An agency of the European Union

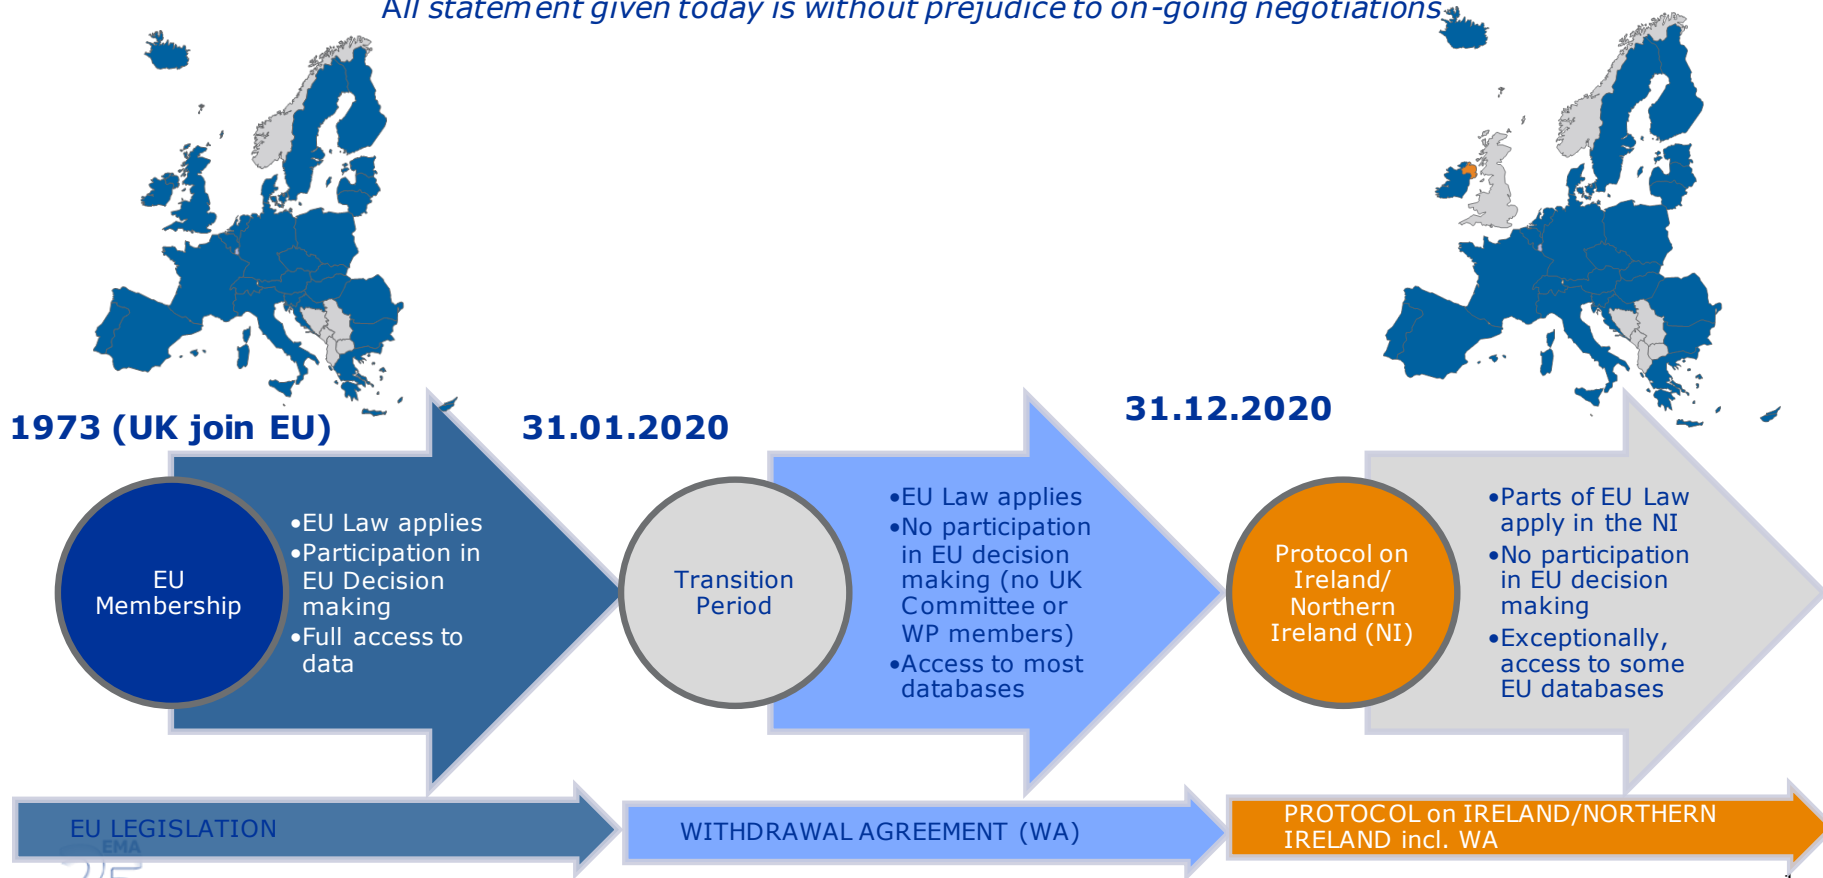

# UK's withdrawal from the EU

EUROPEAN MEDICINES AGENCY

*All statement given today is without prejudice to on-going negotiations*

- **EC, EMA and HMA** published **Notices, guidance to MAHs** of centrally and Nationally authorised medicines products for human and veterinary use and held many industry interested parties meetings since **May 2017**

## Notice to marketing authorisation holders of centrally authorised medicinal products for human and veterinary use

The United Kingdom submitted on 29 March 2017 the notification of its intention to withdraw from the Union pursuant to Article 50 of the Treaty on European Union. This means that unless a ratified withdrawal agreement<sup>1</sup> establishes another date, all Union primary and secondary law ceases to apply to the United Kingdom from 30 March 2019, 00:00h (CET).<sup>2</sup> The United Kingdom will then become a 'third country'.<sup>3</sup>

- Companies have been reminded to **plan in advance in order to avoid any impact on the continuous supply of medicines** for human and veterinary use within the Union (EEA).

Latest update March 2020 includes sections B. and C. on provisions of the Withdrawal Agreement and applicable rules in Northern Ireland after the end of the transition period (March 2020)

Brussels, 13 March 2020  
REV3 - replaces the notice (REV2) dated 1 February 2019 and the Q&A document (REV4) dated 1 February 2019

### NOTICE TO STAKEHOLDERS

#### WITHDRAWAL OF THE UNITED KINGDOM AND EU RULES FOR MEDICINAL PRODUCTS FOR HUMAN USE AND VETERINARY MEDICINAL PRODUCTS

#### Contents

INTRODUCTION.....	4
A. LEGAL SITUATION AS OF THE END OF THE TRANSITION PERIOD.....	5
1. ISSUES RELATED TO MARKETING AUTHORISATION, MARKETING AUTHORISATION PROCEDURES.....	5
1.1. Marketing authorisation holder, applicant.....	5
1.2. Reference medicinal product (generic or hybrid application).....	5
1.3. Bioequivalence studies.....	6
1.4. Marketing authorisation (applications) for biosimilars (medicinal products for human use).....	7
1.5. Well-established use.....	7
1.6. Global marketing authorisation (GMA).....	7
1.7. Minor Use Minor Species/limited market (veterinary medicinal products).....	8
1.8. Financial and administrative assistance in accordance with Commission Regulation (EC) No 2049/2005 (the 'SME Regulation').....	8
1.9. 'Sunset clause'.....	9
1.10. CHMP scientific opinion for ancillary medicinal substances in medical devices assessed by UK notified bodies (medicinal products for human use).....	9
1.11. Referral procedures ongoing at the end of the transition period.....	9

# UK's withdrawal from the EU-preparedness preparedness activities at EMA

EUROPEAN MEDICINES AGENCY

- EMA continues to track and monitor all Brexit-affected CAPs
- EMA prepares for required changes to the EMA IT databases and systems at the end of the transition period
- EMA is introducing the required adjustments to EMA's internal processes in view of the implementation of the IE/Ni Protocol and the end of the transition period
- Additional 'practical' guidance for companies considered
- Further communication activities are planned

## Centrally Authorised Products

**Acceptable in EU/EEA and NI**  
but not GB and other 3<sup>rd</sup>  
countries:

- Manufacturers responsible for importation, batch control testing and batch release
- Local representatives for NI
- Parallel distributors and \ re-packagers

**Acceptable in EU/EEA** but not  
in UK (incl. NI) and other 3<sup>rd</sup>  
countries:

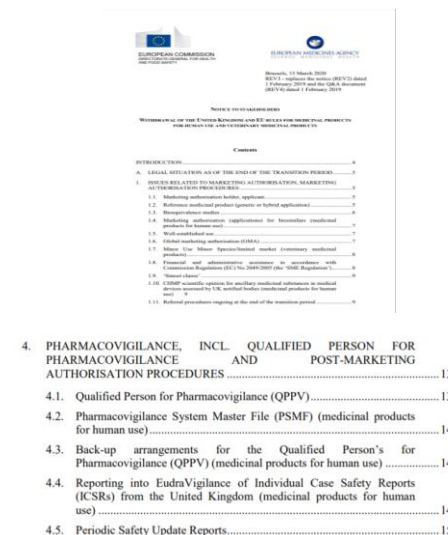

- Applicant/ MAH
- **QPPV and PSMF**
- OMCL for official batch release
- Reference products (certain exceptions for products authorised in UK before 1.1.2021, see guidance)

# Centrally Authorised Products: Status update

EUROPEAN MEDICINES AGENCY

- **Most MAHs have made the necessary changes** and are now ready to be regulatory compliant after 31 December 2020
- **All MAH transfers have been submitted** for authorised CAPs and therefore there are no CAPs with a MAH in the UK
- A number of CAPs for which changes to the QPPV, PSMF or manufacturing sites (where batch release, batch control testing and/or importation currently are only authorised for UK sites) **are still pending**, but these **changes are only required to be implemented by the end of the transition period**

EMA communication document cover and table of contents. The cover includes the EMA logo and the title 'NOTICE TO INDUSTRY'. The table of contents lists sections 1 to 15, with page numbers 1 to 15.

1. INTRODUCTION	1
2. TRANSITION PERIOD	2
3. CHANGES REQUIRED TO MARKETING AUTHORISATION (MA) APPLICATIONS	3
3.1. Marketing authorisation holder, applicant	3
3.2. Marketing authorisation holder (applicant) for human medicinal products for human use	3
3.3. Marketing authorisation holder (applicant) for human medicinal products for human use (human medicinal products)	3
3.4. Marketing authorisation holder (applicant) for human medicinal products for human use (human medicinal products)	3
3.5. Marketing authorisation holder (applicant) for human medicinal products for human use (human medicinal products)	3
3.6. Marketing authorisation holder (applicant) for human medicinal products for human use (human medicinal products)	3
3.7. Marketing authorisation holder (applicant) for human medicinal products for human use (human medicinal products)	3
3.8. Marketing authorisation holder (applicant) for human medicinal products for human use (human medicinal products)	3
3.9. Marketing authorisation holder (applicant) for human medicinal products for human use (human medicinal products)	3
3.10. Marketing authorisation holder (applicant) for human medicinal products for human use (human medicinal products)	3
3.11. Marketing authorisation holder (applicant) for human medicinal products for human use (human medicinal products)	3
4. PHARMACOVIGILANCE, INCL. QUALIFIED PERSON FOR PHARMACOVIGILANCE AND POST-MARKETING AUTHORISATION PROCEDURES	13
4.1. Qualified Person for Pharmacovigilance (QPPV)	13
4.2. Pharmacovigilance System Master File (PSMF) (medicinal products for human use)	14
4.3. Back-up arrangements for the Qualified Person's for Pharmacovigilance (QPPV) (medicinal products for human use)	14
4.4. Reporting into EudraVigilance of Individual Case Safety Reports (ICSRs) from the United Kingdom (medicinal products for human use)	14
4.5. Periodic Safety Update Reports	15

EMA has sent a communication to the MAHs of these CAPs in September to remind them of the need to update the Art 57 database before 31 December 2020 (feedback awaited, reminder sent in October)

➤ MAHs only need to update the QPPV and/or PSMF in the Art 57 database- (no variation required)

- UK already **does not participate** in EU decision making – no change
- After 31.12.2020 UK will **not be able to trigger a referral**
- UK's access to EMA **IT systems and databases** more limited
- UK **nationally authorised products** with respect to Northern Ireland (but not with respect to the rest of UK) have to comply with EU Law, which means they continue to be included in referral, PSUSA and PASS procedures, as applicable, with related fee liability

## EMA Impact assessment and preparedness on-going:

- Correct representation of UK(NI) new status in all EMA systems and system outputs (e.g. templates etc.) and necessary adjustments to technical validation rules to reflect the new status pertaining to entities located in UK(NI);

## Industry Impact and preparedness :

- Change on **ICSR reporting in Eudravigilance for Applicants/MAHs** i.e.
  - For Post-marketing cases: ICSR arising in UK(NI), EU/EEA reporting rules will apply and for those arising in UK(GB), 3<sup>rd</sup> country reporting rules will apply.
  - For Clinical Trials (CT) cases: ICSRs arising in UK (NI/GB), 3<sup>rd</sup> country reporting rules will apply as CT not part of IE/NI Protocol
- Access to register users will remain in place for organisations that have PhV reporting obligations

## Industry Impact and preparedness (Cont'd) :

- **Update to Article 57 QPPV database** to be made by QPPVs (or person delegated within the Company) to change UK to UK(NI), where applicable
  - **QPPVs to update the country location with the new ISO code (XI) between 15/12/2020 until 31/01/2021** for data related to **QPPVs location, MAHs location and MA validity in UK/NI**
- Process for **NAPs for PhV fee calculations to include UK(NI) NAPs**:
  - Current UK QPPVs should be located in EU/EEA (including UK(NI)) for EU/EEA+UK(NI) marketing authorisation in order to **receive the advice note**;
  - MAHs should be **located** in EU/EEA (**including UK/NI**) with a **UK/NI valid MA**: they will be **liable to pay the PHV fee**

*All statement given today is without prejudice to on-going negotiations*

## Brexit-related guidance for companies [Share](#)

### Table of contents

- [Transition period](#)
- [Guidance on centrally authorised products](#)
- [Guidance on nationally authorised products](#)
- [Submission of Brexit-related type I variations](#)
- [Brexit-preparedness of centrally authorised products](#)
- [Stakeholder meetings](#)

The United Kingdom (UK) formally left the European Union (EU) on 31 January 2020 and became a third country. A transition period began on 1 February 2020, during which EU pharmaceutical law remains applicable to the UK. This is due to end on 31 December 2020.

Since 2017, the European Medicines Agency (EMA) and the [European Commission](#) have been providing guidance to help pharmaceutical companies responsible for both human and veterinary medicines prepare for the consequences of Brexit.
