European Medicines Agency decision

P/0465/2022

of 4 November 2022

on the agreement of a paediatric investigation plan and on the granting of a deferral for COVID-19 Vaccine (recombinant, adjuvanted) (EMA-003191-PIP01-22) in accordance with Regulation (EC) No 1901/2006 of the European Parliament and of the Council

The European Medicines Agency,

Having regard to the Treaty on the Functioning of the European Union,

Having regard to Regulation (EC) No 1901/2006 of the European Parliament and of the Council of 12 December 2006 on medicinal products for paediatric use and amending Regulation (EEC) No. 1768/92, Directive 2001/20/EC, Directive 2001/83/EC and Regulation (EC) No 726/2004¹,

Having regard to Regulation (EC) No 726/2004 of the European Parliament and of the Council of 31 March 2004 laying down Union procedures for the authorisation and supervision of medicinal products for human use and establishing a European Medicines Agency²,

Having regard to the application submitted by HIPRA Human Health S.L.U. on 21 February 2022 under Article 16(1) of Regulation (EC) No 1901/2006 also requesting a deferral under Article 20 of said Regulation,

Having regard to the opinion of the Paediatric Committee of the European Medicines Agency, issued on 14 October 2022, in accordance with Article 17 of Regulation (EC) No 1901/2006 and Article 21 of said Regulation,

Having regard to Article 25 of Regulation (EC) No 1901/2006,

Whereas:

- (1) The Paediatric Committee of the European Medicines Agency has given an opinion on the EMA-003191-PIP01-22 of a paediatric investigation plan and on the granting of a deferral.
- (2) It is therefore appropriate to adopt a decision agreeing a paediatric investigation plan.
- (3) It is therefore appropriate to adopt a decision granting a deferral.

¹ OJ L 378, 27.12.2006, p.1, as amended.

² OJ L 136, 30.4.2004, p. 1, as amended.

Has adopted this decision:

Article 1

A paediatric investigation plan for COVID-19 Vaccine (recombinant, adjuvanted), emulsion for injection, intramuscular use, the details of which are set out in the opinion of the Paediatric Committee of the European Medicines Agency annexed hereto, together with its appendices, is hereby agreed.

Article 2

A deferral for COVID-19 Vaccine (recombinant, adjuvanted), emulsion for injection, intramuscular use, the details of which are set out in the opinion of the Paediatric Committee of the European Medicines Agency annexed hereto, together with its appendices, is hereby granted.

Article 3

This decision is addressed to HIPRA Human Health S.L.U., 135 Avinguda Selva, 17170 – Amer, Spain.

EMA/PDCO/632020/2022
Amsterdam, 14 October 2022

Opinion of the Paediatric Committee on the agreement of a Paediatric Investigation Plan and a deferral

EMA-003191-PIP01-22

Scope of the application

Active substance(s):

COVID-19 Vaccine (recombinant, adjuvanted)

Invented name and authorisation status:

See Annex II

Condition(s):

Prevention of coronavirus disease 2019 (COVID-19)

Pharmaceutical form(s):

Emulsion for injection

Route(s) of administration:

Intramuscular use

Name/corporate name of the PIP applicant:

HIPRA Human Health S.L.U.

Basis for opinion

Pursuant to Article 16(1) of Regulation (EC) No 1901/2006 as amended, HIPRA Human Health S.L.U. submitted for agreement to the European Medicines Agency on 21 February 2022 an application for a paediatric investigation plan for the above mentioned medicinal product and a deferral under Article 20 of said Regulation.

The procedure started on 15 March 2022.

Supplementary information was provided by the applicant on 8 June 2022.

Opinion

1. The Paediatric Committee, having assessed the proposed paediatric investigation plan in accordance with Article 17 of Regulation (EC) No 1901/2006 as amended, recommends as set out in the appended summary report:

- to agree the paediatric investigation plan in accordance with Article 17(1) of said Regulation;
- to grant a deferral in accordance with Article 21 of said Regulation.

The Paediatric Committee member of Norway agrees with the above-mentioned recommendation of the Paediatric Committee.

2. The measures and timelines of the agreed paediatric investigation plan are set out in the Annex I.

This opinion is forwarded to the applicant and the Executive Director of the European Medicines Agency, together with its annexes and appendix.

Annex I

The subset(s) of the paediatric population and condition(s) covered by the waiver and the measures and timelines of the agreed paediatric investigation plan (PIP)

1. Waiver

Not applicable

2. Paediatric investigation plan

2.1. Condition:

Prevention of coronavirus disease 2019 (COVID-19)

2.1.1. Indication(s) targeted by the PIP

Prevention of coronavirus disease 2019 (COVID-19)

2.1.2. Subset(s) of the paediatric population concerned by the paediatric development

From birth to less than 18 years of age

2.1.3. Pharmaceutical form(s)

Emulsion for injection

2.1.4. Measures

Area	Description
Quality-related studies	Study 1 Development of lower strength emulsion for injection formulation for paediatric use
Non-clinical studies	Not applicable
Clinical studies	Study 2 (HIPRA-HH-3) Open label uncontrolled study of safety and immunogenicity COVID-19 Vaccine (recombinant, adjuvanted) (PHH-1V) as heterologous booster for the prevention of coronavirus disease 2019 (COVID-19) in adolescents from 12 years to less than 18 years of age. Study 3 (HIPRA-HH-6) Open label study of safety and immunogenicity of COVID-19 Vaccine (recombinant, adjuvanted) (PHH-1V) as heterologous booster for the prevention of coronavirus disease 2019 (COVID-19) in children from 5 years to less than 12 years of age. Study 4 (HIPRA-HH-8) Randomized, double blind, active controlled study of safety and immunogenicity and open label safety expansion of a primary series, and open label study of a booster dose of COVID-19 Vaccine (recombinant, adjuvanted) (PHH-1V) for the prevention of coronavirus

	disease 2019 (COVID-19) in children from birth to less than 5 years of age.
Modelling and simulation studies	Not applicable
Other studies	Not applicable
Extrapolation plan	Not applicable

3. Follow-up, completion and deferral of PIP

Concerns on potential long term safety/efficacy issues in relation to paediatric use:	No
Date of completion of the paediatric investigation plan:	By September 2025
Deferral for one or more measures contained in the paediatric investigation plan:	Yes

Annex II

Information about the authorised medicinal product
