

# THE FUTURE in Oncology Clinical Trials:

## Patient perspective

### The Environment

Reduce administrative burdens to promote CTs conducted in the EU

Increase availability and accessibility to CTs for all patients in Europe

**Improve diversity and cross-border CTs to reach under-represented minorities and countries**

# THE FUTURE in Oncology Clinical Trials: Patient perspective

## Strategies

We promoted a Call to Action to unify the criteria between the EMA and HTA bodies to speed up ATMPs accessibility to patients

Support the participation of countries with low numbers of CTs

Engage with patient organisations to reach minority and under-represented groups
