Troubleshooting session for CTIS (Organisation Management Services)

Session 4

Presented by Débora Martins Braga in November 2022
Master Data Manager – I-CS-RDM

An agency of the European Union

- OMS Key Principles
- Questions raised for today
- Questions previously raised
- Supporting documentation

OMS Key Principles

Changes to OMS Dictionary happen through **change request**

Supporting **documentation IS required** to create/update OMS data

OMS is a **standardised list** of organisations and locations

Anyone can submit a Change Request to **any organisation and/or location** published in the OMS Dictionary, as long as they submit **supporting documentation***

Validation of data as per date of the Change Request

Documentation is mandatory* to most of the OMS change requests

OMS manages organisations as legal entities, meaning as they are registered with the local authorities, supporting documentation is critical for the validation process

OMS reflects equivalent information as the business registry but it is **not meant to be the same/"copy"** of business registry (or other documents/sources)

OMS should reflect **data that reflects reality***:

- ***correct** organisation/legal entity
- ***correct** relationship with its address
- ***correct** address

Guidance available on the [OMS portal](#) under document C - OMS Data Quality standards on rules used by OMS team both at organization and location level

*guidance available on the [OMS portal](#) under document E - OMS Change Requests on correct document to be submitted

Questions raised for today

Troubleshooting questions

session 4

Objective: clarify OMS related questions

- 2 questions on Data management
- 1 questions on Change request process

If a private practice has the identical name to another entity that is already registered in OMS?

Data management

Source: OMS webinar

OMS Introduction - Key Principles

"Big" organisations e.g. Hospitals/Universities are represented by one organisation and one or more locations - details of **Departments are not managed in OMS** and will have to be managed directly by each system

OMS does **not have individuals**. If individuals act as sponsors, this needs to be dealt directly by each system. If an individual is registered within the business registry, then it's considered a company and hence EMA can register the individual in OMS

OMS does **not performs** since data will be used as a MAH in the sponsor or m

OMS data is hosted by EMA, accessible to and used throughout EMA and by external stakeholders

OMS provides a central source of organisation data (**OMS Dictionary**) which consists on a list of **organisations** with associated **physical locations** to be used as a reference and in support of EU regulatory activities

An **organisation**, as a legal entity, groups all its physical locations within a **jurisdiction/country**

Organisation data structured with unique IDs

An **organisation**, as a legal entity, groups all its physical locations within a **jurisdiction/country**

OMS Dictionary captures **organisations** as a **legal entity** within a certain country/jurisdiction

If the private practice is already **available** in the OMS Dictionary > use the organisation already available

If the private practice has **AN IDENTICAL** name (but it's not exactly the same) > **create** a new organisation

When will the issues be fixed where OMS connection when searching for sites/vendors in CTIS is not working or data is missing?

Data management

How OMS data is
managed > OMS team

OMS team **can help with:**

- Clarification on OMS registration process i.e. access to OMS portal, submission of change requests
- Clarification on OMS standards used
- Error message when using the OMS portal
- Organisation and/or location data missing or data needs to be updated

How OMS data is
used > CTIS team

CTIS team **can help with:**

- Clarification on the use of CTIS i.e. how to register, how to submit/update a procedure
- Error message on CTIS portal i.e. during submission or creation of new organisations using the CTIS portal

(1/2) **NEW** registration process for **CTIS** organisations

Change Request
process

3rd November 2022

6th December 2022 - TBC

OMS manages Organisations registered with the National Business registry (sources used by OMS are available on the OMS Data Quality Standards), **public entities, hospitals and academia***
To register such organisations and/or locations users need to continue using the standard OMS registration process

Sponsors (that do not fulfil the requirements above*) to use the **NEW CT registration process**

Sites (that do not fulfil the requirements above*) to use the **NEW CT registration process**

Sites (that do not fulfil the requirements above*) will be **registered/maintained directly in CTIS**

(1/2) NEW registration process for CTIS organisations

To be used by **Organisations THAT ARE NOT** registered with the National Business registry (sources used by OMS are available on the OMS Data Quality Standards), public entities, hospitals or academia

Change Request
process

Submit a change request using the OMS portal:

- Login OMS portal
- Search for the organisation using the organisation name field – the system should return zero results
- Click Request New Organisation button
- Populate the change request form with the organisation details
- Attach CT registration Headed letter filled with all mandatory information – template available on OMS portal as [J - CT registration Headed letter template](#)

Data Stewards validate all OMS CRs using guidance/references & tools:

- Validation if CT registration Headed letter filled with all mandatory information
- Organisation name will be created as submitted by user
- Location details will be created as per local national postal service - standardised/formatted and/or enrich data in English and in local languages

OMS CR approved = data published/updated in the OMS dictionary and available in CTIS portal

OMS CR rejected = reasons explained to requestor via email
If disagreement, raise ticket in ServiceNow, identifying the relevant CR number

Survey

We now invite you to fill out a short feedback survey

For **Sponsor** users, please use
code

For **Member States** users, please
use code:

The CTIS Training environment survey (Survey 4.0) is reopened:

<https://ec.europa.eu/eusurvey/runner/2abb5ba8-0ec4-9979-b692-0c63f4508b9b>

This survey collects expressions of interest in accessing the CTIS training environment ('CTIS Sandbox'), information and contact details of representative individuals, the organisations that they represent and the planning for use of CTIS of these organisations is reopened.

All details will serve to proactively identify the needs and intention of use of CTIS and grant access accordingly.

Questions previously raised

Troubleshooting question type

Objective: clarify data related questions

Change Request process

Who can change OMS data?

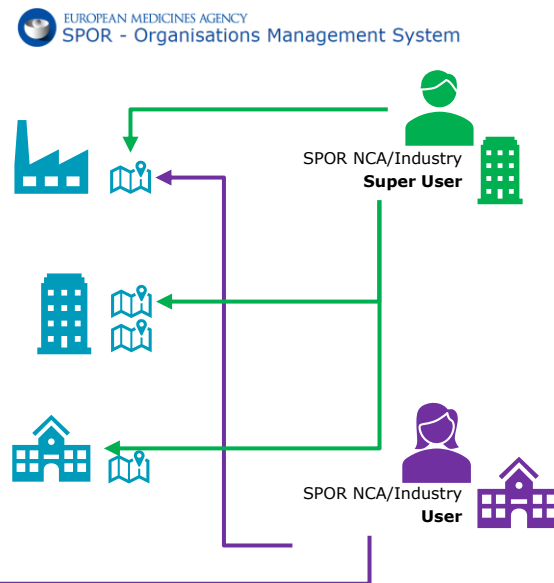

Change Request
process

Anyone can change OMS data:

- Using **CTIS** anyone can submit a Change Request to **create organisation** in the OMS Dictionary
- Using **OMS** anyone can submit a Change Request to **create and/or update organisation and/or location** published in the OMS Dictionary
- **As long as they submit supporting documentation**

Validation of data as per date of the Change Request

Questions raised

How to add/update OMS data?

Change Request
process

Clinical Trials

Add organisations

- Add organisations
- Update Organisation
- Add Location
- Update Location
- Update Organisation & Location

EUROPEAN MEDICINES AGENCY
SPOR - Organisations Management System

Using **Change Request** functionality available through:

- **CTIS** to **add organisations**
- **OMS** to **add/update any organisation/location data**
- As long as **submit supporting documentation** is submitted

Validation of data as per date of the Change Request

1. Submission

2. Validation/Standardisation

3. Approval/Rejection

Requestor

EMA Data Stewards

Guidance/references & tools

- OMS DQ standard
- Business registry
- AddressDoctor validation service

EMA Data Stewards

5 - 10 Working day SLA

*document available on the [OMS portal](#)

EEA organisation

1. Extract from the National Business Registry

Non-EEA organisation

1. Document stating the DUNS or GS1 identifier number
2. Extract from the National Business Registry
3. GMP certificates until January 28th 2022 – hereafter EudraGMPD will use OMS data

Hospital, University & Public entities

1. Headed letter – signed and dated
2. GMP certificates until January 28th 2022 – hereafter EudraGMPD will use OMS data

 Currently it is  possible for Sponsor to registry several sites in OMS in parallel. Is it possible to add this function in OMS?

Change Request
process

With the right access, **multiple change requests can be created in parallel:**

- ✓ Via **CTIS** multiple change requests to **add new organisations** can be submitted while preparing an application > please consult Handbook for further information on CTIS access
- ✓ Via **OMS** multiple change requests to **add/update multiple records** – limited to 1 pending change per record > user needs to have SPOR Super User or SPOR User access

Guest 

- Search
- Content view

Unaffiliated 

- Automatic with new EMA accounts created
- Export information
- **ONLY** Request **New organisation**
- 1 request at a time

SPOR Industry/NCA User 

- Require to request role in EMA AM
- Approved by Super User
- Export information
- **Create/Update ANY record** – no need to be affiliated to that same company

SPOR Industry/NCA Super User 

- Require to request role in EMA AM
- Approved by EMA – affiliation letter needed
- At least 2 Super Users per organisation
- Export information
- **Create/Update ANY record** – no need to be affiliated to that same company

Our investigational site is registered twice in OMS under different names same addresses. How can we merge this 2 entries?

Change Request
process

OMS Data Quality attributes*

Accuracy
Reflects reality?

Uniqueness
Only instance?

Conformity
Data standardised?

Consistency
Conflicting information?

Completeness
Details missing?

When **potential duplicated records** are identified by user

Submit a **Change request** via **OMS** portal to one of the records and use the **justification field to add a brief comment, including the ORG-ID of the potential duplicate**

Help us assure high level of
Data Quality

How can we have/register locations that are not available in the National business register?

Change Request
process

Source: OMS webinar

OMS Introduction - Key Principles

EUROPEAN MEDICINES AGENCY

10 OMS – Organisation Management

• OMS should reflect **data that reflects reality***:

- *correct organisation/legal entity
- *correct relationship with its address
- *correct address

OMS Dictionary can have as many locations as used by an organisation

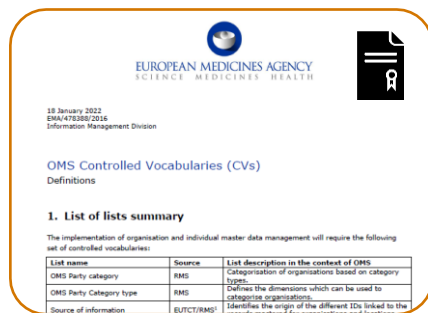

1. Add Organisation with location details available in the Business registry 
2. Add other locations details required for regulatory procedures
 - If a certain physical address is being used by another ORG, we need to create a new location (new relationship) ORG<>LOC 
 - **Location** (LOC ID) can only be **linked to one organisation** 
 - Physical address can be linked to as many organisations as needed 

Which organisation type should be entered when creating an Ethic Committee (e.g. health care or Regulatory Authority)?

Change Request process

*document available on the [OMS portal](#)

All category values are available on OMS Controlled Vocabulary

Value Level 1	Value Level 2	Party Category Type	Description
1. Educational Institution		Type	Examples: Academia which can participate in the Clinical Trial or MA regulatory activities.
2. Health care		Type	
	2.1. Hospital/Clinic/Other health care facility	Type	In the context of Clinical trials, when a hospital is within an educational institution, it is expected that the hospital exists as a separate legal entity and therefore recorded in OMS as a 'Health care.' If the hospital/clinic is a private business i.e. commercial or non-commercial, this value will still apply. Organisation will not be categorised as pharmaceutical company. The Clinical trial application process will define whether the hospital/clinic is a commercial or non-commercial organisation.

Requestor

Submission

Request to add an organisation - use Level 1 category when populating the form

4. Regulatory Authority

e.g. create an Ethic Committee

Validation

EMA adds Level 2 category

4.2. Ethics Committee

Our vendors have provided personal email addresses as OMS registration.
Does every vendor need to create a general inbox?

Change Request
process

Confidential information

not published on the OMS portal or
consuming systems

Public information

Communication details in OMS:

- Are not mandatory
- Change request required to add/update details
- Captured at location level - 1 phone number & 1 email address per locations
- Are publicly available
- No validation process – anyone can add/delete details

OMS recommendation is to provide a
**functional phone number and email
address**

Further communication details should be maintained
directly in CTIS

Troubleshooting question type

Objective: clarify data related questions

Data Management

When providing information on the registration/update OMS differentiate among the following groups: Pharmaceutical companies, CROs, Academia. How should sites be recorded?

Data management

Source: OMS webinar

OMS Introduction - Key Principles

OMS data is hosted by EMA, accessible to and used throughout EMA

"Big" organisations e.g. Hospitals/Universities are managed by one organisation and one or more departments. Departments are not managed separately.

OMS does not have individuals. If sponsors, this needs to be dealt with in a separate system. If an individual is registered in the business registry, then it's considered a legal entity, hence EMA can register the individual.

OMS does not define which role(s) the organisation performs since this depends on the context in which the data will be used, e.g. in theory an organisation can act as a MAH in the context of one medicinal product but as a sponsor or manufacturer for another medicinal product

OMS does not define which role(s) the organisation performs since this depends on the context in which the data will be used, e.g. in theory an organisation can act as a MAH in the context of one medicinal product but as a sponsor or manufacturer for another medicinal product

(Organisation_ID and Location_ID) and mapped to records loaded from source systems (e.g. EudraGMDP site reference code)

The Location_ID will be unique and will not change even after moving the location under another organisation

In the OMS there is no differentiation between an organisation created in the context of a human medicinal product versus a veterinary medicinal product

Regulatory roles, such as sponsors and sites are **NOT** maintained in OMS

OMS categorise organisations for the type of activities

Category	Consuming system	OMS
Hospital X	Site or Manufacture	L1 Health care L2 Hospital/Clinic/Other health care facility
University Y	Sponsor or Site or MAH	L1 Educational Institution
Company Z	Sponsor or MAH or Manufacture	L1 Industry L2 Pharmaceutical company
Company W	CRO or Sponsor or MAH	L1 Industry L2 Pharmaceutical company

Should the PI (name and surname and title) be registered in OMS or only the site where he/she works?

Data management

OMS Introduction - Key Principles

"Big" organisations e.g. Hospitals/Universities are represented by one organisation and one or more locations - details of **Departments are not managed in OMS** and will have to be managed directly by each system

OMS does **not have individuals**. If individuals act as sponsors, this needs to be dealt directly by each system. If an individual is registered within the business registry, then it's considered a company and hence EMA can register the individual in OMS

OMS **does not performs** since data will be used as a MAH in the sponsor or m

OMS data is hosted by EMA, accessible to and used throughout EMA and by external stakeholders

OMS provides a central source of organisation data (**OMS Dictionary**) which consists on a list of **organisations** with associated **physical locations** to be used as a reference and in support of EU regulatory activities

An **organisation**, as a legal entity, groups all its physical locations within a **jurisdiction/country**

Organisation data structured with unique IDs

An **organisation**, as a legal entity, groups all its physical locations within a **jurisdiction/country**

OMS Dictionary captures **organisations** as a **legal entity** within a certain country/jurisdiction - to validate the data we use each the official National business registry, with the exception of:

- Public entities i.e. Ministry of health
- Hospitals
- Universities
- Clinics – on-going validation process under discussion to be able to include them

*to any of the above, department/units details will not be captured in OMS

Our organisation is twice registered in the OMS system ORG-100012719 and ORG-100035949?

Data management

OMS is a master data management system that:

- Never delete any information – if no longer relevant or wrongly created the record it will be inactivated
- Retains historical data such as historical/previously recorded names and other system identifiers
- Have the merge capability, where in case of a merge (business merge or deduplication) all identifier are valid and mapped to the golden record

Objective: clarify data related questions

Organisation name standards

(1/2) We're still having difficulty getting OMS values amended to the registered name (national registry is incorrect), will these issues be re-examined/addressed?

Organisation name standards

The OMS provides a **single source of validated organisation/location data** that can be used as a reference to support EU regulatory activities

OMS reflects equivalent information as the Business registry, it is not meant to be the same/"copy" of Business registry

Organisation name

- Title case, except EEA organisations where a case sensitive format exist

Legal entity

- Country specific
- Apply standardisation

(2/2) We're still having difficulty getting OMS values amended to the registered name (national registry is incorrect), will these issues be re-examined/addressed?

Organisation name standards

Example

19MPP046HPT01	56681	GMPC	AUROBINDO PHARMA LIMITED	Unit - XI, Survey No. 61-66, I.D.A., Ranasthalam Mandal, Srikakulam District	Pydibhimavaram Village, Andhra Pradesh	532 409	India	2019-05-23
MT/018HM/2019	53908	GMPC	Aurobindo Pharma Limited, Formulation Unit - XV	Plot No. 17A, E Bonangi (Village), Parawada (Mandal)	Visakhapatnam District	531 021	India	2019-02-03
FT064/MH/001/2020	93823	GMPC	Aurobindo Pharma Limited - Unit X	Plot No. 16, APIIC, Multi Product Special Economic Zone, Menakuru Village, Naidupeta Mandal, SPSR Nellore District	Andhra Pradesh	524421	India	2018-10-26

ORG-100011510	Aurobindo Pharma Limited	India	LOC-100049448	Nellore	Plot No 16 Unit-X	524421
---------------	--------------------------	-------	---------------	---------	-------------------	--------

According to Indian Ministry of Corporate Affairs (National Business registry), only **AUROBINDO PHARMA LIMITED** is registered, hence we can't create a separate ORG ID for each Manufacture Unit

 OMS values to the registered name (the ES national registry is being incorrectly interpreted by the EMA change control analysts). Specifically, S.L vs S.L.U?

What is happening?

We have a placeholder in KUG for further assessment – discussion will need to take place between KUG members, Spanish NCA and legal teams

Until further discussions, we will continue using established rules/standards

- ✓ Spanish **Business registry** does **NOT** recognise **Unipersonal as a valid** Spanish **legal entity type**
- ✓ Certain organisations have a unipersonal “status/classification” when accessing extract from Spanish Business registry
- ✓ OMS uses the Spanish **Business registry** as **reference** source while mastering the data
- ✓ OMS cannot “translate” between i.e. S.L. vs S.L.U. as they have different meanings (not the same legal entity type)

It is not possible to search for organisations whose name includes the letters å, ä and ö. This is quite inconvenient as many organisations in Sweden have these letters in their names.

- Request XEVMPO/Art.57
- Request OMS services
- Request RMS Service
- Report an Issue with SMS
- Report an Issue with XEVMPO/Art.57
- Report an Issue with OMS
- Report an Issue with RMS

Requests – SLA 5WD

- Any Request that is cannot be submitted through OMS Portal using the available Change Request functionality i.e. delete existing contact details, delete Alternative Name, add/update National business registry number available on the export and API

Supporting documentaiton

1. Reference documents accessible from the [SPOR portal](#)

- OMS web user manual – guidance on SPOR services, e.g. searching, exporting data, requesting CRs
- SPOR user registration manual (how to register for SPOR)
- SPOR affiliation template (to register the first industry super user)
- Change Request Validation in OMS
- Organisation data quality standards in OMS
- SPOR SLAs (SLA are indicative and will be reviewed in future)
- OMS FAQs

5. SPOR related information & documents on EMA corporate [website](#)

2. Training videos

OMS training videos available to view on the [@emainfo](#) channel

Previous webinar - <https://youtu.be/bqOZEJ8AvW4>

4. EMA Account Management Portal

To create a new EMA account in order to obtain access to EMA systems (including SPOR). To request SPOR user role.

[Account Management Portal.](#)

*Dedicated webinar in the morning, recording will be made available in due course

3. EMA Service Desk Portal

Service requests, issues, requests for technical support shall be submitted through the [Service Desk Portal.](#)

Information	Reference Sources	Data in OMS	Impact/Process for mappings & CRs
Organisation name	Information from: 1. Trade registry 2. DUNS 3. Official docs (e.g. GMP certificates)	<ul style="list-style-type: none"> OMS reflects an <u>equivalent Organisation name and legal entity</u> as the Trade registry (or other documents/sources) which has been <i>Standardised according to <u>OMS DQ rules</u></i> 	<p>Q1. Is the Org name/legal entity in OMS the same as to Trade registry?</p> <ul style="list-style-type: none"> Yes - map No – see next question <p>Q2. Is the Org name/legal entity in OMS equivalent to Trade registry i.e. same meaning but standardised according to OMS DQ rules?</p> <ul style="list-style-type: none"> Yes – map – if a CR is submitted it will be rejected No – submit CR & attach TR copy
Location/ Address details	National Postal services via AddressDoctor	<ul style="list-style-type: none"> OMS should reflect an <u>equivalent legal address</u> as the Trade registry (or other documents/sources) which has been <i>Standardised according to <u>National Postal Services</u></i> OMS can contain additional addresses for the Organisation not reflected in the Trade Registry but available in other references. These will also be standardised according to National Postal Services 	<p>Q1. Is the location/address in OMS the same as to Trade registry?</p> <ul style="list-style-type: none"> Yes - map No – see next question <p>Q2. Is the location/address in OMS equivalent to Trade registry i.e. same meaning but standardised according to OMS DQ rules (AddressDoctor)?</p> <ul style="list-style-type: none"> Yes – map – if a CR is submitted it will be rejected No – submit CR & attach TR copy <p>Q3. Is the location/address in OMS <u>not listed in Trade registry but in another doc</u> and equivalent to another reference source i.e. same meaning but standardised according to OMS DQ rules (AddressDoctor)?</p> <ul style="list-style-type: none"> Yes – map – if a CR is submitted it will be rejected No – submit CR & attach reference copy

Reference Sources	Data in OMS	Case	Impact/Process for mappings & CRs
Company A Ltd.	Company A Ltd.	Org name/legal entity in OMS the same as to Trade registry	Map data
Company A Ltd.	Company A Limited	Org name/legal entity in OMS equivalent to Trade registry i.e. <u>same meaning</u> but standardised according to OMS DQ rules	Map data – if a CR is submitted it will be rejected (even if OMS is not a copy/exact match of TR!) <i>(see also other examples in equivalent doc!)</i>
Company A Ltd.	Company A Inc.	Org name/legal entity in OMS NOT equivalent to Trade registry	Submit CR & attach TR copy

OMS mapping exercise - Location/Address details

Reference Sources	Data in OMS	Case	Impact/Process for mappings & CRs
Rua da Amargura, 1 2300-286 Lisbon Portugal	Rua da Amargura, 1 2300-286 Lisbon Portugal	Location/address in OMS the same as to Trade registry	Map data
R. Amargura 1 2300-286 Lisbon Portugal	Rua da Amargura, 1 2300-286 Lisbon Portugal	Location/address in OMS equivalent to Trade registry i.e. same meaning but <u>standardised</u> according to OMS DQ rules (AddressDoctor)	Map data – if a CR is submitted it will be rejected
Rua da Amargura, 1 2300-286 Lisbon Portugal	Rua da Amargura, 1 2300-286 Lisbon Portugal	Location/address in OMS equivalent to Trade registry i.e. same meaning but <u>enriched</u> according to OMS DQ rules (AddressDoctor)	Map data – if a CR is submitted it will be rejected
Rua da Amargura, 1 2300-286 Lisbon Portugal	Rua da Amargura, 2 2300-286 Lisbon Portugal	Location/address in OMS NOT equivalent to Trade registry i.e. different meaning, different physical place	Submit CR to <u>create new location</u> & attach TR copy Note: Requires verification with National postal service but even if equivalent the TR determines if they are legally different
Rua da Amargura, 1 2300-286 Lisbon Portugal	Rua da Amargura, 1 2300-300 Lisbon Portugal	Location/address in OMS equivalent/NOT equivalent to Trade registry	Submit CR to update location & attach TR copy Note: Requires verification with National Postal Service - If same physical location > we update the postal code - If is a different physical location > we create new location

Reference Sources	Data in OMS	Case	Impact/Process for mappings & CRs
Rua da Amargura, 21-23 2300-286 Lisbon Portugal	Rua da Amargura, 21 2300-286 Lisbon Portugal <u>And</u> Rua da Amargura, 23 2300-286 Lisbon Portugal	Location/address in OMS equivalent to Trade registry i.e. same meaning but <u>standardised</u> according to OMS DQ rules (AddressDoctor)	Map data – if a CR is submitted it will be rejected
Rua da Amargura, 21-23 2300-286 Lisbon Portugal	Rua da Amargura, 21-23 2300-286 Lisbon Portugal <u>And</u> Rua da Esperanca, 13 4300-500 Porto Portugal	location/address in OMS equivalent to Trade registry + additional location/address not reflected in the Trade Registry but available in other references	Map data Additional location present in OMS can be added to the NCA/Industry databases for completeness purposes

Reference Sources	Data in OMS	Case	Impact/Process for mappings & CRs
Rua da Amargura, 21-23 2300-286 Lisbon Portugal	Rua da Amargura, 21 2300-286 Lisbon Portugal	Location/address in OMS partially equivalent to Trade registry	<p>Submit CR to <u>update location</u> & attach TR copy.</p> <p>Note: address data verified according to information provided by AddressDoctor.</p> <ul style="list-style-type: none"> - <i>If not recognised by AD & EU country a new loc will be created</i> - <i>If not recognised by AD & Non-Eu country the loc will be updated</i>
Rua da Amargura, 21-23 2300-286 Lisbon Portugal	Rua da Amargura, 21- 25 2300-286 Lisbon Portugal	<p>location/address in OMS equivalent to Trade registry</p> <p>+</p> <p>additional location/address not reflected in the Trade Registry but available in other references</p>	<p>Submit CR to <u>update location</u> & attach TR copy.</p> <p>Note: address data verified according to information provided by AddressDoctor.</p> <ul style="list-style-type: none"> - <i>If not recognised by AD & EU country a new loc will be created</i> - <i>If not recognised by AD & Non-Eu country the loc will be updated</i>

Examples on multiple doors addresses - NL

Reference Sources	Data in OMS	Case	Impact/Process for mappings & CRs
Keizersgracht 62-64 Amsterdam 1015 CS Netherlands	Keizersgracht 62-64 Amsterdam 1015 CS Netherlands	Location/address in OMS the same as to Trade registry <i>This applies for the odd numbers</i>	Map data
Keizersgracht 62/64 Amsterdam 1015 CS Netherlands	Keizersgracht 62-64 Amsterdam 1015 CS Netherlands	Location/address in OMS equivalent to Trade registry i.e. same meaning but <u>standardised</u> according to OMS DQ rules (AddressDoctor) <i>This applies for the odd numbers</i>	Map data – if a CR is submitted it will be rejected
62-64 Keizersgracht Amsterdam 1015 CS Netherlands	Keizersgracht 62-64 Amsterdam 1015 CS Netherlands	Location/address in OMS equivalent to Trade registry i.e. same meaning but <u>standardised</u> according to OMS DQ rules (AddressDoctor) <i>This applies for the odd numbers</i>	Map data – if a CR is submitted it will be rejected
Keizersgracht 62-64 Amsterdam 1015 CS Netherlands	Keizersgracht 62-64 Amsterdam Noord-Holland 1015 CS Netherlands	Location/address in OMS equivalent to Trade registry i.e. same meaning but <u>enriched</u> according to OMS DQ rules (AddressDoctor) <i>This applies for the odd numbers</i>	Map data – if a CR is submitted it will be rejected
Keizersgracht 62 Amsterdam 1015 CS Netherlands	Keizersgracht 63 Amsterdam 1015 CS Netherlands	Location/address in OMS NOT equivalent to Trade registry i.e. different meaning, different physical place <i>This applies for opposite scenario</i>	Submit CR to <u>create new location</u> & attach TR copy Note: Requires verification with National postal service but even if equivalent the TR determines if they are legally different
Keizersgracht 62 Amsterdam 1015 CS Netherlands	Keizersgracht 62 Amsterdam 1015 CT Netherlands	Location/address in OMS equivalent/NOT equivalent to Trade registry <i>This applies for the odd numbers</i>	Submit CR to update location & attach TR copy Note: Requires verification with National Postal Service - If same physical location > we update the postal code - If is a different physical location > we create new location

Examples on multiple doors addresses - NL

Reference Sources	Data in OMS	Case	Impact/Process for mappings & CRs
Keizersgracht 62 Amsterdam 1015 CS Netherlands	Keizersgracht 63-65 Amsterdam 1015 CS Netherlands	Location/address in OMS NOT equivalent to Trade registry i.e. different physical place as Addresses contain multiple consecutive odd or even numbers	Submit CR to <u>create new location</u> & attach TR copy
Keizersgracht 61 Amsterdam 1015 CS Netherlands	Keizersgracht 62-64 Amsterdam 1015 CS Netherlands	Location/address in OMS NOT equivalent to Trade registry i.e. different physical place As Addresses contain multiple consecutive odd or even numbers	Submit CR to <u>create new location</u> & attach TR copy
Keizersgracht 62-64 Amsterdam 1015 CS Netherlands	Keizersgracht 62 Amsterdam 1015 CS Netherlands	Location/address in OMS partially equivalent to Trade registry <i>This applies for the odd numbers</i>	Submit CR to <u>update location</u> & attach TR copy. Note: address data verified according to information provided by AddressDoctor. <i>- If not recognised by AD a new loc will be created</i>
Keizersgracht 62-64 Amsterdam 1015 CS Netherlands	Keizersgracht 62-66 Amsterdam 1015 CS Netherlands	Location/address in OMS equivalent to Trade registry + additional location/address not reflected in the Trade Registry but available in other references <i>This applies for the odd numbers</i>	Submit CR to <u>update location</u> & attach TR copy. Note: address data verified according to information provided by AddressDoctor. <i>- If not recognised by AD a new loc will be created</i>
Keizersgracht 62 Amsterdam 1015 CS Netherlands	Keizersgracht 62 Amsterdam 1015 CT Netherlands	Location/address in OMS equivalent/NOT equivalent to Trade registry <i>This applies for the odd numbers</i>	Submit CR to update location & attach TR copy Note: Requires verification with National Postal Service <i>- If same physical location > we update the postal code - If is a different physical location > we create new location</i>

Data Quality Rule in NL:

- Addresses can contain multiple consecutive odd or even doors numbers
- Addresses can not contain multiple non- consecutive doors numbers
- Odd or even doors number is displayed at the end after the street name
- Doors numbers are separated by hyphen with no space
- Postal code has 4 digits and 2 capital letters
