Having regard to Article 25 of Regulation (EC) No 1901/2006,

Whereas:

- (1) The Paediatric Committee of the European Medicines Agency has given an opinion on the acceptance of changes to the agreed paediatric investigation plan.
- (2) It is therefore appropriate to adopt a decision on the acceptance of changes to the agreed paediatric investigation plan.

¹ OJ L 378, 27.12.2006, p.1.

² OJ L 136, 30.4.2004, p. 1.

Has adopted this decision:

Article 1

EMA/PDCO/590412/2017 Corr
London, 13 October 2017

Opinion of the Paediatric Committee on the acceptance of a modification of an agreed Paediatric Investigation Plan EMA-000245-PIP01-08-M04

Scope of the application

Active substance(s):

Lubiprostone

Invented name:

Amitiza

Condition(s):

Treatment of constipation

Authorised indication(s):

See Annex II

Pharmaceutical form(s):

Capsule, soft

Age-appropriate oral solid dosage form

Route(s) of administration:

Oral use

Name / corporate name of the PIP applicant:

Sucampo AG

Information about the authorised medicinal product:

See Annex II

Basis for opinion

Pursuant to Article 22 of Regulation (EC) No 1901/2006 as amended, Sucampo AG submitted to the European Medicines Agency on 1 September 2017 an application for modification of the agreed paediatric investigation plan with a deferral and a waiver as set out in the European Medicines Agency's decision P/84/2011 issued on 8 April 2011, the decision P/0190/2012 issued on 24 August 2012, the decision P/0142/2014 issued on 13 June 2014 and the decision P/0241/2016 issued on 9 September 2016.

The application for modification proposed changes to the agreed paediatric investigation plan.

The procedure started on 12 September 2017.

Scope of the modification

Some measures of the Paediatric Investigation Plan have been modified.

Opinion

1. The Paediatric Committee, having assessed the application in accordance with Article 22 of Regulation (EC) No 1901/2006 as amended, recommends as set out in the appended summary report:
 - to agree to changes to the paediatric investigation plan in the scope set out in the Annex I of this opinion.

The Norwegian Paediatric Committee member agrees with the above-mentioned recommendation of the Paediatric Committee.

2. The measures and timelines of the paediatric investigation plan and the subset(s) of the paediatric population and condition(s) covered by the waiver are set out in the Annex I.

This opinion is forwarded to the applicant and the Executive Director of the European Medicines Agency, together with its annexes and appendix.

Annex I

The subset(s) of the paediatric population and condition(s) covered by the waiver and the measures and timelines of the agreed paediatric investigation plan (PIP)

1. Waiver

1.1. Condition

Treatment of constipation

The waiver applies to:

- the paediatric population from birth to less than 6 months of age;
- capsule, soft and oral solid dosage form (to be developed), for oral use;
- on the grounds that the disease or condition for which the specific medicinal product is intended does not occur in the specified paediatric subset.

2. Paediatric Investigation Plan

2.1. Condition

Treatment of constipation

2.1.1. Indication(s) targeted by the PIP

Treatment of functional constipation

2.1.2. Subset(s) of the paediatric population concerned by the paediatric development

From 6 months to less than 18 years of age

2.1.3. Pharmaceutical form(s)

Capsule, soft

Age-appropriate oral solid dosage form

2.1.4. Measures

Area	Number of studies	Description
Quality	1	Study 1 Development of an age-appropriate oral solid dosage form
Non-clinical	1	Study 2 Oral toxicity study in juvenile rat

Clinical	4	Study 3 Multi-centre, double-blind, placebo-controlled study of lubiprostone to evaluate efficacy, safety and pharmacokinetics in children and adolescents from 6 years to less than 18 years with functional constipation Study 4 Multi-centre, double-blind, placebo- controlled study of lubiprostone to evaluate efficacy, safety and pharmacokinetics in children from 6 months to less than 6 years with functional constipation Study 5 Deleted during procedure EMEA-000245-PP01-08-M02 Study 7 Multi-centre, long term open-label safety study to assess long term safety, efficacy and pharmacokinetics in children and adolescents 6 years to less than 18 years of age with functional constipation Study 8 Multi-centre, long term open-label safety study to assess long term safety, efficacy and pharmacokinetics in children 6 months to less than 6 years of age with functional constipation
Extrapolation, modelling & simulation studies	0	Study 6 Deleted during procedure EMEA-000245-PP01-08-M03
Other studies	0	Not applicable
Other measures	0	Not applicable

3. Follow-up, completion and deferral of PIP

Concerns on potential long term safety issues in relation to paediatric use:	Yes
Date of completion of the paediatric investigation plan:	By June 2019
Deferral for one or more measures contained in the paediatric investigation plan:	Yes

Annex II

Information about the authorised medicinal product

Condition(s) and authorised indication(s)

1. Treatment of constipation

Authorised indication(s):

- AMITIZA is indicated for the treatment of chronic idiopathic constipation and associated symptoms in adults, when response to diet and other non-pharmacological measures (e.g., educational measures, physical activity) are inappropriate.

Authorised pharmaceutical form(s)

Capsules, soft

Authorised route(s) of administration

Oral use
