

To:

Head of Paediatric Medicines
European Medicines Agency

Notification of discontinuation of a paediatric development which is covered by an agreed PIP Decision

Actives substances(s): Chemically modified house dust mites allergen extract (dermatophagoides pteronyssinus and dermatophagoides farinae)

Invented name: N.A.

Latest Decision number(s): 1) P/146/2011

Corresponding PIP number(s): 1) EMEA-001015-PIP01-10

Date of initial marketing authorisation granted: N.A.

Date of authorisation of new indication, pharmaceutical form or route of administration: N.A.

Please note that development of the medicinal product above in the following
condition(s)/indication(s):

Treatment of allergic rhinitis / rhino-conjunctivitis

☒ has been discontinued

☐ has been suspended/put on long-term hold (with possible re-start at a later time)

for the following reason(s): (tick all that apply)

☐ (possible) lack of efficacy in adults

☐ (possible) lack of efficacy in children

☐ (possible) unsatisfactory safety profile in adults

☐ (possible) unsatisfactory safety profile in children

☐ commercial reasons (please specify:)

☒ manufacturing / quality problems

☒ other regulatory action (please specify: MA application withdrawal) (e.g. suspension, revocation of M.A.)

☐ other reason (please specify:)

Please add a brief description (max 2000 characters) of the reason(s) for the discontinuation / suspension:

Following the PEI letter of deficiencies to Module 3 of Lofarma MA application dossier for Lais House Dust Mites 3,000 UA/ml oromucosal drops, Lofarma S.p.A. withdrew the MAA on 24th August 2015. As a consequence, the paediatric development was discontinued.

Please note that if the PIP has been submitted as part of a marketing authorisation application in order to comply with the requirements of Article 7 of the Paediatric Regulation (as a condition of the validation of the respective application) and a marketing authorisation was granted based on this application, then there is a legal obligation to complete that PIP. The same applies if there has been a successful post-authorisation application, where the PIP was included in order to comply with the requirements of Article 8 of the Paediatric Regulation.

Please confirm if any of the above applies to the PIP in question:

Yes ☐ No ☒

If yes, it means that based on the Marketing Authorisation obtained at the end of that initial procedure or the successful post-authorisation application, as applicable, you are obliged to complete that PIP. That obligation cannot be cancelled by a unilateral decision, including by withdrawing the MA. Such PIP must be completed, unless it is modified in agreement with the PDCO by removing all outstanding PIP measures or granting a full product-specific waiver instead (upon relevant circumstances in accordance with the Paediatric Regulation). Non-completion of a binding PIP establishes noncompliance with the requirements of the Paediatric Regulation, which the European Medicines Agency has an obligation to report to the European Commission.
