European Medicines Agency

***Notification of discontinuation of a paediatric development which is covered by an agreed PIP Decision***

Actives substances(s): Human immunoglobulin G2 isotype antibody to IL-33R

Invented name: Not applicable.

Latest Decision number(s): 1) P/0055/2020

Corresponding PIP number(s): 1) EMEA-002515-PIP01-18

Date of initial marketing authorisation granted: Not applicable.

Date of authorisation of new indication, pharmaceutical form or route of administration: Not applicable.

Please note that development of the medicinal product above in the following  
**condition(s)/indication(s):**

Condition:

Treatment of asthma

Indications:

Add-on asthma treatment for patients aged 6-11 years currently uncontrolled on FP  $\geq 200\mu\text{g/day}$  (or equivalent) plus another controller

Add-on asthma treatment for patients 12 years and above currently uncontrolled on medium/high dose ICS/LABA (FP equivalent  $\geq 500\mu\text{g/day}$ ) plus another controller

☒ has been discontinued

☐ has been suspended/put on long-term hold (with possible re-start at a later time)

for the following reason(s): (tick all that apply)

☐ (possible) lack of efficacy in adults

☐ (possible) lack of efficacy in children

☐ (possible) unsatisfactory safety profile in adults

☐ (possible) unsatisfactory safety profile in children

☐ commercial reasons (please specify: )

☐ manufacturing / quality problems

☐ other regulatory action (please specify: ) (e.g. suspension, revocation of M.A.)

☒ other reason (please specify: portfolio prioritization)

Please add a brief description (max 2000 characters) of the reason(s) for the discontinuation / suspension:

The development of Human immunoglobulin G2 isotype antibody to IL-33R has been terminated due to portfolio prioritization.

Please note that if the PIP has been submitted as part of a marketing authorisation application in order to comply with the requirements of Article 7 of the Paediatric Regulation (as a condition of the validation of the respective application) and a marketing authorisation was granted based on this application, then there is a legal obligation to complete that PIP. The same applies if there has been a successful post-authorisation application, where the PIP was included in order to comply with the requirements of Article 8 of the Paediatric Regulation.

Please confirm if any of the above applies to the PIP in question:

Yes ☐ No ☒

If yes, it means that based on the Marketing Authorisation obtained at the end of that initial procedure or the successful post-authorisation application, as applicable, you are obliged to complete that PIP. That obligation cannot be cancelled by a unilateral decision, including by withdrawing the MA. Such PIP must be completed, unless it is modified in agreement with the PDCO by removing all outstanding PIP measures or granting a full product-specific waiver instead (upon relevant circumstances in accordance with the Paediatric Regulation). Non-completion of a binding PIP establishes noncompliance with the requirements of the Paediatric Regulation, which the European Medicines Agency has an obligation to report to the European Commission.
