European Medicines Agency decision

P/0466/2022

of 7 November 2022

on the acceptance of a modification of an agreed paediatric investigation plan for tozinameran, tozinameran / famtozinameran (Comirnaty), (EMA-002861-PIP02-20-M05) in accordance with Regulation (EC) No 1901/2006 of the European Parliament and of the Council

The European Medicines Agency,

Having regard to the Treaty on the Functioning of the European Union,

Having regard to Regulation (EC) No 1901/2006 of the European Parliament and of the Council of 12 December 2006 on medicinal products for paediatric use and amending Regulation (EEC) No. 1768/92, Directive 2001/20/EC, Directive 2001/83/EC and Regulation (EC) No 726/2004¹,

Having regard to Regulation (EC) No 726/2004 of the European Parliament and of the Council of 31 March 2004 laying down Union procedures for the authorisation and supervision of medicinal products for human use and establishing a European Medicines Agency²,

Having regard to the European Medicines Agency's decision P/0480/2020 issued on 27 November 2020, decision P/0179/2021 issued on 23 April 2021, and decision P/0396/2021 issued on 25 August 2021 and the decision P/0547/2021 issued on 31 December 2021 and the decision P/0378/2022 issued on 9 September 2022.

Having regard to the application submitted by BioNTech Manufacturing GmbH on 4 October 2022 under Article 22 of Regulation (EC) No 1901/2006 proposing changes to the agreed paediatric investigation plan with a deferral,

Having regard to the opinion of the Paediatric Committee of the European Medicines Agency, issued on 4 November 2022, in accordance with Article 22 of Regulation (EC) No 1901/2006,

Having regard to Article 25 of Regulation (EC) No 1901/2006,

Whereas:

- (1) The Paediatric Committee of the European Medicines Agency has given an opinion on the acceptance of changes to the agreed paediatric investigation plan and to the deferral.
- (2) It is therefore appropriate to adopt a decision on the acceptance of changes to the agreed paediatric investigation plan, including changes to the deferral.

¹ OJ L 378, 27.12.2006, p.1, as amended.

² OJ L 136, 30.4.2004, p. 1, as amended.

Has adopted this decision:

Article 1

Changes to the agreed paediatric investigation plan for tozinameran, Tozinameran / famtozinameran (Comirnaty), concentrate for dispersion for injection, dispersion for injection, intramuscular use, including changes to the deferral, are hereby accepted in the scope set out in the opinion of the Paediatric Committee of the European Medicines Agency annexed hereto, together with its appendices.

Article 2

This decision is addressed to BioNTech Manufacturing GmbH, An der Goldgrube 12, 55131 – Mainz, Germany.

EMA/PDCO/800154/2022
Amsterdam, 4 November 2022

Opinion of the Paediatric Committee on the acceptance of a modification of an agreed Paediatric Investigation Plan EMA-002861-PIP02-20-M05

Scope of the application

Active substance(s):

Tozinameran

Tozinameran / famtozinameran

Invented name and authorisation status:

See Annex II

Condition(s):

Prevention of Coronavirus disease 2019 (COVID-19)

Pharmaceutical form(s):

Concentrate for dispersion for injection

Dispersion for injection

Route(s) of administration:

Intramuscular use

Name/corporate name of the PIP applicant:

BioNTech Manufacturing GmbH

Basis for opinion

Pursuant to Article 22 of Regulation (EC) No 1901/2006 as amended, BioNTech Manufacturing GmbH submitted to the European Medicines Agency on 4 October 2022 an application for modification of the agreed paediatric investigation plan with a deferral as set out in the European Medicines Agency's decision P/0480/2020 issued on 27 November 2020, decision P/0179/2021 issued on 23 April 2021, and decision P/0396/2021 issued on 25 August 2021 and the decision P/0547/2021 issued on 31 December 2021 and the decision P/0378/2022 issued on 9 September 2022.

The application for modification proposed changes to the agreed paediatric investigation plan and to the deferral

The procedure started on 5 October 2022.

Scope of the modification

Some measures and timelines of the Paediatric Investigation Plan have been modified.

Opinion

1. The Paediatric Committee, having assessed the application in accordance with Article 22 of Regulation (EC) No 1901/2006 as amended, recommends as set out in the appended summary report:
 - to agree to changes to the paediatric investigation plan and to the deferral in the scope set out in the Annex I of this opinion.

The Paediatric Committee member of Norway agrees with the above-mentioned recommendation of the Paediatric Committee.

2. The measures and timelines of the paediatric investigation plan are set out in the Annex I.

This opinion is forwarded to the applicant and the Executive Director of the European Medicines Agency, together with its annexes and appendix.

Annex I

The subset(s) of the paediatric population and condition(s) covered by the waiver and the measures and timelines of the agreed paediatric investigation plan (PIP)

1. Waiver

Not applicable

2. Paediatric investigation plan

2.1. Condition:

Prevention of Coronavirus disease 2019 (COVID-19)

2.1.1. Indication(s) targeted by the PIP

Prevention of Coronavirus disease 2019 (COVID-19)

2.1.2. Subset(s) of the paediatric population concerned by the paediatric development

From birth to less than 18 years of age

2.1.3. Pharmaceutical form(s)

Concentrate for dispersion for injection

Dispersion for injection

2.1.4. Measures

Area	Description
Quality-related studies	Not applicable
Non-clinical studies	Not applicable
Clinical studies	Study 1 (C4591001) Double blind, dose-finding study of safety, tolerability and immunogenicity of 2 different SARS-CoV-2 vaccine candidates (adults only) (part 1) and placebo-controlled efficacy, safety and immunogenicity study of highly purified single-stranded, 5'-capped mRNA encoding full-length SARS-CoV-2 spike protein (BNT162b2) in adolescents from 12 years to less than 18 years of age (and adults) (part 2) for prevention of COVID-19 Study 2 (C4591007) Double blind, controlled, dose-finding safety, tolerability and immunogenicity study of tozinameran in paediatric subjects from 6 months to less than 18 years of age (and young adults to 30 years of age) for prevention of COVID-19

	Study 3 Open label, controlled, dose-finding, safety and immunogenicity study of tozinameran in children from birth to less than 6 months of age for prevention of COVID-19 Study 4 (C4591024) Open label, uncontrolled, safety and immunogenicity study of tozinameran in immunocompromised children from birth to less than 18 years of age for prevention of COVID-19 Study 5 (C4591044) <i>Added during procedure EMEA-002861-PIP02-20-M05.</i> Open label, safety, tolerability and immunogenicity study of a booster dose of tozinameran/famtozinameran in adolescents from 12 years to less than 18 years of age (and adults) for the prevention of COVID-19 Study 6 (C4591048) <i>Added during procedure EMEA-002861-PIP02-20-M05.</i> Observer-blind, randomized, controlled, safety, tolerability and immunogenicity study of a primary series of tozinameran/famtozinameran in children from 6 months to less than 4 years and 3 months of age (substudy A: SSA), and open label, safety, tolerability and immunogenicity study of a booster dose of tozinameran/famtozinameran in children from 6 months to less than 12 years age for the prevention of COVID-19 (Substudies B, C, and D)
Extrapolation, modelling and simulation studies	Not applicable
Other studies	Not applicable
Other measures	Not applicable

3. Follow-up, completion and deferral of PIP

Concerns on potential long-term safety/efficacy issues in relation to paediatric use:	No
Date of completion of the paediatric investigation plan:	By March 2025
Deferral for one or more measures contained in the paediatric investigation plan:	Yes

Annex II

Information about the authorised medicinal product

Information provided by the applicant:

Condition(s) and authorised indication(s)

1. Prevention of COVID-19

Authorised indication(s):

- Comirnaty (10 µg/dose; 30 µg/dose) is indicated for active immunisation to prevent COVID-19 caused by SARS-CoV-2 virus, in individuals 5 years of age and older.
 - Invented name(s): Comirnaty, Comirnaty Original/Omicron BA.4-5
 - Authorised pharmaceutical form(s): Concentrate for dispersion for injection, Dispersion for injection
 - Authorised route(s) of administration: Intramuscular route
 - Authorised via centralised procedure
- Comirnaty (3 µg/dose) is indicated for active immunisation to prevent COVID-19 caused by SARS-CoV-2 virus, in individuals 6 months to 4 years of age.
 - Invented name(s): Comirnaty
 - Authorised pharmaceutical form(s): Concentrate for dispersion for injection
 - Authorised route(s) of administration: Intramuscular route
 - Authorised via centralised procedure
