Communication Division

# Journey of patient engagement at EMA

# 20 years of PCWP

- In 2002, the Agency held a workshop with patients and consumers organisations to reinforce communications and exchange views
- One outcome of the workshop was the creating of the Working Group with Patients and Consumers Organisations – first meeting held on 8 May 2003
- In September 2005, EMA Management Board supported initiatives with these stakeholders as one of its 'core' activities
- The first Framework of interaction was endorsed and put in place in 2006 followed by creation of the PCWP.
