EnprEMA Modernisation

19 November 2025

Summary

- History/ Approach/ Plan

- Improvements

- Go Live date/ Next Steps

- Q & A

History/ Approach/ Plan

- As part of the Legacy Modernization initiative at EMA, EnprEMA was selected as one of the first 2 application to be technically modernized.

- We follow SAFe approach at EMA, 2 week sprints of development/ testing & review in close collaboration with our business representatives Isabel & Gunter.

- Plan:

SEPTEMBER	OCTOBER	NOVEMBER	DECEMBER	JANUARY	FEBRUARY	MARCH
Public Web	User Auth+Private Web	MVP Ready + UAT	PROD Deployment	Continued Development of additional features		

Improvements

- Self-assessment form will be automated, no more paper. (brief description Panagiota? E.g.: a button on page x allows the registration, with a snapshot to illustrate the point)

- Concurrency: multiple users can access the form simultaneously.

- Agile registration timeline.

- DataBase will be updated up to the latest registered members

- Faster and secured website access.

EMA

Go Live & Next Steps

- Go Live date : 11th December

- First weeks of maintenance team on hyper care (extra support)

- For any incident/ issue, please open a ticket with us at our Service desk:

  - https://support.ema.europa.eu/esc

EMA

Thank you
