

Industry position on the OMS KUG

- Recognition that this could mean significant work
 - Should not become a helpdesk
 - Triaging and prioritizing issues
 - Developing proposal/resolution
- Importance of good OMS DQ to enable successful PMS (feasibility, credibility of program)
- Willingness of industry group to play a leading role and to interact with EMA SPOR data governance. Need to understand this first.
- Proposal:
 - Ask/discuss EMA current MDM governance process. Assess and propose process enhancements
 - Understand impact on manufacturers data if not engaging now
 - Establish collaboration model (R&R) and execute
