Condition(s):

Visualisation during vitrectomy

Pharmaceutical form(s):

Suspension for injection

Route(s) of administration:

Intravitreal use

Name/corporate name of the waiver applicant:

Basis for opinion

Pursuant to Article 13 of Regulation (EC) No 1901/2006 as amended, Alcon Pharma GmbH submitted to the EMA on 30 January 2009 an application for a product-specific waiver on the grounds set out in Article 11 of said Regulation for the above mentioned medicinal product.

The procedure started on 05 March 2009.

Opinion

1. The Paediatric Committee, having assessed the waiver application in accordance with Article 13 of Regulation (EC) No 1901/2006 as amended, recommends as set out in the appended summary report, to grant a product-specific waiver for all subsets of the paediatric population and the above mentioned condition(s) in accordance with Article 11(1)(c) of said Regulation, on the grounds that the specific medicinal product does not represent a significant therapeutic benefit over existing treatments for paediatric patients.

The Icelandic and the Norwegian Paediatric Committee members agree with the above-mentioned recommendation of the Paediatric Committee.

2. The grounds for the granting of the waiver are set out in Annex I.

This opinion is forwarded to the applicant and the Executive Director of the Agency, together with its annex and appendix.
