1. The Paediatric Committee, having assessed the waiver application in accordance with Article 13 of Regulation (EC) No 1901/2006 as amended, recommends as set out in the appended summary report:
  - to grant a product-specific waiver for all subsets of the paediatric population and the above mentioned condition(s) in accordance with Article 11(1)(c) of said Regulation, on the grounds that the disease or condition for which the specific medicinal product is intended does not occur in the specified paediatric subset(s) and on the grounds that the specific medicinal product does not represent a significant therapeutic benefit over existing treatments for paediatric patients.
