# ACRO Panel discussion topics

**4. From your stakeholder group perspective, what is the key feature that the multi-stakeholder platform should have?**

- Making goals achievable visibly:

  - Clarity of goals, KPIs
  - Regular checkpoints for key areas of need and groups assigned to workstreams

- Ability to engage not just on current legal/process framework but empowered to enable positive changes to legal framework through engagement with EMA and EU Commission

- Regular series of updates on status of workstreams for visibility across the stakeholder groups
