European Medicines Agency decision

P/0009/2021

of 15 January 2021

on the acceptance of a modification of an agreed paediatric investigation plan for tofacitinib (Xeljanz), (EMEA-000576-PIP03-12-M05) in accordance with Regulation (EC) No 1901/2006 of the European Parliament and of the Council

The European Medicines Agency,

Having regard to the Treaty on the Functioning of the European Union,

Having regard to Regulation (EC) No 1901/2006 of the European Parliament and of the Council of 12 December 2006 on medicinal products for paediatric use and amending Regulation (EEC) No. 1768/92, Directive 2001/20/EC, Directive 2001/83/EC and Regulation (EC) No 726/2004[1],

Having regard to Regulation (EC) No 726/2004 of the European Parliament and of the Council of 31 March 2004 laying down Community procedures for the authorisation and supervision of medicinal products for human and veterinary use and establishing a European Medicines Agency[2],

Having regard to the European Medicines Agency's decision P/0195/2014 issued on 8 August 2014, the decision P/0275/2018 issued on 31 August 2018, the decision P/0071/2019 issued on 22 March 2019, the decision P/0165/2020 issued on 24 April 2020 and the decision P/0380/2020 issued on 9 September 2020,

Having regard to the application submitted by Pfizer Europe MA EEIG on 11 September 2020 under Article 22 of Regulation (EC) No 1901/2006 proposing changes to the agreed paediatric investigation plan with a deferral and a waiver,

Having regard to the opinion of the Paediatric Committee of the European Medicines Agency, issued on 11 December 2020, in accordance with Article 22 of Regulation (EC) No 1901/2006,

Having regard to Article 25 of Regulation (EC) No 1901/2006,

Whereas:

(1) The Paediatric Committee of the European Medicines Agency has given an opinion on the acceptance of changes to the agreed paediatric investigation plan and to the deferral.

(2) It is therefore appropriate to adopt a decision on the acceptance of changes to the agreed paediatric investigation plan, including changes to the deferral.

[2] OJ L 136, 30.4.2004, p. 1.

Has adopted this decision:

Article 1

Changes to the agreed paediatric investigation plan for tofacitinib (Xeljanz), film-coated tablet, prolonged-release film-coated tablet, oral solution, prolonged-release age-appropriate oral formulation, oral use, including changes to the deferral, are hereby accepted in the scope set out in the opinion of the Paediatric Committee of the European Medicines Agency annexed hereto, together with its appendices.

Article 2

This decision covers all conditions, indications, pharmaceutical forms, routes of administration, measures, timelines, waivers and deferrals, as agreed in the decision P/144/2010 issued on 30 July 2010, including subsequent modifications thereof.

Article 3

This decision is addressed to Pfizer Europe MA EEIG, Boulevard de la Plaine 17, 1050 – Bruxelles, Belgium.

EMA/PDCO/495289/2020
Amsterdam, 11 December 2020

Opinion of the Paediatric Committee on the acceptance of a modification of an agreed Paediatric Investigation Plan

EMEA-000576-PIP03-12-M05

Scope of the application

Active substance(s):

Tofacitinib

Invented name:

Xeljanz

Condition(s):

Treatment of ulcerative colitis

Authorised indication(s):

See Annex II

Pharmaceutical form(s):

Film-coated tablet

Prolonged-release film-coated tablet

Oral solution

Prolonged-release age-appropriate oral formulation

Route(s) of administration:

Oral use

Name/corporate name of the PIP applicant:

Pfizer Europe MA EEIG

Information about the authorised medicinal product:

See Annex II

Basis for opinion

Pursuant to Article 22 of Regulation (EC) No 1901/2006 as amended, Pfizer Europe MA EEIG submitted to the European Medicines Agency on 11 September 2020 an application for modification of the agreed paediatric investigation plan with a deferral and a waiver as set out in the European Medicines Agency's decision P/0195/2014 issued on 8 August 2014, the decision P/0275/2018 issued on 31 August 2018, the decision P/0071/2019 issued on 22 March 2019, the decision P/0165/2020 issued on 24 April 2020 and the decision P/0380/2020 issued on 9 September 2020.

The application for modification proposed changes to the agreed paediatric investigation plan and to the deferral.

The procedure started on 13 October 2020.

Scope of the modification

Some measures and timelines of the Paediatric Investigation Plan have been modified.

Opinion

1. The Paediatric Committee, having assessed the application in accordance with Article 22 of Regulation (EC) No 1901/2006 as amended, recommends as set out in the appended summary report:

   - to agree to changes to the paediatric investigation plan and to the deferral in the scope set out in the Annex I of this opinion.

   The Norwegian Paediatric Committee member agrees with the above-mentioned recommendation of the Paediatric Committee.

2. The measures and timelines of the paediatric investigation plan and the subset(s) of the paediatric population and condition(s) covered by the waiver are set out in the Annex I.

This opinion is forwarded to the applicant and the Executive Director of the European Medicines Agency, together with its annexes and appendix.

Annex I

The subset(s) of the paediatric population and condition(s) covered by the waiver and the measures and timelines of the agreed paediatric investigation plan (PIP)

1. Waiver

1.1. Condition:

Treatment of ulcerative colitis

The waiver applies to:

- the paediatric population from birth to less than 2 years of age;
- film-coated tablet, prolonged-release film-coated tablet, oral solution, prolonged-release age-appropriate oral formulation, oral use;
- on the grounds that the specific medicinal product is likely to be unsafe.

2. Paediatric investigation plan

2.1. Condition:

Treatment of ulcerative colitis

2.1.1. Indication(s) targeted by the PIP

Treatment of children and adolescents from 2 to less than 18 years of age with moderately to severely active ulcerative colitis, who have had an inadequate response, lost response or were intolerant to either conventional therapy or a biological agent

2.1.2. Subset(s) of the paediatric population concerned by the paediatric development

From 2 to less than 18 years of age

2.1.3. Pharmaceutical form(s)

Film-coated tablet

Prolonged-release film-coated tablet

Oral solution

Prolonged-release age-appropriate oral formulation

2.1.4. Measures

Area	Number of measures	Description
Quality-related studies	3	**Study 1** Development of oral solution 1 mg/ml **Study 7** Development of prolonged-release film-coated tablet **Study 8** Development of prolonged-release age-appropriate oral formulation(s), suitable for children from 2 to less than 12 years of age
Non-clinical studies	3	**Study 2** 39-week toxicology study in juvenile non-human primates followed by 26-week recovery period **Study 3** 1-month toxicity study in juvenile rats followed by 2 months recovery **Study 4** Fertility study in juvenile rats for 50 days in males and 35 days in females
Clinical studies	1	**Study 5 (A3921210)** Open-label, PK, efficacy and safety trial with an open-label extension phase, to evaluate PK, safety, efficacy and tolerability of tofacitinib in children from 2 to less than 18 years of age with moderately to severely active ulcerative colitis
Extrapolation, modelling and simulation studies	4	**Study 6** Modelling and simulation study to select doses for evaluating the use of tofacitinib in children from 2 to less than 18 years of age with ulcerative colitis **Study 9** Study to bridge efficacy and safety from tofacitinib film-coated tablet formulation to the prolonged-release film-coated tablet formulation in adult patients with ulcerative colitis **Study 10** Population PK analysis using data from the PK, efficacy and safety study in paediatric UC patients **Study 11** Study to bridge efficacy and safety from tofacitinib film-coated formulation to the prolonged-release formulation(s) in paediatric UC patients

Other studies	0	Not applicable.
Other measures	0	Not applicable.

3. Follow-up, completion and deferral of PIP

Concerns on potential long-term safety/efficacy issues in relation to paediatric use:	Yes
Date of completion of the paediatric investigation plan:	By December 2025
Deferral for one or more measures contained in the paediatric investigation plan:	Yes

Annex II

Information about the authorised medicinal product

Condition(s) and authorised indication(s):

1. Treatment of rheumatoid arthritis

Authorised indication(s):

- XELJANZ in combination with methotrexate (MTX) is indicated for the treatment of moderate to severe active rheumatoid arthritis (RA) in adult patients who have responded inadequately to, or who are intolerant to one or more disease-modifying antirheumatic drugs. XELJANZ can be given as monotherapy in case of intolerance to MTX or when treatment with MTX is inappropriate.

2. Treatment of psoriatic arthritis

Authorised indication(s):

- Tofacitinib in combination with MTX is indicated for the treatment of active psoriatic arthritis (PsA) in adult patients who have had an inadequate response or who have been intolerant to a prior disease-modifying antirheumatic drug (DMARD) therapy.

3. Treatment of ulcerative colitis

Authorised indication(s):

- Tofacitinib is indicated for the treatment of adult patients with moderately to severely active ulcerative colitis (UC) who have had an inadequate response, lost response, or were intolerant to either conventional therapy or a biologic agent.

Authorised pharmaceutical form(s):

Film-coated tablet

Authorised route(s) of administration:

Oral use
