

The Clinical Researcher's perspective

Igor J. Koralnik, M.D.

**HIV/Neurology Center
Division of NeuroVirology
Beth Israel Deaconess Medical Center
Harvard Medical School**

Clinical Researcher's perspective: how we can help

- Direct contact and care for PML patients
- Access to MS patients on natalizumab
- Basic science in house or in collaboration
- Frequently consulted about management of PML patients worldwide
- Receive monthly natalizumab-PML statistics from Biogen
- Ideal partners for research studies

Clinical Researcher's perspective: what we need to succeed

- Better access to clinical information on natalizumab-PML: Web site
- Facilitate exchange of opinion about management of patients: Email list
- Promote research collaborations on a larger scale
- Stimulate and streamline access to funding for collaborative PML research
 - EMEA, NIH, foundations, philanthropy
