

EUROPEAN MEDICINES AGENCY
SCIENCE MEDICINES HEALTH

Objectives - Training session for patients and consumers involved in EMA activities, 25 November 2015

Presented by: Isabelle Moulon
Head of Department, Patients and Healthcare Professionals
Stakeholders and Communication Division

An agency of the European Union

Annual EMA Training Day

2015 new format:

- Interactive hands-on sessions
- Real examples
- Along life cycle of medicine

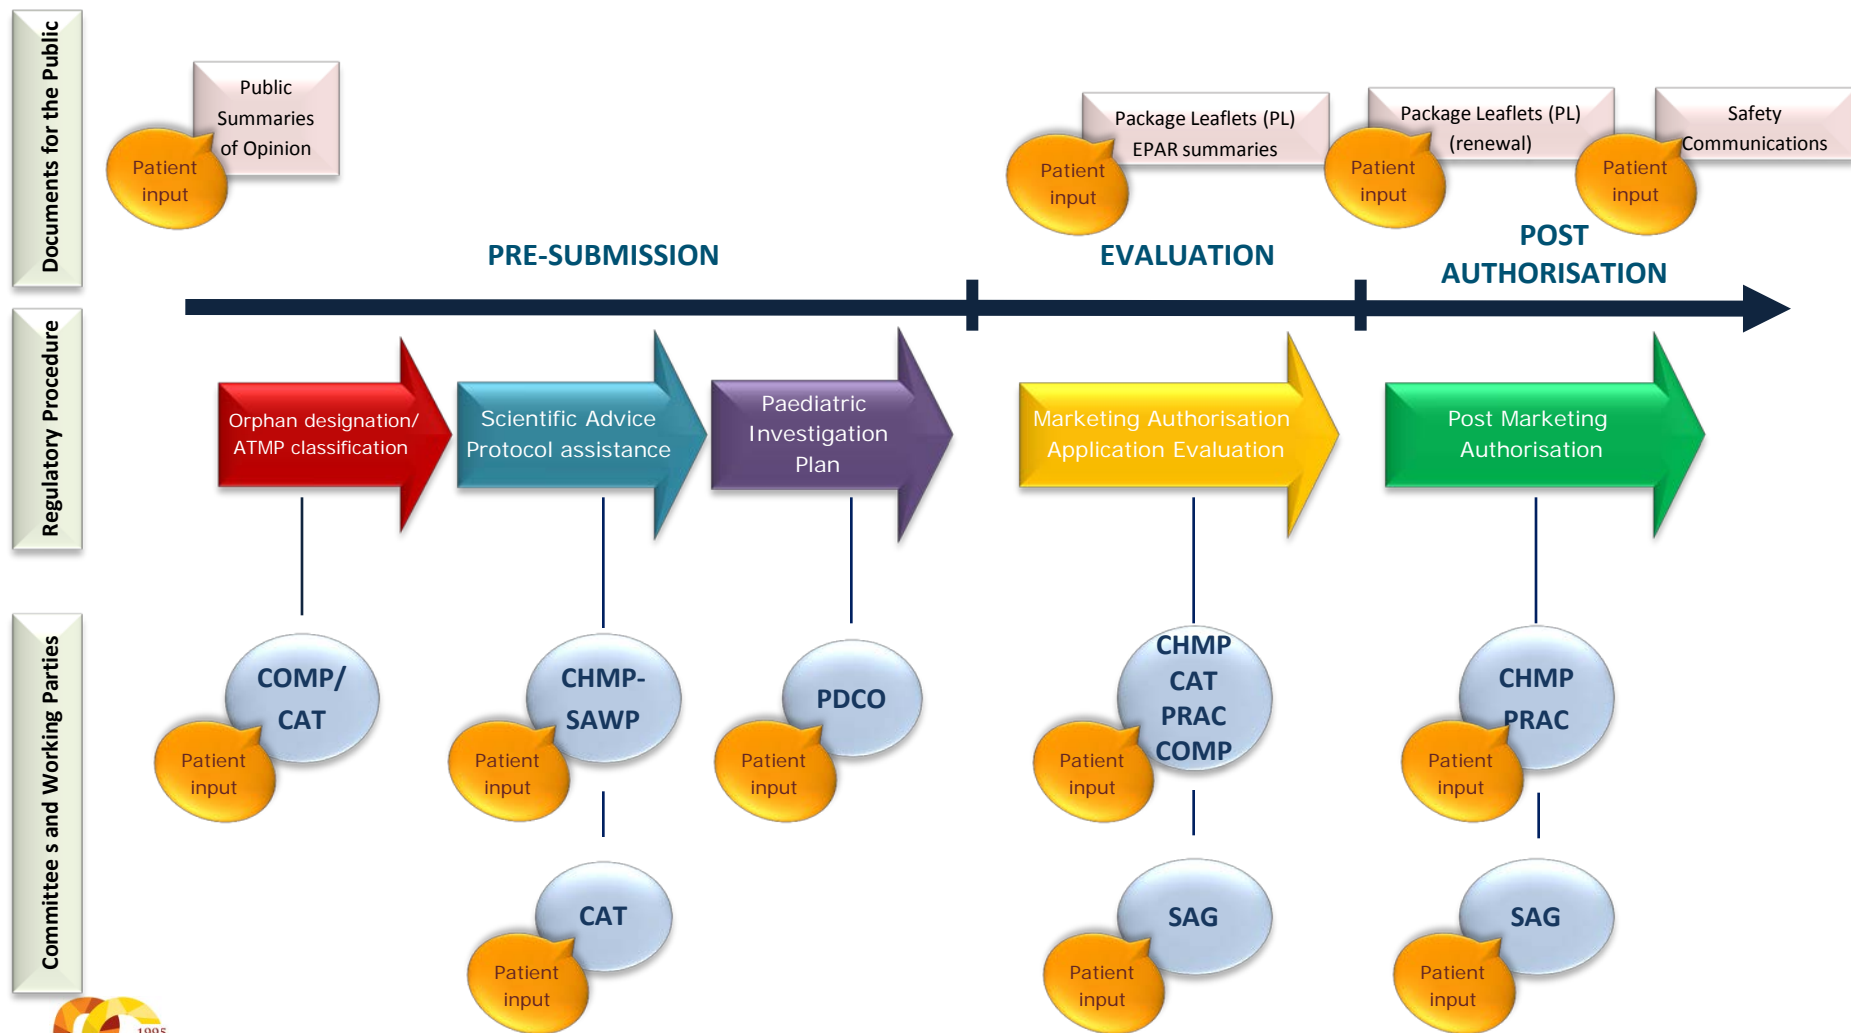

Objectives:

- To gain an understanding of the process of medicines evaluation in Europe; how medicines are evaluated and continually monitored for safety.
- Using a hands-on approach, participants will see where and how patients/consumers are consulted in these processes and to learn more about where and how they can be involved.

Opportunities for Patient involvement along the medicine lifecycle at EMA
