## EMA Account Management Training Session

---

3 October 2022, 10:30 – 12:25 Central European Time (CET)  
Webinar: WebEx

1

## **Introduction**

10:30 – 10:40

**Carlo De Vittoria**

*Information Security, EMA*

2

## **EMA Account Management Features Overview, including Q&A**

10:40 – 12:00

**Carlo De Vittoria**

*Information Security, EMA*

Moderator:

**Miriam Narodova**

3

## **What's Next**

12:00 – 12:15

**Carlo De Vittoria**

*Information Security, EMA*

4

## **Closing**

12:15 – 12:30

**Carlo De Vittoria**

*Information Security, EMA*

Please note that **this session is being recorded** and **will be made available** through **EMA Corporate Website**.

At certain points throughout the session, participants will be able to ask questions or give their input via the audience interaction tool **Slido**.

Interaction via Slido is voluntary, and you may opt to remain anonymous. If you chose to use Slido, **you consent to the processing of your personal data** as explained in the [EMA Data Privacy Statement for Slido](#).

Join at  
**slido.com**  
**#5701 757**

 Passcode: **yvoobo**

## 1. Join via the QR code or link

## 2. Send or upvote the questions you want to hear answered

## 3. Questions will be shown on the screen and managed live in the Q&A session

# Introduction

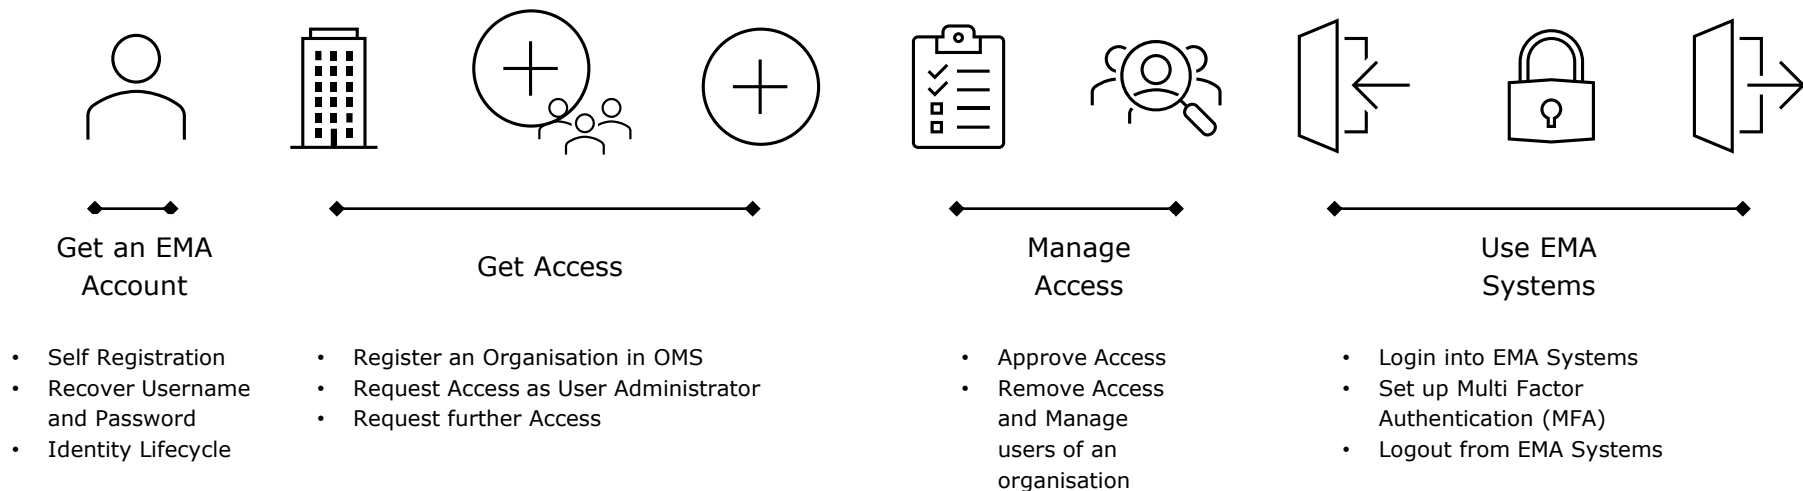

---

Carlo De Vittoria, *Information Security, EMA*

## Vision

Collaboration with our stakeholders is at the core of the EMA's activities. This interaction is mainly facilitated by the Agency's systems and applications such as, IRIS, CTIS, EudraVigilance, UPD, ...

The first interface with the Agency's stakeholders is through the [EMA Account Management](#) platform. As the gateway to EMA's applications, the Agency has embarked on a project aimed at **ensuring that the registration and access management process delivers a simple, secure, consistent and user-friendly** way for EMA's stakeholders to work together with the Agency.

## Current Context

- Possible roles are unclear to potential users
- Mandatory documents required as part of the registration process are unclear
- High waiting times and rejections
- Multiple log-ins required

## Key Changes

- An enhanced **Organisation Search function**, making it easier for users to find their affiliated organisation based on different criteria
- Ability to **select multiple organisations within the same request**, meaning greater efficiency for our users associated with multiple entities
- Clearer **overview and description of potential roles**, providing users with clarity on documentation requirements and mandatory roles dependent on needs

## Get an EMA Account

---

- Self Registration
- Recover Username and Password
- Identity Lifecycle

## Self Registration

The first step to access EMA services is to have an **active EMA Account**.

If you have access to any of the following systems, you **already have an active EMA account**.

If you don't have an EMA Account, [self registration](#) is a 2 steps process:

- 1) Insert your data, provide agreement to EMA Privacy Statement and user agreement, tick the CATCHPA
- 2) Verify your email address by providing a code received on your email address and confirm the successful registration

If your email is already in use you can retrieve your username with the [Forgot Username?](#)

Self registration is granting basic birth-rights to access some EMA applications like the Service Desk, IRIS as an individual, OMS as unaffiliated user, CTIS.

IRIS, CTIS, SPOR, Eudralink, EudraCT Secure, Service Desk portal, European Union telematics controlled terms (EUTCT), Meeting Management System (MMS), Managing Meeting Document system (MMD), EudraVigilance data analysis system (EVDAS), .... full list [here](#)

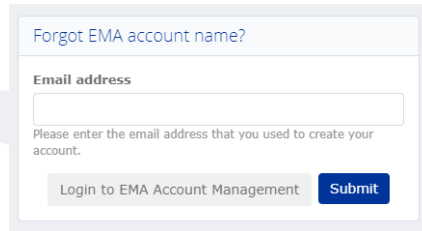

The image shows two overlapping screenshots from the EMA registration process. The background screenshot is the 'EMA - Self-service Registration Confirmation Form'. It has sections for 'Your EMA Account' (with fields for username and surname), 'Your Details' (with fields for first name, last name, email, and mobile), and 'One-time Token' (with fields for token expiration and confirm token). The foreground screenshot is an email titled 'EMA Registration - One-time Token' sent to 'register@ema.europa.eu'. It contains a 'Dear Name,' greeting, a thank you message, and a one-time token value '5185SP'. It also includes contact information for the European Medicines Agency.

The image shows a red-bordered box containing an email validation error message. It says 'Email \*' followed by a red line under the email address 'name.surname@domain.com'. Below this, it states 'The email you have chosen is already in use. Please retrieve your ...' and 'We require a valid/active email address to create an EMA Account.'

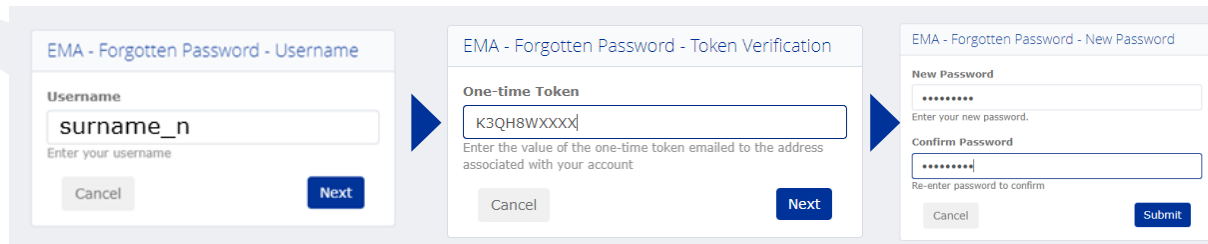

## Recover your username and password

To recover your username click on the "[Forgot Username?](#)" link and you will receive an email with your username.

To reset your password click on the "[Forgot Password?](#)" link and follow the instructions.

**Note:** Check your spam e-mail folder if you have not received the one-time token required to reset your password.

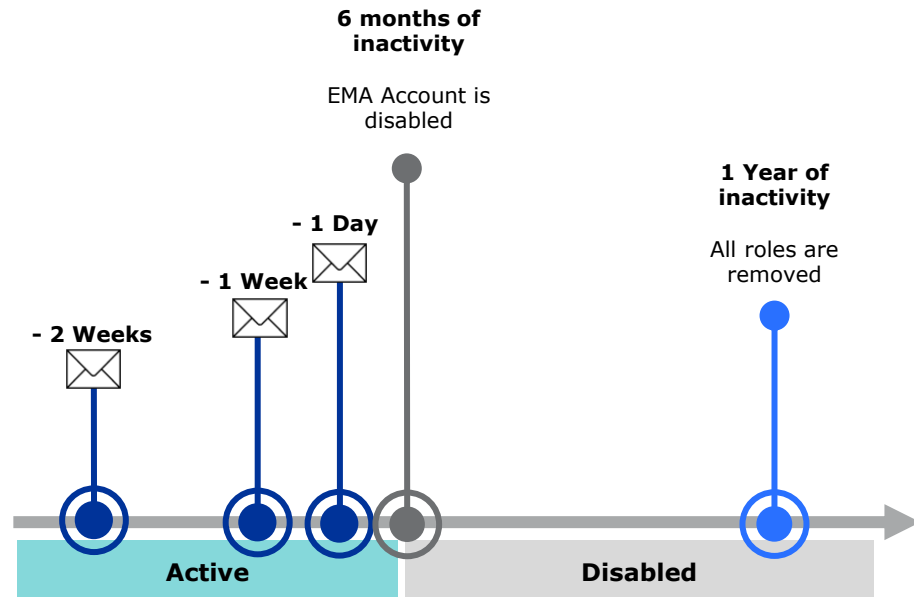

## Identity Lifecycle

All EMA accounts are automatically disabled after **6 months of inactivity**. Prior to disabling the account, the system sends three reminders to the user (two weeks, one week and one day before the account is disabled).

To re-activate your account you will need to use the "[Forgot Password?](#)" process.

By re-setting your password your account will be re-activated and a notification sent to your email address. If you are affiliated to an organisation, your 'User Administrator' will also be notified that your account has been re-activated.

If you want to change your details (Name, Surname and email address) or you want to disable your account open a ticket into the [EMA Service Desk](#).

## [The new EMA Account Management experience demo](#)

## Changes

- > March 2022: Security questions are not in use anymore
- > March 2022: New Captcha was introduced

### Do's:

- > Do use your **professional** email address and not your private email, it will facilitate EMA checks
- > Do open a [EMA Service Desk](#) ticket if the **e-mail domain** of your organisation has been changed, a bulk change will be performed for all users of that domain.

### Do not's:

- > Do not use **generic** (i.e. info@) and private (i.e. Gmail or Yahoo) To create an account only personal e-mail address must be used e.g. [name.surname@domain.com](#).
- > Do not request to update your email address if you are leaving your company, open instead a [EMA Service Desk](#) ticket to **disable** your current account and **self register** a new account.

## Q&A session

## Get Access

---

- Register an Organisation in OMS
- Request Access as User Administrator
- Request further Access

# Get Access

Action

Register an **EMA account**  
(external e-mail address)

Register an **organisation**

Request the first **User Administrator** with a signed proof of authority  
(only applicable to the first Administrators)

**Further access role(s)**  
can be requested by the same or different users.

Validation

**EMA Data Stewards**  
validates and master the **organisation** (up to 10 working days)

**EMA User Administrators**  
validate the request (up to 2 working days)

User Administrator of the Organisation validate the request

Outcome

An active **EMA account**  
(external e-mail address)

An **organisation** on whose behalf you will be acting listed in the EMA's Organisation Management Service (OMS)

An approved **User Administrator** for the specific EMA **OMS organisation**

**Access role(s)** assigned on behalf of the specific EMA **OMS organisation**

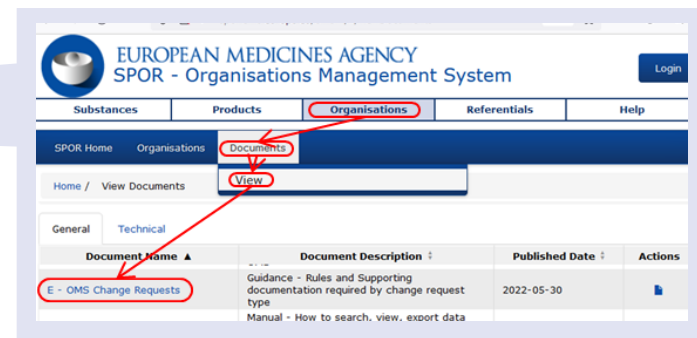

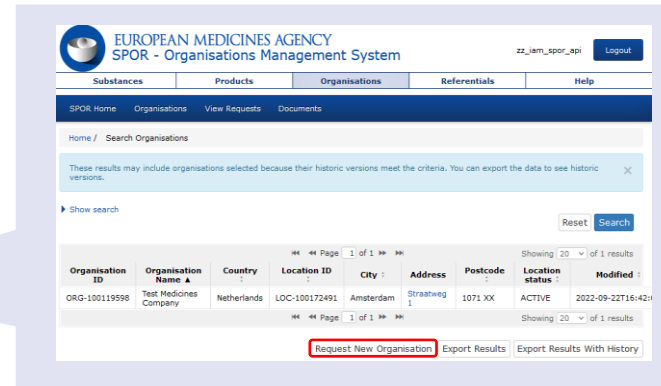

## Register an Organisation in OMS

Before requesting access the **organisation** on whose behalf you will be acting must be listed in the EMA's **Organisation Management Service (OMS)**

The possibility to request a new organisation is shown only after checking that the required organisation is not listed in OMS.

Don't forget to provide **mandatory supporting documentation** for a successfully approved request. Guidance on type of supporting documentation is published on the [OMS portal](#), under the document "E- Change requests".

The validation of a Change Request can take up to 10 working days.

## Request Access as User Administrator

The new access request workflow is available on the home page of EMA Account Management on the "[Request Access for Organisations](#)" tab.

Further roles cannot be requested before a user administrator role is appointed for an organisation.

The first user Administrator of an Organisation is approved by EMA by validating a [proof of authority to represent the organisation](#) (affiliation letter).

The [External Organisation Administrator](#) is a special role that can reduce the number of administrators validated by EMA.

More details on the different user administrator roles are available in [this presentation](#)

The **person signing** the affiliation letter should be **different** from the person requesting the user administrator access, however, if you are the sole representative of a one-person company, please state this in the letter.

**Sign** the affiliation letter stating **name** and **role** of the signing person for the relevant organisation.

Submit the affiliation letter with a **work email** from the same **domain** as the organisation domain otherwise, please state in the letter that the email won't match the company's domain, and get the letter signed

EUROPEAN MEDICINES AGENCY

EMA Account Management Portal

Subject: IRIS Industry User Admin (for Orphan Designation, ITF, Scientific Advice) – ORG-100013412

Dear Sir/Madam

We are hereby requesting that <name of the IRIS User Admin/SPOR Super User/CTIS User Administrator / UPD Industry Super User> is authorised to obtain the first <IRIS Industry User Admin/Parallel Distribution User Admin/SPOR Super User/CTIS High Level Administrator / UPD Industry Super User> for <name of the Organisation> <the Organisations listed below> and therefore is empowered for the approval/rejection of <IRIS/SPOR/CTIS/UPD> user access requests within the same organisation(s).

Details of the <IRIS/SPOR/CTIS/UPD> User Admin/Super User are provided below:

(all fields marked with an asterisk are mandatory)

Name\*: John Smith  
Organisation name\*: European Medicines Agency  
Organisation Address\*: Domenico Scardafalano 6  
Post Code: 1083 NH  
Country\*: the Netherlands

By obtaining the IRIS Industry User Admin/Parallel Distribution User Admin/CTIS Sponsor High Level Administrator, the user accepts the role of IRIS Industry User Admin/SPOR Super User/CTIS User Administrator representing the same organisation(s), for ensuring that there is a valid IRIS Industry User Admin/SPOR Super User/CTIS User Administrator acting on behalf of the organisation and that the rights of access for all their users are kept up to date.

<If the User Admin/Super User has requested multiple roles linked to the same organisation(s), for ensuring that there is a valid IRIS Industry User Admin/SPOR Super User/CTIS User Administrator acting on behalf of the organisation and that the rights of access for all their users are kept up to date.>

List of Organisations for which the first <IRIS Industry User Admin/SPOR Super User> needs to be affiliated

Organisation Name	Country	Organisation ID
European Medicines Agency	Netherlands	ORG-100013412
European Test Agency	Netherlands	ORG-102013412

Yours faithfully,  
David Jones  
Head of Medicines

*[Signature]*

Don't forget to include the **OMS Organisation ID** in your affiliation letter and make sure that it matches the one in your request

## Request further Access

Once a user administrator for an organisation is appointed **further access to EMA applications** can be requested.

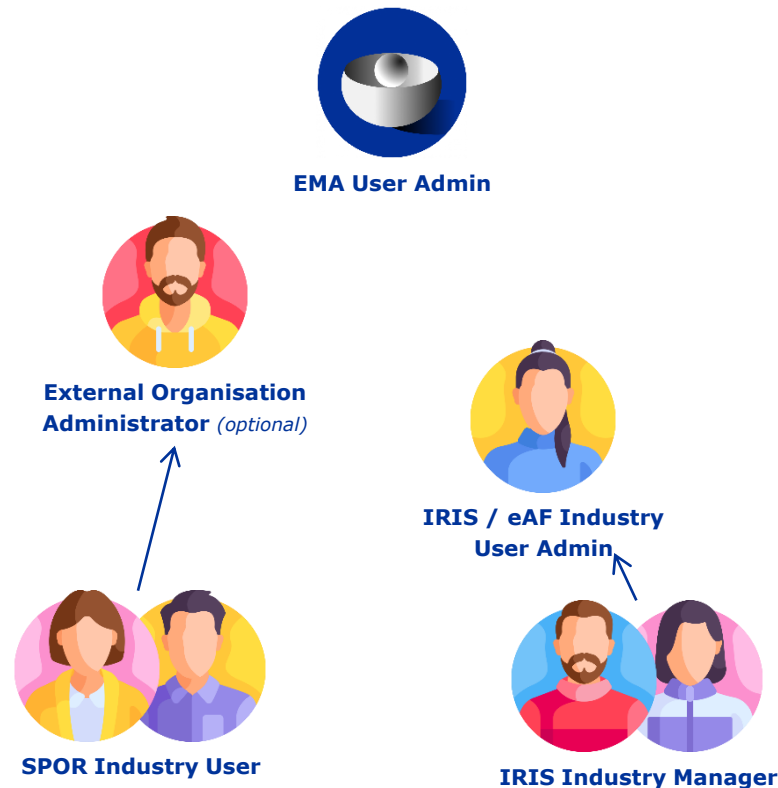

Some roles are available only for specific organisation type (e.g. Regulatory roles for National Competent Authorities) and some roles are restricted only to specific email domains.

The request is evaluated by the user administrator of the organisation.

### Third party providers (Consultants)

Consultants can access on behalf of several organisations. Based on the policy defined by the organization they can use a work email provided by the organisation (e.g. [john@pharma.com](mailto:john@pharma.com)) or the work email of the consultancy (e.g. [john@pharmaconsultant.com](mailto:john@pharmaconsultant.com)).

Consultants can request User Admin role by providing an additional letter stating that the organisation authorises this person to have the User Admin role in their behalf.

## [The new EMA Account Management experience demo](#)

## Changes

- > March 2022: External Organisation Administrator role allows to manage users for an organisation
- > August 2022: New request access for organisations workflow
- > Coming Soon: Possibility to request a new organisation from EMA Account Management

## Do's:

- > Do **sign** the affiliation letter stating **name** and **role** of the signing person for the relevant organisation.
- > Do have **more than one user administrator** this will ensure that your access request are always evaluated on time and a smooth transition in case a user administrator is leaving your organisation.

## Do not's:

- > Do not forget to provide **mandatory details** in the proof of affiliation letter to avoid unnecessary rejection

## Manage Access

---

- Approve Access
- Remove Access and Manage users of an organisation

## Approve Access

A 'User Administrator' of an organisation is accountable and responsible for **approving** and **revoking** access for users of the same organisation.

They are also notified when users accounts are reactivated or when the email address of a user has changed.

Pending Approvals are displayed on the home page of the platform.

When multiple User Administrators are available, requests to access on behalf of the organisation can be approved by any of the User Administrators.

The screenshot displays the 'Home' page of the EMA IRIS platform. The top navigation bar includes links for 'Welcome Page', 'Search your organ...', 'Manage My Access', 'Request Access fo...', 'Track My Requests', and 'Approvals' (showing 1 approval). Below this, there are links for 'Edit Identity', 'EMA Service Desk', 'EV Role Admin', and 'External Role Admin'. A section titled 'Your Pending Approvals' is highlighted with a blue box. It contains a table with columns 'Approval For Requester', 'Requested ...', and 'Date'. The table shows one pending approval for 'name sur...' requested on '23/09/202...'. To the right, there is a 'Latest Forms' section with the text 'Currently no data'. Below the 'Your Pending Approvals' section, a detailed view of a pending approval is shown. It is titled 'Owner Approval - Account Changes for User: surname\_n - name surname - name.surname@emaildomain.com | 1 Request'. It includes details: 'Requested on: 23 Sep 2022 15:56:06', 'Requested by: name surname', and 'Work Item ID: 125130'. It is assigned to 'IRIS Industry Manager (ORG-100031473) Approvers'. There are buttons for 'Approve All' and 'Deny All'. Below this, there is a section for 'Add: IRIS Industry Manager (ORG-100031473 - European Union Reference Laboratory For Alternatives To Animal Testing)' with 'Approve' and 'Deny' buttons. A note at the bottom states: 'You should request this role if you intend to create, edit, submit and withdraw applications via the IRIS platform for EMA scientific procedures (e.g. orphan designations, innovative task force, scientific advice...). This role will only provide you access to your own applications or for which you have been nominated as a manager. You will also be able to appoint Contributors to edit but not s... [Read more](#)'.

## Remove Access and Manage users of an organisation

Each user can remove its own access using the Manage Access functionality

User Administrators can list and revoke access for the users they manage.

User Administrators are encouraged to **list and review** the user accessing in behalf of their organisation on a regular basis.

For specific roles EMA requires periodic access reviews, if this is not performed access is revoked.

**Change of User Administrator:** If a unique user administrator left your organisation and the person does not have access to the account anymore, a ticket in the EMA Service Desk is required. A change of user administrator can take up to 5 working days if performed by the EMA

## Access EMA Systems

---

- Login into EMA Systems
- Set up Multi Factor Authentication (MFA)
- Logout from EMA Systems

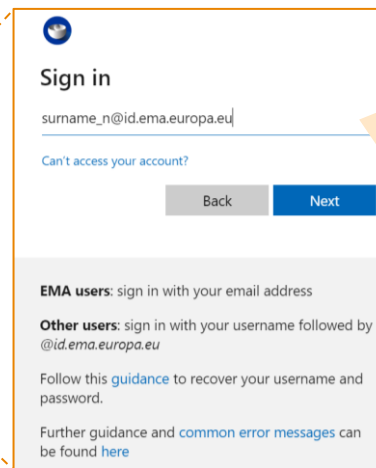

## Login into EMA Systems

The European Medicines Agency is migrating its applications to **modern authentication** methods. These methods are available for applications like IRIS, UPD, EV VET and they provide capabilities like Multi-Factor Authentication and Single Sign On

The transition of EMA applications to modern authentication and Multi Factor Authentication is **ongoing**. Some EMA applications like SPOR, EV Human and Eudralink authenticates users with username and password **without the suffix @id.ema.europa.eu** and without Multi Factor Authentication capabilities.

If your username and password are not working use the forgot password capabilities of [EMA Account Management](#) to reset them.

Sign in

surname\_n@id.ema.europa.eu

Can't access your account?

Back Next

EMA users: sign in with your email address

Other users: sign in with your username followed by @id.ema.europa.eu

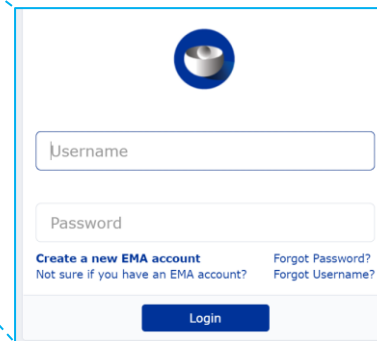

Follow this [guidance](#) to recover your username and password.

Further guidance and [common error messages](#) can be found [here](#)

You must sign in with your username followed by @id.ema.europa.eu:  
[username@id.ema.europa.eu](#)

The password is the same as in <https://register.ema.europa.eu>

**Multifactor authentication** is required

Log in

Note: Account name is not case-sensitive.

For technical support or to open a Eudralink account, please visit the EMA Service Desk portal: <https://servicedesk.ema.europa.eu>  
For urgent technical matters, telephone +31 (0) 88751 6000

## Set up Multi Factor Authentication (MFA)

First time you log in you are asked to set up your Multi Factor Authentication.

We advise to use a mobile authenticator application as more secure method.

In addition to MFA we use also the authentication context, like the device and the location from you are authenticating, and behaviour, like the time of the day or the frequency of your authentication to determine risk factors.

You can review your MFA settings here and you can check your recent sign-ins [here](#)

Further guidance are available [here](#)

Something you **know**

A password  
A pin  
**NOTE:** a code on email falls in "Something you know" as to access an email you are probably using a password

Something you **are**

Your fingerprint  
Your face  
Your eye  
Your voice

Something you **have**

A mobile phone  
An office phone  
A security Key  
A code generator

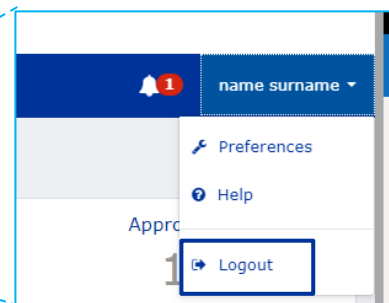

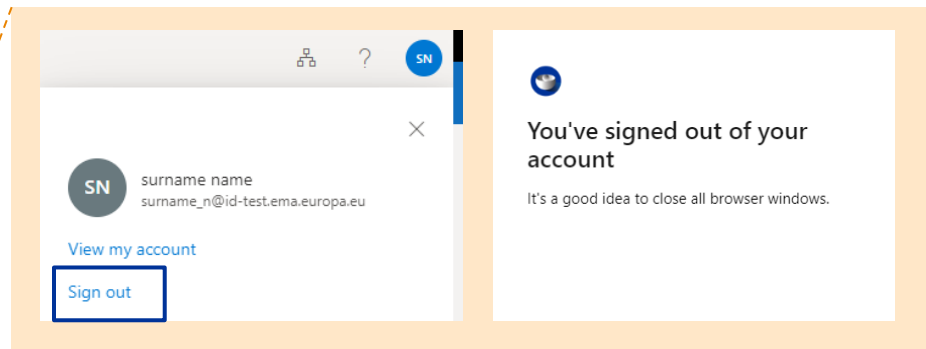

## Logout from EMA Systems

Most EMA systems have a **session timeout**, disconnecting the user after a **period of inactivity**.

EMA systems using modern authentication allow **single sign out**, meaning that logging out from one system logs out from all other EMA connected applications.

Other EMA systems may require you to logout independently or to wait a session timeout to log you out

## [The new EMA Account Management experience demo](#)

## Changes

- › Ongoing: EMA applications migrated to modern authentication

### Do's:

- › Do **review** regularly your Multi Factor Authentication settings
- › Do register more than one MFA method to ensure you are not locked out from you EMA Account

### Do not's:

- › Do not **share** your credentials (username and password), and EMA Account should be used by one single person
- › Do not **disclose your password** with anybody, EMA will never ask you to provide your password to support you
