

Report to PCWP/HCPWP from HMPC

Herbal monographs, consultation of patients and possible training sessions

Steffen Bager, HMPC member

Consulting patients on herbal medicinal products

- Already established consultation of ARSP's
- Commenting draft monographs in December 2019:
 - Rheum palmatum
 - Rhamnus purshiana
 - Thyme oil
 - Tanacetum parthenium

Early experiences – how to increase involvement / knowledge

- Continue with the regular practice to consult patient representatives on draft HMPC documents (e.g. Herbal summaries for the public, draft monographs)
- Organise information session to raise understanding of different document functions (e.g. MO, AR, vs SmPC and labelling)
 - including the role of patients input
- Consult patient representatives for specific questions via EMA established network of patients, via PCWP/HCPWP
- Call for additional members to join ‘herbal patient group’
